

Executive Program / Unlocking the Future of Your Industry

"The Executive Program was a truly mind-expanding experience which should help prepare me for the extraordinary changes to come." —**Dan Copley, VP of Marketing / Europe, Google**

Singularity University's Executive Program (EP) is a week-long workshop or custom program that offers corporate executives and entrepreneurs the tools to predict and evaluate how emerging technologies will disrupt and transform their industries, companies and careers.

World-leading experts and innovators guide program participants through focused discussions and interactive workshops that identify the opportunities and risks of exponential technologies.

Program participants attend exclusive tours through Silicon Valley companies and research labs to learn what is in development today and what to expect in the

Dates & Contact

Executive Programs are held approximately five times each year at NASA Research Park in Silicon Valley, California.

For upcoming dates please visit singularityu.org/ep

For more information, please contact Aaron Frank at aaron@singularityu.org.

Exponential Technologies

Biotechnology & Bioinformatics
Energy & Environmental Systems
Artificial Intelligence & Robotics
Medicine & Neuroscience
Nanotechnology & Digital Fabrication
Networks & Computing Systems

Past EP Participants

Google Fiber	Investec
VIACOM	Domino's Pizza
The Coca-Cola Company	Femsa
Office of the Secretary of Defense	Goldman Sachs
Aegon	Peru Rail
Illumina	

Keep pace with advanced technology breakthroughs impacting your industry.
