# General Information

## Conference Venue

This year's course will be held at the High Peaks Resort in beautiful Lake Placid, NY!

The High Peaks Resort is located in downtown Lake Placid overlooking its historic Main Street, which offers dining, shopping, and entertainment – all nestled in the heart of the Adirondack Mountains!

Bring your family and take advantage of all that the Adirondacks have to offer: countless hiking trails, five golf courses, fly fishing, rock climbing, kayaking & boating, swimming, and so much more!

Visit [www.highpeaksresort.com](http://www.highpeaksresort.com) for more information.

## CME Credits

Albany Medical College designates this live activity for a maximum of

**12.25 AMA PRA Category 1 Credits™.**

Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Albany Medical College is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

## Who Should Attend?

This activity is designed for community urologists, primary care physicians, physician's assistants, nurse practitioners, residents, and anyone interested in advancing their knowledge about health issues specific to men including prostate cancer, kidney cancer, benign prostate disease, erectile hormone deficiencies in aging men.

## Educational Objectives

By the conclusion of this course, the participants should:

- ◆ Become familiar with the management of Peyronie's disease
- ◆ Understand the role of assisted reproductive techniques for infertility
- ◆ Understand the diagnostic work up and evaluation for male infertility
- ◆ Understand the role of systemic immunotherapy therapy for advanced kidney and prostate cancer
- ◆ Understand the benefits and limitations of newer ablative technologies used to treat BPH
- ◆ Become well-versed in the surgical and systemic therapies of metastatic kidney cancer
- ◆ Understand the long term implications of pediatric GU surgery on fertility, urinary and sexual function during adulthood
- ◆ Become familiar with the various conservative and surgical options for management of GU trauma
- ◆ Know the impact of radical surgery for bladder cancer on quality of life
- ◆ Understand the vital role of urologists clinical approach on survival in bladder cancer patients
- ◆ Familiarize with the various techniques and pitfalls in the diagnostic urodynamic studies and how it affects management
- ◆ Understand the controversy, risks, and benefits of male hormone replacement
- ◆ Understand the socioeconomic impact and challenges of a large subspecialty group practice
- ◆ Understand the management of rare GU cancers such as penile and urethral cancers

*Professor of Surgery*

**Laura Chang Kit, M.D.**

*Assistant Professor of Surgery*

## A Message from our Planning Committee

Dear Colleagues,

We are delighted to invite you to our annual Current Concepts in Men's Health conference! This year, we have organized an outstanding curriculum featuring some of the most recognized names in the field of Urology. Every year, we continue to learn something new from each and every one of our esteemed presenters and our wonderful conference attendees, further advancing the science and art of the practice of Urology.

We hope to see you in Lake Placid this year!

*Badar Mian, M.D.*

*Andrew McCullough, M.D.*

*Mark White, M.D.*

*Barry Kogan, M.D.*

# Course Agenda

## Friday, August 15

- 7:00 - 8:00 am    [Breakfast / Sign-In](#)
