

Hawaii 2014

40th Annual Review of Continuing Education in Dentistry

**Endodontic Update:
What Every Dentist Needs to Know**

Maui

Monday - Thursday

August 11 - 14, 2014

8:00 a.m. - 12:00 p.m.

16 Hours of Continuing Education

Wailea Beach Marriott Resort and Spa

Speakers

Ilan Rotstein, DDS
Professor and Chair of the Division of Endodontics, Oral & Maxillofacial Surgery and Orthodontics, Associate Dean of Continuing Education at the Ostrow School of Dentistry of USC, Los Angeles, California.

Thomas Levy, DDS, MS
Associate Professor of Clinical Endodontics, Division of Endodontics, Oral & Maxillofacial Surgery and Orthodontics at the Ostrow School of Dentistry of USC. Dr. Levy practiced endodontics for 24 years in Stockton, California.

Anthony Tran, DDS
Clinical Assistant Professor of Endodontics, Division of Endodontics, Oral & Maxillofacial Surgery and Orthodontics at the Ostrow School of Dentistry of USC. Dr. Tran maintains a private practice limited to Endodontics in Fresno, California. He is a Diplomate of the American Board of Endodontics.

All speakers must disclose to the audience any proprietary, financial or other personal interest of any nature or kind, in any product, service, source and/or company, or in any firm beneficially associated therewith that will be discussed or considered during their presentation. The Ostrow School of Dentistry of USC does not view the existence of these interests or uses as implying bias or decreasing the value to participants. The Ostrow School of Dentistry of USC, along with ADA CERP, feels that this disclosure is important for the participants to form their own judgment about each presentation.

Topics to be covered:

- Evidence-based assessment of endodontic treatment outcome.
- Endodontic prognosis and treatment decision-making.
- Diagnosis, case selection and treatment planning
- Endodontic-periodontal interrelationship
- Current principles of endodontic access
- Accurate root canal length determination
- Root canal cleaning and shaping
- Nickel Titanium rotary systems and techniques
- Addressing anatomical challenges and endodontic complexities
- Agents and devices used for root canal irrigation: present and future
- Intra-canal medications

Synopsis

The art and science of endodontics are constantly undergoing exciting changes. Recent advances in biology, technology, diagnosis, materials and techniques have significantly enhanced the way in which endodontic treatment is being performed. These advances have made it possible to efficiently perform successful endodontic treatment with improved precision, predictable results, and with much greater patient acceptance. It has been recognized that, when indicated, endodontic treatment is a predictable treatment modality with excellent long-term success rate.

This 4-day course includes series of lectures specially designed for General Dentists who wish to advance their knowledge in the art and science of endodontics. A team of endodontic specialists from the Ostrow School of Dentistry of USC will thoroughly discuss evidence-based clinical and biological concepts of modern endodontic therapy. Upon completion, this course will provide you, the clinician, with more knowledge and tools to better evaluate endodontic cases and to apply evidence-based endodontic treatment with more predictable results and greater patient acceptance.

- Root canal obturation techniques
- Cone beam CT applications in endodontics
- Regenerative endodontics
- Pulp capping
- Endodontic considerations in the elderly patient
- Procedural errors and their prevention

Upon completion of this course you will:

- Enhance your knowledge of the clinical and biological concepts of modern endodontics
- Know system-based approaches and state-of-the art technology for treating your endodontic cases
- Be able to approach your endodontic cases with confidence and enjoy more predictable results
- Know when and what to refer

Wailea Beach Marriott Resort and Spa

3700 Wailea Alanui Dr. Wailea-Makena, Maui, HI 96753

Escape to luxury at the elegant **Wailea Beach Marriott Resort & Spa**. Nestled in Maui's luxurious Wailea Resort destination, the resort features the Maluhia Serenity Pool, an adult pool with six exclusive over-the-water cabanas, sunbathing or relaxing with a spa treatment.
