Course Information

Course Overview

Significant advances in the diagnosis and treatment of arrhythmias and cardiovascular disease continue to emerge compelling the practice of cardiology to constantly evolve. These advances must be consistently implemented into clinical practice to provide the best care for patients. This conference is designed to educate clinicians on state-of-the-art care for arrhythmias and cardiovascular disease. Expert faculty will cover a wide range of topics including heart failure, cardiac arrhythmias, hypertension, peripheral vascular disease, and valvular disease and interventions. Participants will return to their practice equipped with the latest evidence base and practical information to improve patient outcomes.

Conference Highlights

- Plenary talks from nationally recognized experts
- Presentations on hot topics, upcoming scientific developments, and current advances in arrhythmias and cardiovascular disease care
- In-depth breakout sessions on pertinent topics
- Networking opportunities among colleagues
- Conference app with access to course materials and recordings from the convenience of your mobile device or computer

Educational Objectives

After attending this activity, participants should be able to:

- Apply new concepts in the management of heart failure, syncope, sudden cardiac death, and valvular disease.
- Incorporate current and emerging clinical evidence in the assessment, treatment and management of patients with cardiovascular disease, including hypertension.
- Employ contemporary diagnostic, treatment and management approaches in patients with heart failure and rhythm disorders.
- Outline best practices for the management of patients with atrial fibrillation.
- Discuss current pharmacologic and anticoagulation strategies in patients with atrial fibrillation.
- Enhance skills in the management of lipid disorders and hypertension to prevent cardiovascular disease.
- Illustrate techniques to identify and treat patients with unique instances of coronary artery disease.
- Evaluate interventional therapies for arrhythmia management.
- Describe current interventional strategies for managing patients with valvular heart disease.
- Identify when to apply new medical and surgical therapies for heart failure.
- Assess the indications for implantable cardiac monitoring devices; including pros and cons.

Target Audience

- Cardiologists
- Electrophysiologists
- Internists
- Cardiology Nurses/Nurse Practitioners
- Cardiology Physician Assistants
- Cardiovascular Technicians

Accreditation & Hotel Information

Accreditation

Physicians (MD, DO)

Scripps Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Scripps Health designates this live activity for a maximum of 15.25 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Nurses

For the purpose of recertification, the American Nurses Credentialing Center accepts *AMA PRA Category 1 Credits*[™] issued by organizations accredited by the ACCME. For the purpose of re-licensure, the California Board of Registered Nursing accepts *AMA PRA Category 1 Credits*[™]. Most state's Board of Registered Nursing accept *AMA PRA Category 1 Credit(s)*[™] as meeting continuing education requirements for license renewal. Nurses should check with their state board regarding use of CME credit.

Physician Assistants

The American Academy of Physician Assistants accepts Category 1 credit from *AMA Category 1 CME* organizations accredited by the ACCME.

Commercial Support

This course is supported, in part, by educational grants from industry, in accordance with ACCME accreditation Standards for Commercial Support. At the time of printing, a complete listing of commercial supporters was not available. Appropriate acknowledgement will be given to all supporters at the time of the educational activity.

Cultural and Linguistic Competency

This activity is in compliance with California Assembly Bill 1195 which requires that all CME activities comprising a patient care element include curriculum addressing the topic of cultural and linguistic competency. The intent of this bill is to ensure that health care professionals are able to meet the cultural and linguistic concerns of a diverse patient population through effective and appropriate professional development. Cultural and linguistic competency was incorporated into the planning of this activity.
