## Ageing-BMJ-2015

### 2<sup>nd</sup> International Conference on Ageing - Bones Muscles and Joints: Classical to Advanced Approach

(October 28-29, 2015)

**Venue:**

**Shobhit University**  
**Gangoh, Saharanpur, UP, India**  
[www.shobhituniversity.ac.in](http://www.shobhituniversity.ac.in)

## Shobhit University, Gangoh

Shobhit University, Gangoh aims to create a conducive, enabling academic climate to facilitate integration of the young mind into the logic of the present system and to develop educational means by which men and women deal critically and creatively with society and discover how to participate in the transformation of their world. The Government of Uttar Pradesh has notified our University in Gangoh, Saharanpur District, Uttar Pradesh by the name, Shobhit University, Uttar Pradesh under section 2(f) of the University Grant Commission (U.G.C.) Act, 1956 having been set up under the Shobhit Vishwavidyalaya, Uttar Pradesh Adhiniyam, 2011 (U.P. Act No.3 of 2012) as passed by Uttar Pradesh Legislature and assented by the H.E. Governor of Uttar Pradesh in March 2012.

### About the Conference

Welcome, one and all, to the **Ageing-BMJ-2015**, the 2nd International Conference on **Ageing - Bones Muscles and Joints: Classical to Advanced Approach** and the first such conference hosted by the Shobhit University, Gangoh (the vibrant city of Saharanpur) to keep the scientific world in the running track along with the contemporary world outside the fences of the individual demesne. The objectives of the event is to highlights the Age related changes, their effects and common problems in Bones, Muscles and Joints in the context of both healthy and disease states. Also the latest advances made in our understanding of the strategies for treatment and prevention of ageing and related problems occurs in mineral metabolism and biomechanics of mammalian (including human) body. Changes in posture and gait (walking pattern) are common with aging as changes in the skin and hair. The skeleton provides support and structure to the body. Joints are the areas where bones come together. They allow the skeleton to be flexible for movement. In a joint, bones do not directly contact each other. Instead, they are cushioned by cartilage in the joint, synovial membranes around the joint, and fluid. Muscles provide the force and strength to move the body. Coordination is directed by the brain but is affected by changes in the muscles and joints. Changes in the muscles, joints, and bones affect the posture and gait, and lead to weakness and slowed movement. The conference will offer a high quality and diverse scientific programme of interest to both clinical and pre-clinical scientists, academicians and Research students. This is a "Must Attend" event of the year with a packed two day meeting with expert industry speakers, Top Notch Scientists, High quality content, Interactive Networking opportunities and Open Discussion Sessions that will bring fresh opportunities for enlightening, informative and stimulating your knowledge. In order to make an all-round communication with experts and strengthen the cooperation between each other, the Organizing Committee of **Ageing-BMJ-2015** cordially expects your participation to accelerate and promote the Ageing based advancements and technologies in clinical and pre-clinical modelity. We look forward to see you in the event.

## Call for Papers

**Ageing-BMJ-2015** the most astounding event invites Technical Papers, Short Papers, Posters, Research and Review Articles in the domains of Aging changes in the bones, muscles & joints, Aging changes in body shape, Aging changes in hormone production, Aging changes in organs, tissues, and cells, Aging changes in the nervous system, Ageing related problems, Apoptosis, Genetics of Ageing, Ageing Biomechanics. The papers to be sent should neither be published previously nor currently under review by any other conference or journal. The papers should contain the relevant technical support, experimental proof and cross validation by the available literature or any other tools. The papers can be based on Hypothesis, Novel innovation, case study or a focus on an aspect. The full length Paper is required for the initial technical screening. The selected Papers would be shortlisted for the presentation on the day of conference either as Poster presentations or as oral presentations. All the accepted papers are intimated through mail along with the guidelines and last dates for the submission of the final manuscript. The point to be focused is that all the accepted Papers are guided for the Publication in Conference proceeding /Journal of Biological Engineering Research and Review.
