ORAL BOARD REVIEW COURSE

SPRING 2014

REGISTRATION OPENS MID-JANUARY, 2014

AAEM'S ORAL BOARD REVIEW COURSE

Each year more than 1,000 residents graduate from the emergency medicine training programs. Most of these graduates seek board certification by ABEM or AOBEM as the next step in their professional development and to help them attain the position of a specialist in emergency medicine. It is a requirement of both the ABEM and AOBEM that each individual pass an oral board examination before board certification status is awarded.

Comments received on past evaluations show that many of these graduating residents, while extremely well-trained in the practice of emergency medicine, need additional instruction in the mechanics and format of oral board examinations. Our course is designed to meet these educational needs by providing a venue in which the format of an oral board examination is replicated as closely as possible.

COURSE FEATURES

- **CONVENIENT** — same great course offered in six locations to reduce travel time and cost to participants.
- **RELEVANT CONTENT** — format which simulates the American Board of Emergency Medicine oral board examination.
- **REASONABLY PRICED** — lunch included each day for all course participants.
Breakfast included each day for those who stay at the course site hotel.
- **EXPERIENCED FACULTY** — board certified emergency medicine practitioners.
- **RECORDED ENCOUNTERS** — examinees are allowed to bring a tape recorder and their own tape to record their one-on-one case encounters with prior approval.
Participant recording of case encounters is for their individual use only. Any duplication or distribution is prohibited.

TARGET AUDIENCE

THIS COURSE IS DESIGNED FOR:

Emergency medicine practitioners preparing to take the American Board of Emergency Medicine (ABEM) or the American Osteopathic Board of Emergency Medicine (AOBEM) oral board examination.

PREREQUISITE

All registrants for the AAEM Oral Board Review Course must have passed the American Board of Emergency Medicine (ABEM) qualifying examination or completed the American Osteopathic Board of Emergency Medicine (AOBEM) part 1 certification requirements.

LEARNING OBJECTIVES

UPON COMPLETION OF THIS COURSE, PARTICIPANTS WILL BE ABLE TO:

1. Demonstrate competency in patient care that is compassionate, appropriate and effective for the treatment of the health problem.
2. Demonstrate medical knowledge and the application of this knowledge to patient care.
3. Demonstrate interpersonal and communication skills that result in effective information exchange and teaming with patients, their families, and other health professionals.
4. Demonstrate professionalism through a commitment to carrying out professional responsibilities, adherence to ethical principles, and sensitivity to a diverse patient population.
5. Integrate the practice-based learning process, evaluate their progress throughout the course, and apply the experience gained in the simulation to better prepare them for the ABEM or AOBEM oral board exam.

METHODS OF INSTRUCTION

After an introductory session to familiarize participants with the ABEM/AOBEM oral board format, each candidate will be presented with 12 single-case encounters and four multiple-case encounters over the course of two days. Instruction will be provided in one-on-one encounters with members of the course faculty. Candidates will respond to examiners as they would to ABEM/AOBEM examiners. After each case, the candidate will receive immediate feedback from the examiner, who may also offer suggestions for improvement. Between sessions with examiners, participants may enhance their learning in a common study area, where relevant study materials will be displayed. A debriefing session on day one allows for an important overview of the exam experience and provides participants with helpful take-home points.
