Update in Internal Medicine

Target Audience Primary care providers, nurse practitioners, physician assistants and specialists in Internal Medicine and Family Practice seeking updates in practical knowledge relating to patient care.

Purpose and Content The Update in Internal Medicine is a program emphasizing topics requested by our referring physicians, controversies arising from journal clubs, and posed by our trainees. The program highlights diagnostic and therapeutic solutions based on the most recent clinical science. The goal is to provide state-of-the-art practical advice on issues identified as frequent items for consultation and second opinions, as well as new advances in applying molecular techniques in translational medicine.

Educational Objectives Upon completion of this symposium, the participants should be able to link the educational objectives to Core Competencies (Medical Knowledge and Patient Care) and be able to:

- Utilize routine testing of electrolytes to understand subclinical acid base disturbances
- Review primary care aspects of chronic kidney disease
- Integrate new guidelines for management of rheumatoid arthritis
- Utilize the current ACCP guidelines for management and diagnosis of pulmonary embolism
- Discuss the ethical principles of end-of-life care
- Utilize evidence based guidelines for lipid management
- Translate into direct patient care the basis of treating low testosterone states
- Implement current strategies for hypercoagulable workups

Aronofsky Lecture

The lecture honors Julius S. Aronofsky, Ph.D. a longtime Dallas educator and informatician. The series is dedicated to the discussion of current medical informatics developments and their application to treatment modalities. The purpose is to provide speakers who are leading scholars and practitioners in the field. The presentation is intended to give physicians and other health care professionals exposure to advanced technologies being applied to the care of patients.

Target Audience Physicians and healthcare professionals interested in the newest advances in medical informatics or other technological areas of research that will improve patient care.

Purpose and Content The purpose of this lecture is to educate physicians and healthcare professionals in the newest advances in medical informatics, health information exchange and technological areas of research that will improve patient care.

Accreditation The University of Texas Southwestern Medical Center is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Continuing Education Information The University of Texas Southwestern Medical Center designates this live activity for a maximum of **19.25 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The University of Texas Southwestern Medical Center designates the presentations titled "Ethical Issues at End of Life" and the "Aronofsky Lecture" for 1 hour in medical ethics and/or professional responsibility.

Application for CME credit has been filed with the American Academy of Family Physicians. Determination of credit is pending.

Conflict of Interest All persons in the position to control the content of an education activity are required to disclose all relevant financial relationships in any amount occurring within the past 12 months with any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on patients along with that of their spouses or significant other. A primary mechanism to resolve identified conflicts of interest is a content review that is prior to the activity.

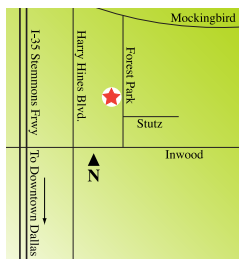

Discussion of Off-Label Use This course is meant to educate physicians with what is currently in use and what may be available in the future. There may be "off-label" use discussed in the activity. Speakers have been requested to inform the audience when off-label use is discussed.

Registration The registration fee entitles the participant admission to the conference, all course materials, continental breakfast, lunch and refreshment breaks during the meeting.

Enrollment is confirmed upon receipt of registration fee/ form. We are unable to process any registration without payment. Please register early. **We cannot guarantee course materials on site to anyone registering later than April 14, 2014.**

Refund Policy A \$50 handling fee will be deducted from cancellation refunds. Refund requests must be received by mail or fax prior to April 14, 2014. **No refunds will be made thereafter.**
