The Queen Elizabeth II
Conference Centre, London

CPD accreditation applied for

Pharmacology 2014: 16–18 December

BPS is delighted to announce initial details for *Pharmacology 2014*. Last year's meeting attracted a record number of BPS members and non-member participants:

- Around 900 registrants
- 93% of attendees thought that the content of symposia was appropriate and informative
- 95% of attendees said that they would be likely to recommend this meeting to a friend or colleague

We look forward to building on this success at *Pharmacology 2014* which will feature an extra three symposia – increasing the total number of high-quality scientific sessions to 12 and thus offering an even wider range of topics.

The latest research from across the whole spectrum of pharmacology from basic to clinical science will be the focus for plenary lectures, oral communications and poster sessions. There will also be invaluable opportunities for participants to network with pharmacologists from the UK, Europe and overseas.

We look forward to you joining us in London!

Professor Humphrey Rang
BPS President

Professor Barbara McDermott
BPS Vice President – Meetings

Registration

Online registration opens on Monday 30 June 2014.

	Registration fees
BPS Members	Complimentary
Affiliate*	
Day registration	£65.00
Full registration	£170.00
Non-Members	
Day registration	£125.00
Full registration	£295.00

*Affiliate registration is offered to members of: The Australian Society of Clinical and Experimental Pharmacologists and Toxicologists (ASCEPT), British Society for Cardiovascular Research (BSCR) and The British Inflammation Research Association (BIRAs)

It is usually less expensive to join BPS than to pay non-member registration fees. For information on BPS membership email membership@bps.ac.uk

IMPORTANT DATES:

Registration opens:

Monday 30 June 2014

Call for abstracts:

Monday 30 June 2014

Deadline for abstract submission:

September 2014

Exhibition and Sponsorship

By having an exhibition space or sponsorship package at *Pharmacology 2014* you will be reaching an audience of approximately 900+ scientists. This reputable conference provides an informal yet professional environment in which to highlight your products and services.

For further information about how you can support *Pharmacology 2014*, please email karen.schlaegel@bps.ac.uk or visit www.bps.ac.uk

Scientific Programme

Symposia

Tuesday 16 December

Glycinergic transmission: physiological, developmental and pathological implications

Organizer: Professor Robert Harvey (UCL School of Pharmacy)

Advances and challenges for cardioprotection: getting to the heart of the matter

Organizers: Professor Amrita Ahluwalia (Queen Mary University of London) and Professor Andreas Papapetropoulos (University of Athens)

Afferent sensitization of autonomic hyperreflexia: therapeutic potential in common diseases

Organizer: Dr Anthony Ford (Afferent Pharmaceuticals)

Realizing the potential of new approaches to target identification and validation

Organizers: BPS Industry Committee on behalf of the Drug Discovery Pathway Group

SiR training session

Organized by the Clinical Section

Social Events

Welcome Reception

Organized by the Young Pharmacologists' Committee.

Wednesday 17 December

Recent advances in the pharmacology of neurological disorders: setting the foundation for translational success?

Organizer: Dr Susan Duty (King's College London)

Targeting metabolism – exploring new therapeutic strategies for the heart

Organizer: Dr Sean Davidson (University College London) on behalf of the British Society for Cardiovascular Research (BSCR)

Current advances on the pharmacology and physiology of TRP channels

Organizers: Khadija Alawi, Aisah Aubdool and Pratish Thakore (King's College London)

Biologics and personalised medicine: how to cure diseases

Organizers: BPS Young Pharmacologists' Committee

Annual Dinner and Prize Giving

Join us for a drinks reception and three course meal at One Great George Street, a historic Grade II listed building, just a two-minute walk from the conference venue.

Thursday 18 December

Promises and limitations of novel pharmacological targets in pain research

Organizer: Dr Ilona Obara (Durham University)

In vivo imaging of experimental inflammation

Organizers: Professor Ian Adcock (Imperial College London), Dr Dianne Cooper (Queen Mary University of London) and Dr Michael Seed (University of East London) on behalf of The British Inflammation Research Association (BIRAs)

Molecular pharmacology of receptor tyrosine kinases

Organizers: Dr Jeanette Woolard and Professor Stephen Hill (University of Nottingham)

Understanding the safety of therapeutics

Organizer: Dr Neil French (MRC Centre for Drug Safety Science, University of Liverpool)

Pharmacology Research & Perspectives (PR&P)

journal session: The paradox of replication – essential but eschewed

Dr Mike Curtis (Editor-in-Chief, *PR&P*; King's College London)
