

Duke Tuesday in Urology

Feb – Nov 2014

The specialty of urology is constantly changing as a result of the tremendous growth in urologic diseases and cancers. Improvements in the treatment of these conditions generate a great need for knowledge and up-to-date information for providers and health care professionals. Understanding this need, on March 7, 1978, Dr. James F. Glenn, Chief of Duke Urology, moderated the first Duke Tuesday in Urology conference. Over the past 36 years this CME-accredited postgraduate conference has evaluated and analyzed the current status on some of the most critical areas in Urology making it one of the most respected and recognized conferences of its kind.

Offering presentations by Duke Faculty and nationally recognized guest lecturers, this course is designed to offer updates, as well as improve the knowledge base of urologists by addressing current technologies and therapies that provide the utmost, least invasive care to patients. Furthermore, discussion topics will focus on the future of this viable surgical specialty with techniques proven successful at both Duke University's state of the art medical center and healthcare facilities around the country.

TARGET AUDIENCE:

These postgraduate courses will be of value to private practice urologists, pediatricians, genitourinary oncologists, medical oncologists, radiation oncologists, urologic and research faculty, physician assistants, nurse practitioners, and registered nurses from adjoining cities and states.

ACCREDITATION:

The Duke University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CREDIT DESIGNATION:

The Duke University School of Medicine designates this live educational activity for a maximum of *12.0 AMA PRA Category 1 credits™*. Physicians should only claim credit commensurate with the extent of their participation in the activity. (Individual conferences are *4.0 AMA PRA Category 1 credits™*)
