COURSE DESCRIPTION

This activity will offer lectures, case presentations, panel discussions and workshops. The education design, instructional method and learning format for each session is chosen to best serve the educational needs and objectives specific for the session target audience. The program will be a one-day event with topics related to obstructive lung disease and related co-morbidities and treatment approaches. Case presentation will be provided to trainees and individual sessions will be provided to patients in parallel to the medical community.

EDUCATIONAL OBJECTIVES

By the end of the course, participants will be able to:

- Identify and examine the diagnostic processes leading to the diagnosis of obstructive lung diseases such as asthma and COPD, and their respective co-morbidities.
- Initiate appropriate investigations in the diagnostic process.
- Assess the pathogenesis of lung conditions.
- Discuss modern treatment options for various lung conditions.

TARGET AUDIENCE

This course is intended for physicians in internal medicine, family practice, specialists in pulmonary medicine, nurses, physician assistants, respiratory therapists, other allied healthcare professionals and patients interested in pulmonary medicine.

Accreditation Statement

The Keck School of Medicine of the University of Southern California is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation

The Keck School of Medicine of the University of Southern California designates this live activity for a maximum of 6.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
