

INTERVENTIONAL CARDIOLOGY 2014

29TH ANNUAL INTERNATIONAL SYMPOSIUM

Comprehensive Approach to the Percutaneous
Management of Structural Heart Disease and
Coronary and Peripheral Vascular Disease

COURSE DIRECTOR
James R. Margolis, MD, FACC

Endorsed by the California and Colorado Chapters
of the American College of Cardiology

AMERICAN
COLLEGE of
CARDIOLOGY

Colorado
CHAPTER

California
CHAPTER

The Westin Snowmass Resort, Snowmass Village, Colorado
March 9-14, 2014

COURSE DESCRIPTION

Globalization pervades every aspect of our life. This is particularly true with vascular intervention – both coronary and peripheral. Although it has always been the purpose of this symposium to present that which is new and different in coronary and endovascular intervention, it has been equally important to place the *avant garde* in perspective. This 29th annual symposium is focused on creating such a perspective. Our international format with faculty from five continents gives us a worldwide perspective illustrating the cutting edge work performed both in and outside the US. Equally important is the perspective of how differing socioeconomic factors alter the performance of PCI in different cultures and different countries – usually achieving comparable results. In keeping with our global mission, this year we have added sessions from Croatia, Slovenia, and Russia.

KEY THEMES OF THE SYMPOSIUM

- > Stents: Who? What? When? How?
- > TAVR: Who? What? When? How?
- > Renal Denervation: Who? What? When? How?
- > Appropriateness of Appropriate Use Criteria

GENERAL THEMES FOR THE 2014 SYMPOSIUM

- > Real world experience with percutaneous aortic valve replacement
- > Renal sympathetic denervation: Where are we, and where are we going?
- > Cell therapy: Is it finally coming of age?
- > Cerebral protection for TAVR and other structural heart procedures
- > Anticoagulant and anti-platelet therapy in ACS

LEARNING OBJECTIVES

Upon completion of this symposium, participants should be able to:

- > Discuss the controversies surrounding the indications for coronary stents, efficacy, and complications
- > Better manage complications of coronary and peripheral percutaneous interventions
- > Gain an international perspective of percutaneous interventions including the effect of a country's economics on how interventions are performed
- > Understand the concept of treating the entire vascular tree, both peripheral and coronary
- > Better understand the role of thrombus in the pathophysiology of coronary and peripheral vascular disease, and how it complicates treatment
- > Integrate advances in electrophysiology into their practice

CALL FOR ABSTRACTS: SUBMISSION DUE DATE JANUARY 24, 2014

Submissions of original abstracts are being accepted for oral presentation and electronic poster display. To submit your abstracts, please visit www.promedicacme.com.

CME ACCREDITATION AND DESIGNATION

Promedica International CME is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Promedica International CME designates this live activity for a maximum of 38 AMA *PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Provider approved by the California Board of Registered Nursing, Provider #8495 for 38 contact hours.

Category 1 CEUs for Perfusionists have been applied for through the American Board of Cardiovascular Perfusion (ABCP).

EUROPEAN ACCREDITATION

Due to a mutual recognition between the AMA and the UEMS, European participants may convert AMA Category 1 Credits.

TARGET AUDIENCE

This symposium is designed for interventional cardiologists, clinical cardiologists, cardiothoracic surgeons, radiologists, basic scientists, vascular medicine specialists, nurses, cath lab technicians, and other health care professionals with a special interest in the field of interventional and vascular medicine.

ACTIVITY EVALUATION

Evaluation by online questionnaire will address content, presentation and future educational needs.

COMMERCIAL SUPPORT

This program is supported, in part, by educational grants and exhibits from industry, in accordance with the ACCME Standards for Commercial Support. At the time of printing, a complete list of commercial supporters was not available. Appropriate acknowledgement will be given to all supporters in meeting materials onsite.

LOCATION

The Westin Snowmass Resort
Snowmass Village, Colorado

REGISTRATION

Physician/Industry

\$1,050 through January 24, 2014

\$1,250 after January 24, 2014

Resident/Fellow/Nurse

\$550 through January 24, 2014

\$750 after January 24, 2014

Please make checks payable to Promedica International CME in US dollars drawn on a US bank. Visa, MasterCard, American Express and Discover cards are also accepted.

Please register online at www.promedicacme.com. If you prefer, you may complete the form below and mail or fax it to:

Promedica International CME
300 Carlsbad Village Drive, Suite 108A-326
Carlsbad, CA 92008
Tel: (760) 720-2263
Fax: (760) 720-6263
Email: Lsteigerwald@promedicacme.com

REFUNDS

All cancellations must be submitted in writing and refunds will be subject to a \$100 administration charge. Cancellations cannot be accepted over the telephone. Refunds will not be available after January 24, 2014.

HOTEL ACCOMMODATIONS

A block of rooms has been reserved at the Westin Snowmass Resort and in limited quantities at the adjacent Wildwood Snowmass. Please contact the hotel directly for room reservations at 800-525-9402, or 970-923-3520, or by fax to 970-923-5494. In order to receive the special rates below, you must mention the Interventional Cardiology 2014 symposium. Reservations must be received by the Westin Snowmass Resort no later than end of business day, February 7, 2014.

Special rates for Interventional Cardiology 2014 participants are below. Please note that a resort fee and applicable taxes will be added to the nightly rates.

\$345 Westin Standard Room

\$370 Westin Deluxe Room

\$395 Westin Slopeview Room

\$199 Wildwood Snowmass Room

A deposit of 50% of the total stay is required at the time of booking and the balance is required 30 days prior to check in.

HERE'S WHAT THEY'RE SAYING

Excellent content and a most thorough presentation and discussion of the important issues in interventional medicine!

Very useful design of the congress where you can obtain updated info from most prominent trials directly from top researchers, and directly communicate with them on that topic.

This meeting is one of the best in the world for international networking and invasive cardiology!

This program is always excellent!

Unbelievably comprehensive presentations addressing all areas and current important interests and discussions.

Interesting and inspiring talks and very engaged discussions with top shots in a perfect environment.

The faculty was exceptional...the enthusiasm contagious!
