

Xth International Conference on

Rapid Response Systems and Medical Emergency Teams

Hilton Downtown, Miami, May 12-13, 2014

MONDAY MAY 12, 2014

- 07:00 – 08:00** Registration and Continental Breakfast
- 08:00 – 08:30** Welcome, Opening Remarks and Introduction of the Society
- 08:30 – 09:15** Opening Lecture: Building an integrated approach for assessing and improving Rapid Response Systems. Paul Barach
- 09:15 – 10:00** Plenary Session: Is zero possible? Chris Parshuram
- 10:00 – 10:30** Break

10:30 – 12:00
Outcomes and Metrics
Francesca Rubulotta

- Does Rapid Response Team matter?
Daryl Jones
- Auditing rapid response systems
Gary Smith
- Surviving cardiac arrest
Francesca Rubulotta
- Outcomes in pediatric population
Chris Parshuram

10:30 – 12:00
Forming a RRS/RRT
Edgar Jimenez

- The Australian experience
Ken Hillman
- RRS Implementation in the U.S.
Michael DeVita
- The European perspective
Anne Lippert
- Introducing RRS in a health system
Jorge Sinclair

10:30 – 12:00
Family Participation
Mandy Odell

- Family presence during CPR
Suzanne Balbosa-Sanders
- Patient-triggered calls
Mandy Odell
- Integrating Critical Care Outreach and end-of-life care
John Welch
- Teaching autonomy through standardization of care
Daphne Carter

- 12:00 – 13:00** The implementation and evaluation of a standardized RRS in over 250 acute hospitals Ken Hillman

13:00 – 14:30

Impact in cardiac arrests

Ken Hillman

- Epidemiology of cardiac arrests in the U.S.

Javier Perez-Fernandez

- Can cardiac arrests be reduced?

Gary Smith

- The value of electronic ICU in reducing mortality.

Louis Gidel

- The end of the CPR industry.

Ken Hillman

13:00 – 14:30

Models of Rapid Response Systems

Bernard Fikkers

- Ramp down: A doctor centered RRS

Bernard Fikkers

- Ramp up: the nurse-led, nurse-staffed Critical Care Outreach service

John Welch

- Integrating the RRS response

Michael Devita

- Rapid Response Systems in Latin America

Gloria Rodriguez-Vega

13:00 – 14:30

Pediatric Rapid Response Systems

Chris Parshuram

Recognition and management of critical illness in children

Chris Parshuram

- Integrated telemedicine in pediatric rapid response

James Marcin

- Urgent ICU admission as a meaningful RRT metric; assessing timeliness and need

Chris Bonafide

- RRS implementation styles and strategies: learning from eleven remote RRS implementations

14:30-15:00

Break

15:00-16:30

Year in review

Javier Perez-Fernandez

- Adults

Francesca Rubulotta

- Pediatrics

Chris Parshuram

- Nursing

Marilyn Hravnak

15:00 – 16:30

Neurological outcomes

Gloria Rodriguez-Vega

- Neuro ICU Impact on RRS

Karel Fuentes

- Neurological Injury mitigation

Paul Damski

- Cooling

Gloria Rodriguez-Vega

- Neuro evaluation

Jose Guitian

15:00 - 16:30

Patient safety

Anne Lippert

- The reality behind medical errors

Anne Lippert

Round table ***Mandy Odell, Mark Hauser, Anne Lippert, patient advocate (TBD)***

16:30 – 17:15

Society General Assembly

18:15-19:30

Forum: The response of the Industry to the challenges for RRS

19:30 – 21:00

Cocktail and Reception

07:00-08:00

Breakfast

08:00-8:30

Presidential address

08:30-10:00

Clinical alerts & technology

Gary Smith

- What technology is needed for RRS?

Gary Smith

- SAMBA

Chris Subbe

- Continuous monitoring

Eyal Zimlichman

- Integrated alert system in a healthcare system

Edgar Jimenez

08:30-10:00

End of Life

Michael DeVita

- RRT involvement in end of life care.

The Australian experience

Daryl Jones

PRO/CONS Debate

- RRT involvement in end of life care is not appropriate

Brad Winters

- RRT involvement in end of life care is essential

Michael DeVita

08:30-10:00

Team support and well-being

Geoff Lighthall

- Fear goes two ways

Ronald Burke

- Crisis Resource Management. Benefit of human patient simulation

Jose Guitian

- Supporting the team

Geoff Lighthall

- Post traumatic recovery
(TBD)

10:00-10:30

Break

10:30-12:00

Improving quality of care through RRS

Geoff Lighthall

- The impact of measurement systems in the healthcare

Geoff Lighthall

- The criteria for triggering RRT intervention

Gary Smith

- Impacting hospital safety

Bernard Fikkers

- Failure to respond

Chris Subbe

10:30-12:00

Cultural differences in DNAR and the role of RRS

Gloria Rodriguez-Vega

- Round table

Ken Hillman

Edgar Jimenez

Mandy Odell

Jorge Sinclair

10:30-12:00

Training the team

Daryl Jones

- How to conduct a mock code

John Mouw

- The Orlando experience

Valerie Danesh

- Simulation education for afferent and efferent arm clinicians

Marilyn Hravnak

- The Danish experience

Anne Lippert

TUESDAY MAY 13, 2014

- 12:00-13:30** Implementation of RRS in U.S. Health System: The Veterans Administration Experience. **William Rodriguez**
- 13:30-14:30** Poster presentation and award ceremony

14:30-16:00
**RRS Interventions
in surgical patients**
Babak Sarani

- Medical versus surgical RRT
Babak Sarani
- Unique aspects on the care of surgical patients.
Brad Winters
- Emergencies in neurosurgical pt.
Gloria Rodriguez-Vega
- Emergencies in the general surgical patient
Juan Carlos Verdeja

14:30-16:00
Bedside nursing care
John Welch

- Failure to rescue: the nursing component
Marilyn Hravnak
- Education of ward staff
John Welch
- Protocols and initiation of RRS
Ronald Burke
- The independent nurse prescriber in the RRS
Mandy Odell

14:30-16:00
Educational milestones
Javier Perez-Fernandez

- The forgetting curve
John Mouw
- What do we need to teach the staff on general wards
Gary Smith
- FCCS
Javier Perez-Fernandez
- Pre-course highlights
Francesca Rubulotta

Closing remarks

SOUTH FLORIDA PULMONARY
AND CRITICAL CARE, LLC

PULMONARY PHYSICIANS
OF SOUTH FLORIDA, LLC
