

DAY 2, FRIDAY, 14 NOVEMBER 2014 • 10:30 – 12:30HRS • HALL 1

CSCRS Plenary (P2)

PERFECT CUT, PERFECT CLARITY... PERFECT PREDICTION

The Combined Symposium of Cataract & Refractive Societies (CSCRS) is a joint symposium of APACRS-ASCRS-ESCRS-ALACCSA-R/LASCRS

Perfectly performed cataract surgery be it with standard phaco or femtophaco will come to naught if the preoperative work up is suboptimal. In these days where advanced technology lens implants are de rigeur, the pressure on surgeons to deliver precise, predictable refractive outcomes is greater than ever. This CSCRS brings together the brightest sparks representing the major international cataract and refractive societies to shed light on this topic, covering techniques and technology.

Course Faculty

						
Graham BARRETT APACRS	Eric DONNENFELD ASCRS	Roberto BELLUCCI ESCRS	Luis IZQUIERDO ALACCSA-R /LASCRS	Cesar ESPIRITU APACRS	Warren HILL ASCRS	Damien GATINEL ESCRS

Time	Presentation Topic	Chair	Society
10:30 – 10:38hrs	Introduction by Chairs	Graham BARRETT	APACRS
		Eric DONNENFELD	ASCRS
		Roberto BELLUCCI	ESCRS
		Luis IZQUIERDO	ALACCSA-R /LASCRS
10:40 – 10:52hrs	Image Guided Systems for Perfection Prediction	Cesar ESPIRITU	APACRS
10:55 – 11:07hrs	Intraocular Lens Power Labeling and Predictability	Warren HILL	ASCRS
11:10 – 11:22hrs	Customized Aberration Correction	Damien GATINEL	ESCRS
11:25 – 11:37hrs	Toric IOL Prediction	Graham BARRETT	APACRS
11:40 – 11:52hrs	Intraoperative Wavefront Aberrometer	Eric DONNENFELD	ASCRS
11:55 – 12:07hrs	Femto Rhexis & Refractive Outcomes	Roberto BELLUCCI	ESCRS
12:10 – 12:22hrs	Management of Postoperative Surprise	Luis IZQUIERDO	ALACCSA-R /LASCRS
12:25 – 12:28hrs	Q & A		

Each presenter is given 15 minutes (12 minutes presentation with 3 minutes for discussion)
