STEMI MORNING AGENDA

7:30 am – 8:00 am

REGISTRATION

7:55 am – 8:00 am

WELCOME

Liza Pilch, MD, MBA, FACEP

Course Director

Attending Physician, Physicians Immediate Care;
Chicago, IL

8:00 am – 9:00 am

CARE OF THE NSTEMI PATIENT

Yanina A. Purim-Shem-Tov, MD, MS, FACEP

Medical Director of Chest Pain Center, Rush University Medical Center, Chicago, IL

OBJECTIVE: Identify strategies for the management of patients with unstable angina and NSTEMI, exploring the potential usages of IIb/IIIa inhibitors, heparin, Plavix, aspirin and other antiplatelet therapies

9:00 am – 9:10 am

BREAK

9:10 am – 10:10 am

CHEST PAIN PATIENT – RAPID RULE OUT

Edward Sloan, MD, MPH, FACEP

Professor, Department of Emergency Medicine, University of Illinois at Chicago; Attending Physician, Department of Emergency Medicine, University of Illinois Hospital and Health Sciences System; Chicago, IL

OBJECTIVE: Review the epidemiology, pathology and diagnosis of the chest pain patient, with a focus on developing a strategy for the 2-hour protocol

10:10 am – 11:10 am

CARE OF THE STEMI PATIENT

Dr. Sloan

OBJECTIVE: Evaluate optimal care of the STEMI patient in the hospital, discussing the key skills for door-to-balloon treatment and the use of early tPa/lysis

11:10 am – 11:20 am

BREAK

11:20 am – 12:20 pm

EMS TRIAGE

Matthew Jordan, MD, FACEP

Clinical Assistant Professor, University of Illinois College of Medicine; Department of Emergency Medicine, Presence Resurrection Medical Center; Chicago, IL

OBJECTIVE: Outline pre-hospital triage of chest pain patients, examining pre-hospital treatment protocols; the transport of STEMI patients in urban, suburban and rural environments; and the usage of EKGs in ambulance transport

ICEP presents its inaugural **STEMI-Stroke Seminar**, focusing on understanding and implementing the most current guidelines for the treatment of STEMI and stroke patients in the emergency department.

The seminar has been developed to help emergency physicians meet Joint Commission requirements for specialized STEMI and stroke continuing education hours.

Join us for the full-day program for 4 hours of STEMI topics and 4 hours of stroke topics. Or join us for a half-day morning or afternoon to focus on just one of these in-depth topics.

THE STEMI-STROKE SEMINAR

Stroke AFTERNOON AGENDA

12:20 pm – 1:10 pm

LUNCH (provided for full-day attendees)

AFTERNOON REGISTRATION

for registrants attending Stroke session only

1:10 pm – 2:10 pm

TPA 0-3 HOUR AND 3-4.5 HOUR WINDOW

Shyam Prabhakaran, MD

Associate Professor, Ken and Ruth Davee Department of Neurology, Northwestern Memorial Hospital; Chicago, IL

OBJECTIVE: Demonstrate the need for early administration of tPa, including criteria for eligibility in the 0-3 window and evaluation of its use in the 3-4.5 window

2:10 pm – 3:10 pm

ADVANCED NEUROIMAGING IN ACUTE ISCHEMIC STROKE

E. Bradshaw Bunney, MD, FACEP

Associate Professor and Residency Director, Department of Emergency Medicine, University of Illinois at Chicago; Attending Physician, Department of Emergency Medicine, University of Illinois Hospital and Health Sciences System; Chicago, IL

OBJECTIVE: Illustrate the role of advanced neuroimaging in the treatment of ischemic stroke, analyzing the impact and indications for CTA, CTP, and MR diffusion/perfusion

3:10 pm – 3:20 pm

BREAK

3:20 pm – 3:50 pm

INTERVENTIONAL STRATEGIES

Dr. Prabhakaran

OBJECTIVE: Assess interventional strategies for stroke patients with a comprehensive review of evidence to support their selective use

3:50 pm – 4:40 pm

TRANSFER PROTOCOLS, OPTIMAL HOSPITAL PROTOCOLS, AND STROKE CENTERS

Marc Dorfman, MD, MACP, FACEP

Residency Director, Emergency Medicine Residency, Presence Resurrection Medical Center; Assistant Clinical Professor, University of Illinois at Chicago; Glencoe, IL

OBJECTIVE: Investigate the key components of optimal hospital care of the stroke patient, including transfer protocols and utilization of stroke centers

4:40 pm – 5:10 pm

WRAP-UP

Dr. Liza Pilch

OBJECTIVE: Summarize issues, documentation and recommendations related to the care of stroke patients, focusing on medicolegal concerns and implementation of core components of thrombolytic guidelines and ACEP guidelines
