Royal Marsden Testicular and Bladder Cancer Meeting – Improving Outcomes with Multidisciplinary Care

Introduction

Dear Colleagues

It is with pleasure that we invite you to participate in this very exciting conference on Testicular and Bladder cancer. The former is a disease largely restricted to young adult men whereas the latter affects both sexes at a later stage in life. Despite these differences they are both characterised by the successful outcomes associated with multidisciplinary care combining surgery, chemotherapy and radiotherapy for locally advanced and metastatic disease as well as rigorous surveillance strategies for low stage tumours.

In both, treatments can be associated with consequences that impact on quality of life and body image issues which influence treatment decisions. Consequently, management is underpinned by a multidisciplinary approach dealing with both effective treatment of the cancer as well as the resulting side effects. Balancing these often conflicting issues is thus one of the major challenges in caring for patients with these conditions.

A specific challenge for clinicians is to ensure that radical therapies, usually requiring a combination of modalities, is appropriately provided to optimise outcome but balanced by the need to avoid over-treatment in selected patients who will experience unnecessary treatment related morbidity. Care is thus underpinned by multispecialty management to ensure the best outcome for individual patients.

Through the use of interactive case discussions we will highlight the treatment dilemmas confronting patients with both these diseases and the pivotal points to be considered in their immediate and long term care.

Professor David Nicol

Consultant Urological Surgeon/Chief of Surgery

Consultant Urological Surgeon/Chief of Surgery,
The Royal Marsden NHS Foundation Trust

Mr. Pardeep Kumar

Consultant Urologist,
The Royal Marsden NHS Foundation Trust

Conference Aim

The aim of the study day will be to highlight the treatment options for patients with both testicular and bladder cancer. The objective will be to cover both early stage and advanced disease, including the side effects of treatments for advanced disease as well as strategies to identify and manage the subset of patients with early disease who are at risk of disease progression.

Topics to Include

Topics covered will include historical perspective of these cancers and how their management has evolved to both improve survival and the consequences of treatment. Case based discussions with expert panels and audience interaction will be used to outline treatment strategies for individual patients with particular emphasis on the contributions of specialists required to achieve the best outcomes.

Target Audience

The talks and discussions will be targeted at a multidisciplinary audience, medical and nursing, trainee and specialist. At the end of the day attendees will have an up to date understanding of the complex issues and current management strategies for both testicular and bladder cancer.

Programme of Events

08.45	Registration and Coffee	
09.20	Welcome	Professor Martin Gore Professor of Cancer Medicine, The Royal Marsden NHS Foundation Trust
Morning Session – Testicular Cancer		
09.25	Introduction	Chairman: Professor David Nicol Consultant Urological Surgeon/Chief of Surgery
09.30	Key Note Address: Testicular Cancer – a previously potential disease that is a role model for cure of metastatic cancer	Professor Alan Horwich Professor of Radiotherapy and Consultant Clinical Oncologist The Institute of Cancer Research and The Royal Marsden NHS Foundation Trust
10.00	Case based discussions Case 1 – A 35 year old man with a history of cryptorchidism presents with a small testicular mass Topics covered • Diagnosis and assessment • Surveillance and adjuvant therapies • Bilateral testicular tumours • Partial orchidectomy • Fertility problems and options • Hypogonadism	Members of the Panel Mr. Simon Chowdhury Consultant Medical Oncologist Guy's and St Thomas's NHS Foundation Trust Dr. Steve Hazell Consultant Uro-pathologist Royal Marsden NHS Foundation Trust Professor Alan Horwich Professor of Radiotherapy and Consultant Clinical Oncologist The Institute of Cancer Research and Royal Marsden NHS Foundation Trust Mr. David Hrouda Clinical Lead in Urology Imperial College Healthcare NHS Trust
11.10	Mid Morning Break	
11.30	Case 2 – A 22 year old man is referred following orchidectomy with a CT demonstrating an enlarged retroperitoneal lymph node Topics covered • Primary RPLND • Implications of chemotherapy • New imaging modalities and their role in staging and treatment • RPLND techniques and complications • Salvage therapies	Dr. Robert Huddart Reader in Urological Oncology and Honorary Consultant The Institute of Cancer Research and Royal Marsden NHS Foundation Trust Dr. Daniel Levine Consultant in Nuclear Medicine and PET/CT Royal Marsden NHS Foundation Trust Mr. Erik Mayer Consultant Urological Surgeon and Clinical Senior Lecturer in Urology Royal Marsden NHS Foundation Trust and Imperial College London Mr. Asif Muneer Consultant Urological Surgeon and Andrologist and Senior Lecturer University College London Hospital NHS Foundation Trust and University College London
12.30	Lunch and Exhibition	

Programme of Events

Afternoon Session – Bladder Cancer

13.30	Introduction	Chairman: Mr. Pardeep Kumar Consultant Urological Surgeon, The Royal Marsden NHS Foundation Trust
13.35	Key Note Address: Diversion after cystectomy – is offering orthotopic reconstruction enough?	Professor Christopher Woodhouse Consultant Urological Surgeon The Royal Marsden NHS Foundation Trust
14.05	Case based discussions Case 1 – A 50 year old woman with a history of recurrent UTI is diagnosed with bladder carcinoma <i>in situ</i>. Topics covered • Diagnosis and assessment • Intravesical therapies • Methods of dealing with ‘treatment failure’ • Minimally invasive vs. open exenteration • Sexual function post cystectomy	Members of the Panel Mr Rami Issa Consultant Urological Surgeon St Georges healthcare NHS Trust Professor Christopher Woodhouse Consultant Urological Surgeon The Royal Marsden NHS Foundation Trust Dr. Robert Huddart Reader in Urological Oncology and Honorary Consultant The Institute of Cancer Research and Royal Marsden NHS Foundation Trust
14.35	Tea Break	Dr. Shaista Hafeez Specialist Registrar The Royal Marsden NHS Foundation Trust
14.55	Case 2 – A 65 year old man is diagnosed with G3pT1 TCC bladder. Topics covered • Re-resection and the role of random bladder biopsy • Role of chemotherapy • Radical Radiotherapy • Radical Surgery • Options for reconstruction	Mr. Shamim Khan Consultant Urological Surgeon Guys Hospital NHS Foundation Trust Dr. Aslam Sohaib Consultant Radiologist The Royal Marsden NHS Foundation Trust Dr. Jayson Wang Consultant Histopathologist The Royal Marsden NHS Foundation Trust
	Case 3 – A 74 year old man is diagnosed with recurrent bladder cancer post radiotherapy. Topics covered • Management of bladder symptoms post radiotherapy • Role of further intravesical therapy • Salvage options • Palliation for the inoperable patient	
16.30	Closing Remarks	Chairman: Professor David Nicol Consultant Urological Surgeon/Chief of Surgery

The Royal Marsden Conference Team

The Royal Marsden Conference Team provides world-class medical conferences, study and training days for The Royal Marsden and other organisations.

In addition to organising and delivering our distinguished programme, we are an experienced and dedicated event management team, who organise conferences both at The Royal Marsden and at venues in London and across the UK. We exceed expectations by taking care of everything from venue sourcing, catering, and audio-visual requirements through to the production of professional and detailed delegate packs. Our team negotiates the best deals for events organisers on venue hire, sponsorship and advertising by using the contacts we've built up over the years.

We really do take the stress out of organising events, and can get involved as much or as little as you want. We also offer venue hire from our high profile facilities at The Royal Marsden in Chelsea.

We're proud to be part of The Royal Marsden and are always looking for ways to enhance the conference experience for delegates.

**We're a team of specialists in
conferences and events management.**
