Message from the President

Donald A. Page M.D., FACC
President, Georgia Chapter
of the ACC

Welcome to the 2014 Annual Meeting of the Georgia Chapter of the American College of Cardiology. We are delighted to be back at the beautiful Ritz Carlton, Lake Oconee for another great conference. The Program Committee has worked hard to develop a curriculum encompassing current and relevant topics for your enjoyment.

This year's Friday Symposium will focus on mitral regurgitation and we are pleased that Dr. Robert Bonow from Northwestern, one of the leading experts on mitral valve disease will be with us. We will continue our emphasis on our young families and will have an earlier dinner Friday for children followed by an adult dinner. Saturday will begin with an update from the national ACC by Dr. Patrick O'Gara, our current president. We will have outstanding talks to follow on preventative cardiology, mechanical therapies in advanced heart failure, and a 2014 update on effective treatment of hypertension. We will once again have the Fellows' abstract sessions with oral presentations.

We are thrilled to be part of a national ACC pilot program with our cardiothoracic surgical colleagues who will be having a simultaneous surgical educational program as we try and attract more surgeons to the program. This will be lead by Dr. Robert Guyton and Dr. Cullen Morris.

Saturday evening, in addition to the Lifetime Achievement to be presented to Dr. Doug Morris, we will be entertained by a world class magician, Justin Flom.

As always our goals for the weekend remain:

- Provide information that is relevant and practical to the care of our patients.
- Create a forum for dialog between fellow members regarding practice issues we face each day.
- Develop communication between our members and our friends in industry
- Understand the changing face of healthcare, what ACC is doing nationally and what we might be doing locally and statewide.
- Relax with family and friends

I want to welcome each of you to our Chapter's Annual Meeting and I hope to see as many of you as the Ritz can accommodate. Traditionally, we run out of rooms, so I encourage those of you who plan to attend to register early.

Sincerely,

Donald A. Page, MD, FACC
