Football Medicine Strategies for Player Care

11th-12th April, 2015 - LONDON
The Queen Elizabeth II Conference Centre
3rd Science of Football Summit
13th April, 2015 - Wembley Stadium

FIRST ANNOUNCEMENT and call for papers

The Football Medicine Community under one roof

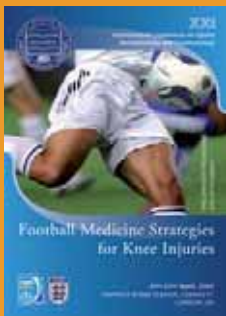

The greatest joy of our Group is to bring together the International Football Medicine Community under the same roof for three days, sharing science, expertise, knowledge and, most of all, happiness. We all await you to London in 2015.

Peter Brukner & Stefano Della Villa

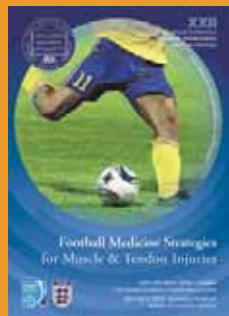

Michel D'Hooghe, FIFA and UEFA Medical Committee Chairman and Jiri Dvorak, Chief Medical Officer of FIFA and Chairman of F-MARC

LONDON 2012

1,105 attendants

LONDON 2013

1,513 attendants

MILAN 2014

2,265 attendants

In the last three years the Football Medicine Strategies Conference brought together thousands of participants: sports medicine physicians, orthopaedic surgeons, physiatrists, physiotherapists, chiropractors, sports scientists, fitness coaches and students. These achievements are the result of a strong and effective cooperation with the research department of the FIFA Medical Committee (F-MARC).

Roy Hodgson and young attendants sharing emotions during 2013 Conference

Our goal is to connect the generations, melting together the enthusiasm of younger people with the power of inspiration, coming from the experience of experts. The result is a warm and energetic atmosphere, which makes it a "Happy Conference".

The Conference of the youth

The last edition was the "Conference of the youth", with an average age just over 30. No matter from which country they came from, they all shared the same goal: to improve their skills and knowledge to do a better job.

Freddie Fu and other experts "inspiring" the audience during the 2014 Conference

Leading international experts from all over the world bringing to the audience their knowledge, experience and overall the inspiring force stemming from their professional life.
