

Hyperbaric Safety Course (Canada) + Inspection of Hyperbaric Chamber Acrylics

June 23-25, 2014

Simon Fraser University, Burnaby, B.C., Canada

Jointly offered by Simon Fraser University and International ATMO, Inc.

Course Description

This 3 day program provides necessary tools and resources to fulfill the responsibilities of the hyperbaric safety director as defined by NFPA 99. The course also addresses inspection and documentation of hyperbaric chamber acrylic windows. The curriculum includes classroom instruction and practical exercises.

Objective

Upon completion of the course participants should be able to manage the safety issues associated with the care of patients in a hyperbaric medicine setting, develop a comprehensive safety program, and know how to conduct safe hyperbaric chamber operations in accordance with current industry and regulatory standards. *Completion of this course does not constitute certification or credentialing.*

Who Should Attend

This course is appropriate for hyperbaric technologists, respiratory therapists, nurses, physicians, and department managers.

Tuition

\$495 USD per person

Accommodations

Participants are responsible for their own travel, food, and lodging. A special rate is of \$115 CAD available at the BEST WESTERN PLUS Coquitlam. Please call the hotel directly and ask for the Simon Fraser University rate. Included in the room rate are parking, wireless internet and local calls. The hotel features an indoor pool, hot tub and sauna as well as a newly renovated fitness centre. There are also 2 restaurants on site, Rockwell's Bar & Grill and The Pantry Restaurant, both offer hotel guests a 10% discount.
