65th National Conference of Indian Association of Occupational Health

OCCUCON 2015

www.iaohoccucon2015.com

Welcome

Dear colleagues,

On behalf of the Indian Association of Occupational Health, Tamilnadu branch, I have great pleasure in inviting you to attend the 65th National Conference of the Indian Association of Occupational Health to be held at Puducherry from the 20th to 23rd January 2015.

The National Conference on Occupational Health is an annual event organized by the Indian Association of Occupational Health in its aim to discuss current issues and challenges in Occupational Health, Safety and Environment. This conference will be attended by more than 400 Occupational Health practitioners, professionals and academicians including many international participants.

The theme for the 65th National Conference of Indian Association of Occupational Health will be "Advancing Healthy Workplaces". Occupational Health aims at simultaneous commitment to improvement of employee working conditions and promotion of employee health into a 'sustainable culture of health' that enhances the overall health and well-being of the workforce and prevents work-related injuries and illnesses.

In keeping with the conference goals, we have planned the educational offerings as scientific sessions designed to provide specific information applicable to the daily practice of Occupational Medicine, case studies and other illustrations; Professional Development Symposia to enrich physicians' understanding of concepts and issues related to the specialty of Occupational Medicine. To complement the conference, an exhibition of Occupational Health and Safety related equipment, products and services will be held during the conference.

The 65th National Conference is being held at Puducherry, formerly known as Pondicherry or Pondy. It is situated around 154 kms from Chennai on the Bay of Bengal. Puducherry is well connected by road, train and recently by air. Formerly a French Colony, the earliest recorded history of Puducherry can be traced back to the 2nd century. Puducherry is home to Auroville, the ashram founded by Sri Aurobindo. Puducherry has several attractions for tourists, such as its numerous beaches with coral reefs and tropical fish, temples, churches, museums etc.

The organizing committee is putting together a host of interesting activities for the delegates as well as accompanying persons so that one can experience Puducherry as well as enjoy the conference.

We look forward to welcoming you at the conference.

Warm regards

Dr Sudha S. Ramachandran
Conference Director

Glimse of Puducherry...

"What is life if, full of care, we have no time to stand and stare!". The very thought of a getaway from the routine of clinical work is thoroughly inviting. Here's where you can soak in the sun and sea.

From Puducherry there are some enticing getaways. The Paradise islands are barrier islands between the Chunambur backwaters and the Bay of Bengal. Mahabalipuram is a mere 100 kms. drive away and is a scenic drive along the coast. There, the shore temples and caves are as enchanting as the quaint village itself. The fascinating temple towns of Tiruvannamalai as well as Chidambaram are readily accessible as well.
