

SMFM 35th Annual Meeting — The Pregnancy Meeting™

Working together for the global advancement of safe and healthy pregnancies

Society for
Maternal•Fetal
Medicine

Postgraduate Courses
Scientific, Clinical and
Industry Exhibits

February 2–7, 2015
Hilton San Diego Bayfront
San Diego, CA

2015 Program Committee

Andrew Helfgott, MD– Program Chair
Sean Blackwell, MD–Poster Chair
Bob Silver, MD–Postgraduate Course Chair
Joanne Stone, MD–Scientific Forums Chair
Robert Resnik, MD–Local Arrangements Chair
Donna Johnson, MD–Emeritus Member

*Supported by an unrestricted educational
grant from the March of Dimes*

Register online at www.SMFM.org

POSTGRADUATE COURSES, WORKSHOPS, AND SYMPOSIA

Some postgraduate courses, workshops and symposia run concurrently.

Please check your schedule to make sure you do not choose conflicting options.

MONDAY, FEBRUARY 2

1. OB Debates

Course Directors: Cynthia Gyamfi-Bannerman, MD, MSc and Bahaeddine M. Sibai, MD

Learning Objectives

1. To examine the evidence surrounding timing of delivery in the setting of oligohydramnios and IUGR
2. To examine factors related to the rate of cesarean in the US
3. To discuss management of preeclampsia related to severe blood pressure elevations and seizure prophylaxis
4. To contrast screening options for gestational diabetes
5. To examine the evidence supporting routine transvaginal cervical length screening for all patients

8:00–8:20am	Intro and 20 questions
8:20–8:50am	Isolated oligohydramnios at 37 weeks: Deliver Isolated oligohydramnios at 37 weeks: Wait <i>Sean Blackwell, MD: Deliver</i> <i>Cynthia Gyamfi-Bannerman, MD, MSc: Wait</i>
8:50–9:00am	Q&A <i>Gyamfi-Bannerman/Blackwell</i>
9:00–9:45am	Surveillance and Delivery for IUGR: the answer is clear <i>Christianne de Groot, MD</i> Surveillance and Delivery for IUGR: we have no idea <i>Cynthia Gyamfi-Bannerman, MD, MSc</i>
9:45–10:00am	Q&A
10:00–10:30am	Break
10:30–11:15am	The current rate of cesarean is too high <i>Sean Blackwell, MD</i> The current rate of cesarean is just right <i>Bahaeddine Sibai, MD</i>
11:15–11:50am	Q&A
11:50am–12:00pm	ARS Questions
12:00–1:00pm	Lunch
1:00–1:40pm	Treatment of persistent severe HTN within 15 minutes: a standard to keep/No mag for PEC without severe features <i>Bahaeddine Sibai, MD</i> Treatment of persistent severe HTN within 15 minutes: a ridiculous goal?/Mag for all PEC <i>John Barton, MD</i>
1:40–1:50pm	Q&A
1:50–2:30pm	Gestational diabetes: 1-step is enough <i>Patrick Catalano, MD</i> Gestational diabetes: 2-step is best <i>Ben Mol, MD, PhD</i>
2:30–2:40	Q&A
2:40–3:00pm	Audience Debate: What do you do after 17OHPC with new short cervix <24 weeks?
3:00–3:30pm	Break
3:30–4:20pm	Transvaginal cervical length for low risk patients: The time has come <i>Vincenzo Berghella, MD</i> Transvaginal cervical length for low risk patients: Not so fast <i>George Saade, MD</i>
4:20–5:00pm	Q&A

2. Ultrasound Challenges for the MFM

Co-sponsored by the International Society of Ultrasound in Obstetrics and Gynecology (ISUOG)

Course Directors: Joshua Copel, MD and Helen Feltovich, MD

Attendees of this postgraduate course will also receive Core Membership to the International Society of Ultrasound in Obstetrics and Gynecology (ISUOG). This membership includes access to online content from ISUOG. The Core Membership does not include subscription to Ultrasound in Obstetrics and Gynecology (UOG).

Learning Objectives

The participant will be able to:

1. Understand the advantages and limitations of ultrasound in the 1st trimester
2. Develop creative means to approach difficult diagnoses in the fetal heart and skeletal system
3. Grasp the pathophysiology of fetal growth restriction
4. Describe the primary fetal growth restriction management options and application to his/her clinical population
5. Recognize new trends in ultrasound imaging, and their potential clinical application

8:00–8:05am	Welcome <i>Joshua Copel, MD; Helen Feltovich, MD</i>
8:05–10:00am	1st trimester ultrasound in the era of NIPT: an evolving role <i>Lawrence D. Platt, MD</i> <i>Caterina Bilardo, MD</i>
8:05–8:35am	1st trimester anatomical survey: what can you really see? <i>Lawrence D. Platt, MD</i>
8:35–9:05am	Feasibility of 1st trimester fetal cardiac evaluation <i>Caterina Bilardo, MD</i>
9:05–9:35am	Integrating 1st trimester ultrasound with NIPT <i>Lawrence D. Platt, MD</i>
9:35–9:45am	Q&A
9:45–10:00am	Stump the Professor: Fellow presentation (1st trimester case) <i>Lawrence D. Platt, MD; Caterina Bilardo, MD; Deborah Krakow, MD</i>
10:00–10:30am	Break
10:30am–12:00pm	Don't let broken bones and broken hearts break you: approach to our toughest cases <i>Deborah Krakow, MD; Joshua Copel, MD</i>
10:30–11:00am	Systematic approach to diagnosing skeletal dysplasias <i>Deborah Krakow, MD</i>
11:00–11:30am	Complex congenital heart defect cases <i>Joshua Copel, MD</i>
11:30–11:45am	Q&A
11:45am–12:00pm	Stump the Professor: Fellow presentation (2nd trimester case) <i>Deborah Krakow, MD; Joshua Copel, MD; Lawrence D. Platt, MD</i>
12:00–1:00pm	Lunch
1:00–3:30pm	Our tiniest patients: optimizing outcomes in IUGR <i>Caterina Bilardo, MD; Ahmet Baschat, MD</i>
1:00–1:30pm	Understanding the pathophysiology of early vs. late IUGR <i>Caterina Bilardo, MD</i>
1:30–2:00pm	Doppler how-to: how and when to do UA, MCA and DV Doppler <i>Ahmet Baschat, MD</i>
2:00–2:30pm	Panel: Management of the IUGR fetus <i>Caterina Bilardo, MD; Ahmet Baschat, MD</i>
2:30–2:45pm	Q&A
2:45–3:00pm	Stump the Professor: Fellow presentation (IUGR case) <i>Caterina Bilardo, MD; Ahmet Baschat, MD; Helen Feltovich, MD</i>
3:00–3:30pm	Break

3:30–5:00pm	The future: how can we use existing and emerging ultrasound technologies? <i>Dolores Pretorius, MD; Helen Feltovich, MD</i>
3:30–4:00pm	What's up next: emerging ultrasound technologies <i>Helen Feltovich, MD</i>
4:00–4:30pm	3D Ultrasound in OB/GYN: top ten hits <i>Dolores Pretorius, MD</i>
4:30–4:45pm	Q&A <i>Dolores Pretorius, MD; Helen Feltovich, MD</i>
4:45–5:00pm	Take-home messages <i>Joshua Copel, MD; Helen Feltovich, MD</i>

3. Placenta Accreta: Making the Best Out of a Bad Disease

Course Directors: Deirdre Lyell, MD and Bob Silver, MD

Learning Objectives

1. To be able to individualize the optimal timing of delivery in women with placenta accreta
2. To learn the optimal surgical management for placenta accreta
3. To be able to diagnose placenta accreta antenatally and to understand the limitations of antenatal diagnosis
4. To understand the optimal blood product replacement on women with placenta accreta
5. To become familiar with the benefits and risks of conservative management for placenta accreta

1:00–1:15pm	Introduction, epidemiology of accreta and referral centers for accreta <i>Bob Silver, MD</i>
1:15–1:45pm	Antenatal diagnosis of accreta <i>Alfred Abuhamad, MD</i>
1:45–2:15pm	Optimal timing of delivery <i>Deirdre Lyell, MD</i>
2:15–2:45pm	Surgical approach to accreta <i>Mike Belfort, MD, PhD</i>
2:45–3:00pm	Q&A
3:00–3:30pm	Break
3:30–4:00pm	Massive hemorrhage <i>Alex Butwick, MD</i>
4:00–4:30pm	Debate: Routine use of balloon catheters <i>Sandy Ramos, MD: Pro</i> <i>Mike Nageotte, MD: Con</i>
4:30–5:00pm	Debate: Conservative management <i>Loic Senthiles, MD: Pro</i> <i>Bob Silver, MD: Con</i>

Putting the “M” Back into Maternal-Fetal Medicine Special Session 1:00–5:30pm

Description: This now annual special session is designed to emphasize the importance of maternal care in maternal-fetal medicine. This year, some of the nation's leading experts on maternal care gather to discuss issues relevant to improving maternal outcomes. For the first time, this session is open to all conference registrants (*limited enrollment; first come, first serve*) at no cost, but does require pre-registration.

1:00–3:15pm	The State of Maternal Mortality Review Introduction <i>Mary D'Alton and Vincenzo Berghella</i> Key Address: Status of Maternal Mortality Review <i>William Callaghan</i> Presentation of SMFM-ACOG Maternal Mortality and Serious Maternal Morbidity Review Survey <i>Donna Montalto, Audrey Merriam and Rocio Pena</i> Panel Discussion: Moving Maternal Mortality and Serious Maternal Morbidity Review Forward <i>Mary D'Alton, William Callaghan, Peter Bernstein, Thomas Westover, Stanley Gall and representative from the Association of Maternal & Child Health Programs (TBN)</i>
3:15–3:30pm	Break

3:30–4:50pm	Maternal Perinatal Quality Collaboratives Maternal Statewide Quality Collaboratives—Who is Doing What <i>Kate Menard</i> Panel Presentations and Discussion: Quality Improvement Projects—Sharing Best Practices <i>Kate Menard, Ann Borders, Jim Deventer, Elliot Main</i> • Obstetric Hemorrhage • Severe Hypertension and Preeclampsia • Cesarean Prevention • Initiating and Maintaining Quality Collaboratives • Collecting Data: Lessons learned from New York Experience
4:50–5:30pm	Project Update and Conclusions Placenta Accreta <i>Michael Belfort and Jason Wright</i> Summary and Next Steps <i>Mary D'Alton</i>

TUESDAY, FEBRUARY 3

4. Critical Care

Course Directors: Stephanie Martin, DO and Lauren Plante, MD

Learning Objectives

1. Understand resuscitation for a pregnant patient, including role of perimortem CS
2. Describe appropriate management strategies for severe sepsis
3. Distinguish indications for and types of ventilatory support
4. Develop an approach to hemodynamic derangement
5. Develop a diagnostic and treatment algorithm for cardiac emergencies

8:00–8:10am	Welcome and introductions <i>Stephanie Martin, DO and Lauren Plante, MD</i>
8:10–9:05am	Sepsis <i>Jason Vaught, MD</i>
9:05–10:00am	Blood pressure problems: too high, too low <i>Michael Foley, MD</i>
10:00–10:30am	Break
10:30–11:30am	ARDS and mechanical ventilation <i>Lauren Plante, MD, MPH</i>
11:30am–12:00pm	Q&A; panel discussion <i>Plante/Vaught/Foley</i>
12:00–1:00pm	Lunch
1:00–1:40pm	Arrest, resuscitation, perimortem cesarean <i>Stephanie Martin, DO</i>
1:40–2:20pm	Coagulopathy and transfusion management <i>Helen Scholefield, MD, FRCOG</i>
2:20–3:00pm	Cardiac catastrophes: approach to diagnosis & management <i>Afshan Hameed, MD</i>
3:00–3:30pm	Break
3:30–4:30pm	How to create your own catastrophes: simulation in critical care OB <i>Shad Deering, MD</i>
4:30–5:00pm	Q&A; panel discussion <i>Martin/Scholefield/Hameed/Deering</i>

5. Advances and Updates in Perinatal Genomics

Course Directors: Mary Norton, MD and Britton Rink, MD, MS

Learning Objectives

1. Summarize the technologies and biologic foundation of non-invasive prenatal testing for fetal aneuploidy
2. Explain the utility and limitations of non-invasive prenatal testing for fetal aneuploidy in the low-risk patient
3. Describe the importance of economics, patient preferences, and informed choice surrounding various prenatal testing strategies for fetal aneuploidy
4. Recognize common genetic diagnoses associated with structural anomalies identified by ultrasound
5. Discuss maternal obstetric implications of common genetic disorders

TUESDAY, FEBRUARY 3, cont.

8:00–8:05am	Introduction <i>Mary Norton, MD</i>
8:05–8:50am	NIPT: Technology and biology <i>Ignatia van de Veyver, MD</i>
8:50–9:50am	Utility of NIPT in the low risk patient: a debate <i>Mary Norton, MD vs Jerry Yankowitz, MD</i>
9:50–10:00am	Q&A
10:00–10:30am	Break
10:30–11:10am	Global perspective on NIPT implementation <i>Sylvie Langlois, MD</i>
11:10–11:50am	Prenatal genetic testing: Economics, preferences and informed choice <i>Miriam Kuppermann, PhD, MPH</i>
11:50am–12:00pm	Q&A
12:00–1:00pm	Lunch
1:00–1:45pm	Whole genome and whole exome sequencing <i>Ignatia van de Veyver, MD</i>
1:45–2:30pm	Beyond prenatal diagnosis: Toward therapy for genetic disorders <i>Tippi MacKenzie, MD</i>
2:30–3:00pm	Genetics of autism and neurocognitive disorders <i>Britton Rink, MD</i>
3:00–3:30pm	Break
3:30–4:15pm	Syndromology: Genetic evaluation of structural anomalies <i>Mary Norton, MD</i>
4:15–4:45pm	Update on genetic disorders and obstetric management <i>Britton Rink, MD</i>
4:45–5:00pm	Q&A

6. Running an Efficient and Profitable Practice to Improve Care in the Era of Value Based Medicine and the ACA

Course Directors: Brian Iriye, MD and Thomas Lee, MD

Learning Objectives

1. Understand the significant changes within healthcare today due to the PPACA, changes in CMS reimbursement, and the increasing demand for value within healthcare
2. Learn the fundamentals of healthcare operations, project management, and process improvement tools
Need to understand the pros and cons of evidence-based medicine and standardized care protocols
3. Comprehend the conceptual framework in which to deploy process improvement changes within their practices
4. To learn how the current process of healthcare payment does not offer incentive for value care, and possibly harms care. To discover alternative models for value based contracting
5. Understand how evidence based care can not only improve outcome but also practice efficiencies
6. Gain knowledge on responsible use of different forms of social media and marketing to improve education, loyalty, and awareness

8:00–8:45am	MFM Practice in the Wake of the ACA and Healthcare Reform <i>Arnold Cohen, MD</i>
8:45–9:30am	Basics of Healthcare Operations and Project Management <i>Thomas Lee, MD</i>
9:30–10:15am	Evidence-based medicine and process improvement <i>Anthony Sciscione, DO</i>
10:15–10:30am	Q&A
10:30–10:45am	Break
10:45–11:30am	Putting the pieces together—One practice's experience with EBM, project management, and process improvement <i>Thomas Lee, MD</i>

11:30am–12:00pm	MFM Contracts and Negotiations in the era of the ACA <i>Brian Iriye, MD</i>
12:00–12:15pm	Q&A
12:15–1:00pm	Lunch
1:00–1:45pm	Day to Day Operations and Efficiency In Your Ultrasound Practice <i>Elizabeth Williams, RDMS</i>
1:45–2:30pm	Practice Models in a World of Value Based Medicine <i>James Keller, MD</i>
2:30–2:45pm	Q&A
2:45–3:00pm	Break
3:00–3:45pm	Examining your Finances and Optimizing Returns to Assist MFMs in providing Optimal Care—Fixing Common Mistakes <i>Brian Iriye, MD</i>
3:45–4:30pm	Two Different Approaches to Marketing MFM Services <i>Thomas Lee, MD and Brian Iriye, MD</i>
4:40–4:45pm	Q&A

7. Hands-On Simulation Workshop for Ultrasound Guided Invasive Procedures

Course Directors: Joshua F. Nitsche, MD, PhD and Brian C. Brost, MD, PhD
Course Faculty: Arij Faksh, DO; Bennett Gardner, MD; Charisse Trinidad, MD; Elisabeth Codsí, MD; Kristi Borowski, MD; Linda Street, MD; Tina M. Shumard, MD and Ugochi N. Akoma, MD

Learning Objectives

1. To familiarize the participants with available options for simulating ultrasound guided needle procedures
2. To introduce the participants to curricula specific for different ultrasound guided needle procedures
3. To provide novice participants with instruction on the basics of ultrasound guided needle procedures
4. To train experienced providers on how to establish an ultrasound guided needle procedure simulation program at their institution
5. To demonstrate how simulation can be used by experienced providers to maintain skill with low-frequency procedures

8:00–8:30am	Introduction to Ultrasound Needle Guided Procedure Simulation <i>Joshua F. Nitsche, MD, PhD</i> <i>Brian C. Brost, MD, PhD</i>
8:30–9:00am	Needle Guidance Basics <i>Faculty</i>
9:00–10:30am	Hands-On Simulation (45 minutes each) Amniocentesis Chorionic Villus Sampling In-utero Stenting <i>Faculty</i>
10:30–10:45am	Break
10:45–11:30am	Hands-On Simulation (45 minutes each) Amniocentesis Chorionic Villus Sampling In-utero Stenting <i>Faculty</i>
11:30am–12:00pm	Hands-On Simulation Review <i>Faculty</i>
12:00–12:30pm	Concluding Remarks: Next Steps in Ultrasound Guided Needle Procedure Simulation <i>Joshua F. Nitsche, MD, PhD</i> <i>Brian C. Brost, MD, PhD</i>

8. Clinical Dilemmas: What the Literature Didn't Tell You

Course Directors: Alison G. Cahill MD, MSCI and Katherine Laughon Grantz, MD, MS

Learning Objectives

1. Learn how to appropriately integrate multiple findings on ultrasound for risk prediction of fetal aneuploidy for better patient counseling and diagnostic testing

2. Understand the risks and benefits of vaginal delivery for the second twin based on literature using appropriate methods to minimize maternal and neonatal morbidity
3. Determine the optimal timing of delivery for pregnancies complicated by placenta previa or accreta to minimize maternal and neonatal morbidity
4. Understand current limitations in defining normal and abnormal fetal growth to prevent unnecessary antenatal testing and intervention
5. Recognize the limitations in current understanding of cesarean risk associated with labor induction to improve selection of patients

8:00–8:10am	Introductions, pass out notecards for questions, pretest <i>Alison Cahill, MD, MSCI</i>
8:10–8:45am	Previas and accretas: when to deliver <i>William Grobman, MD, MBA</i>
8:45–9:20am	Is induction of labor associated with cesarean delivery: depends on who you ask <i>Aaron Caughey, MD, PhD</i>
9:20–9:55am	How to integrate multiple findings on ultrasound for risk prediction of fetal aneuploidy: harder than you think <i>Methodius G. Tuuli, MD, MPH</i>
9:55–10:30am	Distinguishing pathological fetal growth restriction from constitutional small-for-gestational age: Is the Hadlock reference obsolete? <i>Katherine Laughon Grantz, MD, MS</i>
10:30–11:00am	Break
11:00–11:35am	Cesarean delivery for twins: what is the evidence? <i>Gordon Smith, MD</i>
11:35–11:55am	Expert Panel Discussion (20 min; read notecards with questions from audience; take audience questions) <i>Alison G. Cahill, MD, MSCI</i>
11:55am–12:00pm	Post test

Collaborative Workshop—Medications in Pregnancy and Lactation: Effect on Mother, Fetus and Infant

Tuesday 1:00–7:00pm; continues on Wednesday 7:00am–2:45pm

This workshop is co-sponsored by the Society for Maternal-Fetal Medicine, the Eunice Kennedy Shriver National Institute for Child Health and Human Development, the American College of Obstetricians and Gynecologists, and the American Academy of Pediatrics Section on Perinatal Pediatrics.

There are three primary goals of the workshop:

1. To provide clinicians with guidance on determining the appropriate drug to use during pregnancy incorporating available science on indication, safety profile and pharmacokinetics.
2. To define the research gaps in safety of medications beyond teratogenicity.
3. To outline policy initiatives to improve safety and efficacy of drugs in pregnancy and lactation on the mother, fetus and infant.

(Registration limited, first come, first serve. Attendees are responsible for their meals.)

MFM Fellowship Directors Workshop 1:00–5:00pm

Course Director: Bill Grobman, MD, MBA

The target audience is current, new, and proposed program directors of ABOG-accredited fellowship programs (or proposed programs) and their associates. Fellowship coordinators are also welcome. Course topics include:

- an overview of ABOG's requirements
- approaches to improve administrative aspects of MFM fellowship
- approaches to improve research aspects of MFM fellowship
- approaches to improve clinical aspects of MFM fellowship

Journals Reviewer Course 5:00–7:30pm

Course Directors: Roberto Romero, MD; Nancy Chescheir, MD and Khalid Khan, MD

The leadership of the *American Journal of Obstetrics and Gynecology* (Gray Journal), *Obstetrics and Gynecology* (Green Journal)

and *BJOG: An International Journal of Obstetrics and Gynaecology* will give a brief course on reviewing manuscripts for the journals. This course is intended for new and mid-level reviewers and attendees need not already be reviewers.

The course will include:

- The essence of reviewing
- What makes a good review
- What makes a good reviewer
- The value of reviewing to the individual and the specialty and ultimately the patient
- Online mechanics of performing the review

WEDNESDAY, FEBRUARY 4

9. Medical Complications in Pregnancy

Course Directors: Ware Branch, MD and Torri Metz, MD

Learning Objectives

1. Describe the latest information regarding the diagnosis and management of select medical complications occurring during pregnancy
2. Create a peripartum management plan for women with medical complications including timing of delivery, mode of delivery and anesthetic considerations
3. Describe the utilization of medications in the management of selected medical disorders and how they impact pregnancy and the fetus
4. Describe how select medical complications of pregnancy influence perinatal outcomes

8:00–8:10am	Welcome and Introduction <i>Ware Branch, MD and Torri Metz, MD</i>
8:10–8:40am	Updates in the Management of Systemic Lupus Erythematosus and Antiphospholipid Antibody Syndrome <i>Ware Branch, MD</i>
8:40–9:10am	Stroke, TIA and Migraine: A Primer on Diagnosis and Management in the Pregnant Patient <i>Kathleen Digre, MD</i>
9:10–9:40am	Clinical Pearls for Managing Women with Congenital Heart Disease <i>Torri Metz, MD</i>
9:40–10:00am	Panel Q&A <i>Branch/Metz/Digre</i>
10:00–10:30am	Break
10:30–11:00am	Inflammatory Bowel Disease in Pregnancy: Biologics, Aspirin, and Mode of Delivery <i>Chad Grotegut, MD</i>
11:00–11:40am	Obesity: Inflammation, Sleep Apnea and Perinatal Outcomes <i>Fabio Facchinetti, MD</i>
11:40am–12:00pm	Panel Q&A <i>Grotegut/Facchinetti</i>
12:00–1:00pm	Lunch
1:00–1:30pm	Diagnosing and Managing Platelet Disorders in Pregnancy <i>Robert Silver, MD</i>
1:30–2:00pm	Diagnostic Criteria for Gestational Diabetes: A Country without Consensus <i>Linda Barbour, MD</i>
2:00–2:30pm	Peripartum Management of Pregnant Women with Von Willebrand Disease and Hemophilia Carriers <i>Andra James, MD</i>
2:30–3:00pm	Panel Q&A <i>Silver/Barbour/James</i>

WEDNESDAY, FEBRUARY 4, cont.

10. Infections in Pregnancy

Course Directors: R. Phillips Heine, MD and Brenna Anderson Hughes, MD

Learning Objectives

1. Understand the impact as well as management of chronic hepatitis in pregnancy
2. Review the potential for fetal and neonatal benefit from maternal immunization
3. Understand the potential impact of Ebola and other emerging infections on the pregnant patient
4. Develop an evidence-based approach for the prevention of wound infection post cesarean section
5. Review the diagnosis and management of C. difficile in the pregnant patient

8:00–9:00am	Advances in Hepatitis Infection <i>Brenna Anderson Hughes, MD</i>
9:00–10:00am	Maternal Immunization for Fetal Benefit <i>Geeta Swamy, MD</i>
10:00–10:30am	Break
10:30–11:15am	Ebola Virus Infection <i>Denise Jamieson, MD</i>
11:15am–12:00pm	Emerging Infections in Pregnancy <i>Denise Jamieson, MD</i>
12:00–1:00pm	Lunch
1:00–2:00pm	An Evidence-based approach to the prevention of Post-Cesarean Wound Infection <i>R. Phillips Heine, MD</i>
2:00–3:00pm	Clostridial Infections in Obstetrics <i>Geeta Swamy, MD</i>

11. Debates in Fetal Intervention

Course Directors: Henry L. Galan, MD and Ramesha Papanna, MD, MPH

Learning Objectives

Following this course in fetal intervention, participants should be able to perform the following:

1. Recognize the cardiovascular pathophysiology and echo findings associated with twin-twin transfusion syndrome (TTTS), and its role in staging of the disease
2. Discuss the benefits and the risks of cerclage placement in multiple gestations complicated by TTTS
3. Discuss options for treatment of mo/di twins complicated by severe selective IUGR
4. Identify the potential benefits and risks of MMC repair in utero and determine appropriate candidates for this surgery
5. Discuss the work-up, indications, risks and benefits of vesicoamniotic shunt placement for LUTO and available alternative methods of treatment
6. Discuss the pros and cons of having one or more fetal centers in every major city

8:00–8:05am	Introduction to the debates <i>Henry Galan, MD</i>
8:05–8:40am	Upstaging of TTTS based on echocardiogram findings Pro: <i>Tim Crombleholme MD</i> Con: <i>Lynn Simpson, MD</i>
8:40–9:15am	Cerclage treatment for short cervix (<25 mm) in TTTS Pro: <i>Shane Reeves, MD</i> Con: <i>Ramesha Papanna, MD, MPH</i>
9:15–9:50am	Laser photocoagulation for severe selective IUGR in multiple gestation Pro: <i>Ramen Chmait, MD</i> Con: <i>Dick Oepkes, MD</i>
9:50–10:20am	Break
10:20–10:55am	In-utero repair of MMC outside the MOMS trial criteria Pro: <i>Henry Galan, MD</i> Con: <i>Julie Moldenhauer, MD</i>

10:55–11:30am	Vesicoamniotic shunt placement for lower urinary tract obstruction Pro: <i>Greg Ryan, MD</i> Con: <i>Dick Oepkes, MD</i>
11:30am–12:05pm	Future of fetal surgery centers: Every major city should have one Pro: <i>Henry Galan, MD</i> Con: <i>Kenneth J. Moise Jr., MD</i>

12. Practical Obstetric Critical Care—Hands-On Simulation Course

Course Directors: Shad Deering, MD and Jason Vaught, MD

Learning Objectives

1. Understand common etiologies for sepsis during pregnancy and demonstrate the appropriate interventions
2. Be able to recognize and manage endocrinologic emergencies encountered during pregnancy
3. Describe and practice the diagnostic and treatment algorithms used during cardiac arrest in pregnancy
4. Be familiar with and practice transfusion for coagulopathy during pregnancy
5. Develop a basic template for debriefing after an obstetric emergency has occurred

8:00–8:30am	Introduction to Course & Overview of Simulation for OB Critical Care <i>Andy Satin, MD; Shad Deering, MD</i>
8:30–9:30am	Sepsis in Pregnancy <i>Jason Vaught, MD; Clark Johnson, MD</i>
9:30–10:30am	Endocrine Emergencies during Pregnancy <i>Meredith Birsner, MD; Joshua Nitsche, MD</i>
10:30–10:45am	Break
10:45–11:45am	Amniotic fluid embolism and Hemorrhage management <i>Dena Goffman, MD; Jamie Murphy, MD</i>
11:45am–12:15pm	Debriefing after critical care events <i>Christian Pettker, MD</i>
12:15–12:30pm	Concluding remarks & review <i>Shad Deering, MD</i>

13. Advances in First Trimester Risk Assessment

Presented by the Perinatal Quality Foundation

Course Directors: James Goldberg, MD and Jean Lea Spitz, MPH

Learning Objectives

1. Interpret the evidence related to first trimester risk assessment
 2. Discuss screening paradigms and how cell-free DNA testing impacts current protocols
 3. Review example cases of first trimester screening including NT and fetal anatomy imaging integrated with analytes and second trimester options
 4. Review sonograms of first trimester fetal structural anatomy
 5. Implement recommendations of ACOG Practice Bulletin #77 in a variety of practice settings
 6. Recognize appropriate criteria for nuchal translucency measurements and nasal bone visualization
- | | |
|-----------------|--|
| 8:00–8:45am | Screening Principles
<i>James Goldberg, MD</i> |
| 8:45–9:30am | Technical Aspects of First Trimester Screening
<i>Bryann Bromley, MD</i> |
| 9:30–10:15am | Follow-up and Confirmatory Testing
<i>James Goldberg, MD</i> |
| 10:15–11:00am | Early Anatomic Screening
<i>Bryann Bromley, MD</i> |
| 11:00–11:45am | Applying Screening Principles as a Credentialed Provider
<i>Loralei Thornburg, MD</i> |
| 11:50am–12:00pm | Q&A
<i>Faculty</i> |

2015 SOCIETY FOR MATERNAL-FETAL MEDICINE ANNUAL MEETING REGISTRATION

Register online at www.smfm.org and avoid late/onsite registration fees! Each participant (member, guest, fellow, resident, nurse) must submit a registration. You may photocopy this form or download additional forms from www.SMFM.org. Advance registration and payment must be received by January 30, 2015. Registrations received after this date will be returned and you may register on-site for an additional fee of \$150.

LUNCHEON ROUNDTABLES Register for only one per day. Tickets are \$80 each. Seating is limited, so please indicate your 1st, 2nd, and 3rd choice. Assignments will be made on a first come, first serve basis.

Thursday, February 5, Noon–1:00pm

- A. _____ The Role of Cervical Pessaries to Prevent of Preterm Birth;
Joseph Biggio, MD
- B. _____ Management of Complicated Monochorionic Twin
Gestations; *Julie Moldenhauer, MD*
- C. _____ Understanding the Role of Microbiomes in Health and
Disease in Pregnancy; *Kjersti Aagaard, MD*
- D. _____ Preparations, Management, & Complications of Suspected
Placenta Accreta/Percreta; *Baha Sibai MD*
- E. _____ The Human Placenta Project; *Catherine Spong, MD*
- F. _____ Delivery Challenges in the High-risk, HIV-positive Patient;
*JoNell Potter, PhD; Carey Eppes, MD, MPH and Margaret
Lampe, MPH, RN*

Friday, February 6, Noon – 1:00pm

- G. _____ Diagnosis and Prenatal Management of Congenital CMV
Infection; *Brenna (Anderson) Hughes, MD*
- H. _____ Sleep Apnea in Pregnancy: Frequency, Risks, and
Complications; *Judette Louis, MD*
- I. _____ The Role of Chromosomal Microarray in Clinical Practice;
Loraine Dugoff, MD
- J. _____ **ABOG-SMFM Lecture:** Collaboration in Clinical Trials and
Individual Participant Meta-analysis: A Day Without
Randomization is a Day Without Progress; *Ben Mol, MD*
- K. _____ Cochrane Reviews and Meta-Analysis: What Every MFM
Should Know?; *Zarko Alfrevic, MD*

SCIENTIFIC FORUMS (please check only one, seating is limited)

☐ I will not participate

☐ I will participate in:

Wednesday, February 4, 3pm – various

- ☐ Computers ☐ Critical Care ☐ Diabetes ☐ Fetal Cardiology ☐ Genetics ☐ Global Health ☐ Hypertension
- ☐ Infections and Inflammation in Pregnancy ☐ Maternal-Fetal Surgery ☐ Obesity in Pregnancy ☐ Obstetric Quality and Safety
- ☐ Perinatal Epidemiology ☐ Pregnancy as a Window to Future Health ☐ Preterm Labor ☐ Simulation in Pregnancy
- ☐ Toxicology and Substance Abuse in Pregnancy ☐ Ultrasound

Resident Forum ☐ Wednesday, February 4, 3:00 – 4:30pm

International Society of Perinatal Obstetricians ☐ Thursday, February 5, 5:30 – 7:30pm Scientific Presentations

SPECIAL FOCUS GROUPS

Research Support Personnel and Investigators Box Lunch Meeting

☐ Thursday, February 5, 11:30am – 1:00pm

Armed Forces MFM Network Box Lunch Meeting

☐ Thursday, February 5, 11:30am – 1:00pm

ORAL PRESENTATIONS AND POSTER SESSIONS

A total of 86 oral presentations will be given during the Plenary and Concurrent Sessions. You will have the opportunity to view 800 poster presentations over the course of the five Poster Sessions.

SCIENTIFIC FORUMS

Scientific Forums focus on scientific subject areas within the specialty, academic areas immediately related to MFM, and the technologies that support MFM practice. Meeting agendas are detailed on the SMFM web site at www.SMFM.org.

Wednesday, February 4, 3:00pm–various

Computers	Kelley Clark, MD (2014-2015)
Critical Care	Hugh Ehrenberg, MD (2014-2015)
Diabetes	Erica Berggren, MD (2015-2016)
Fetal Cardiology	Greggory DeVore, MD (2015-2016)
Genetics	Brian Shaffer, MD & Lorraine Dugoff, MD (2015-2016)
Global Health	Kathryn Reed, MD & Maria Small, MD (2014-2015)
Hypertension	Eugene Chang, MD (2015-2016)
Infections and Inflammation in Pregnancy	Meghan Donnelly, MD (2015-2016)
Maternal-Fetal Surgery	Nancy Chescheir, MD (2014-2015)
Obesity in Pregnancy	Jordan Perlow, MD (2015-2016)
Obstetric Quality & Safety	Brian Mercer, MD (2015-2016)
Perinatal Epidemiology	Methodius Tuuli, MD & Yvonne Cheng, MD (2015-2016)
Pregnancy as a Window to Future Health	Judette Louis, MD (2014-2015)
Preterm Labor	Irina Burd, MD, PhD (2015-2016)
Simulation in Pregnancy	Joshua F. Nitsche, MD (2015-2016)
Toxicology and Substance Abuse in Pregnancy	David Stamillio, MD (2014-2015)
Ultrasound	Ashley Roman, MD (2015-2016)

Thursday, February 5, 5:30–7:30pm

Scientific Presentations of the International Society of Perinatal Obstetricians
Federico Mariona, MD

SPECIAL FOCUS GROUPS

Thursday, February 5, 11:30am–1:00pm

Research Support Personnel and Investigators

Box Lunch Meeting

Laurie Leshner, MBA, BSN, CCRP

Topic: Research and Residency: Working Hand in Hand

Speakers: Marie Gibson CCRP, Research Compliance Manager, University of Utah OBGYN

In a collaborative setting, we will discuss opportunities and tools used to educate and support residents with their research requirements. We recognize many interns begin residency with little research background and knowledge. We will share tools our research group developed to assist residents in identifying a research project and mentor, navigating the world of regulatory and compliance requirements, project conduct, close out and how to present research findings. This is done in a positive, interactive environment with support throughout the entire project. This forum is meant to provide and share our ideas and positive results we have had with our residents and their research. Research support staff, residents, fellows and faculty will take away valuable information.

Armed Forces MFM Network

LTC Mark Sewell, MD

Agenda:

- Perinatal Quality and Collaborative Studies; Elliott Main, MD
- Working with a Perinatal Quality Collaborative at a Military Medical Center; MAJ Karen Wilson, MD
- DoD Birth and Infant Health Registry and Vaccine Safety in Pregnancy, Naval Health Research Center
- Network Business; LTC Mark Sewell, MD

MEETING LOCATION AND ACCOMMODATIONS

Hilton San Diego Bayfront

Toll Free Reservations: 1 800-HILTONS

1 Park Blvd

San Diego, CA 92101

www.HILTON.com

Here, on the spectacular San Diego bayfront, peace, passion, and possibilities flow freely and spontaneity has room to dance. The Hilton San Diego Bayfront hotel has an openness not only in floor plan, but also in attitude, energy, experience, and service.

No other San Diego hotel can compare to the Hilton's elegance and sophistication. Steps from downtown's Gaslamp Quarter and PETCO Park, and minutes from San Diego Airport, this beautiful San Diego hotel offers the finest amenities and lays the best of the city at your doorstep.

To receive the special group rate, reservations must be made by January 6, 2015. Reservations, room cancellations, and any special arrangements must be handled directly with the hotel. When making your reservations, please state you will be attending the SMFM 35th Annual Meeting to insure you receive the special group rate. Reserve your room early—group rates are based upon availability.

NEW AND CONTINUING EVENTS

New! President's State of the Society Address

Thursday, February 5, 7:30am

The Pregnancy Meeting kicks off with a keynote address from SMFM President Dr. Vincenzo Berghella. Don't miss what will be an inspiring address on the Society's initiatives and achievements as the SMFM continues the work of leading the global advancement of women's and children's health through pregnancy care, research advocacy, and education.

New! Yoga on the Lawn

Say "Ohm"! Attendees will be fit and energized when taking the hour long yoga classes which are offered daily, mornings and evenings, throughout the meeting on the beautiful Promenade Plaza of the Hilton San Diego Bayfront. Morning classes begin at 6:00am and evening class times vary. Participants will receive a schedule of classes. Attend as many yoga classes as you wish with the purchase of an official Pregnancy Meeting™ yoga mat. Please see the registration form for pricing details. In the unlikely event of inclement weather, an alternate location will be provided.

ABOG-SMFM Distinguished Lecture Series

The second annual lecture for the ABOG-SMFM Distinguished lecture Series will be given by Ben Mol, MD on "Collaboration in Clinical Trials and Individual Participant Meta-analysis: A Day Without Randomization is a Day Without Progress." on Friday, February 5 at noon.

This continuing series will feature a nationally or internationally recognized expert in aspects of obstetric healthcare, research and/or education. The lecture will be given annually during the Thursday or Friday noon luncheon session and will be recorded for dissemination on the Society's website.

Residents Forum

Wednesday, February 4, 3:00-4:30pm

Objectives

- Increase understanding among residents about what MFM fellowships entail
- Encourage Ob/Gyn residents to apply for MFM fellowships
- Familiarize residents with the application process

The Pregnancy Foundation Events

Queenan Event

Dr. John T. Queenan has spent his career in academic medicine initially focused on pioneering work in diagnosis and treatment of the fetus. He has been dedicated to providing the best and most up to date education for obstetricians and gynecologists with an emphasis on the delivery of this education in a simple straightforward manner. As his career advanced, he developed a passion for international public health and therefore the Queenan Fellowships for Global Health is a fitting capstone to his career. The vision of the Queenan Fellowships for Global Health is to train leaders in maternal-fetal medicine who will advance the practice of obstetrics through novel education and research in underserved areas around the world. Please join The Pregnancy Foundation and the Society for Maternal-Fetal Medicine in recognizing Dr. Queenan and help establish the Queenan Fellowships for Global Health by attending a fundraising dinner in his honor on Thursday, February 5th at 7:00 PM.

You may purchase a dinner ticket or tribute package and donate to the program. Ticket pricing and tribute packages are listed on the meeting registration form. A Pregnancy Foundation representative will contact you via e-mail to obtain all attendee names. Please contact The Pregnancy Foundation Administrator at 202-314-2307 or pregfound@smfm.org with any dietary restriction information or for additional questions.

5K Run/Walk for Andy

Please join the Pregnancy Foundation at 6:30am on Saturday, February 7th for our 5K Run/Walk in memory of Dr. Andy Helfgott. Andy was passionate about our organization and work of the Foundation to fund scholarships for fellows and the Society membership. He was full of ideas and optimism, and was particularly enthusiastic about the involvement of our fellows and junior members in our organization. Therefore, we will reinstate the 5K Run/Walk event at our annual meeting in San Diego as a tribute to Andy. Please join us in honoring the memory of Dr. Andy Helfgott and in supporting the Pregnancy Foundation and its programs. We are very grateful to our sponsor, **Hippo ePHI Datastorage, Inc.**, in supporting the Foundation and the Society that Andy truly loved and was so proud to work with. We all miss him dearly but let us all collaborate and Run/Walk to keep his passion alive.

The course will begin at the Hilton Bayfront hotel, and will take place on the Boardwalk. Participants will receive a complimentary t-shirt onsite. Please see the enclosed registration form for pricing information and to register. If you wish to make an additional donation in honor of Dr. Andy Helfgott, please visit, <http://thepregnancyfoundation.org> or contact The Pregnancy Foundation Administrator at 202-314-2307 or pregfound@smfm.org.

SOCIAL EVENTS

The Opening Reception combined with the opening of the Exhibits will be held on Wednesday, February 4, from 6:00–8:00pm, providing an opportunity for all attendees to meet and mingle informally over drinks and light hors d'oeuvres.

On Thursday, February 5, from 6:30–7:30pm, there will be a reception for MFM Fellows-in-training. *This event is supported by an unrestricted educational grant from Obstetrix Medical Group and is by invitation only.* The Meet-the-Fellows Reception will immediately follow the Associate Member's meeting which will be held from 6:00–6:30pm.

On Friday night, from 6:15–7:00pm, the President's Award Ceremony is an opportunity to welcome the SMFM's newest Honorary Member, The Pregnancy Foundation/AAOGF Scholarship Award winner, and to cheer as the best oral and poster presentations (as judged through Friday) are announced. The President's Award Ceremony will immediately follow the presentation on "**Global Maternal and Perinatal Health in a Changing World**" by 2015 Honorary Member Dr. Metin Gulmezoglu of the World Health Organization (5:45–6:15pm) and the third annual "Late-Breaking Research" presentations (5:15–5:45pm).

EXHIBITS

Located in the Sapphire Ballroom and Foyer and adjacent to the oral presentations, the Industry Exhibits are designed to inform attendees about commercially available products and services that are related to maternal-fetal medicine. The SMFM values the educational contribution made by our Industry Exhibitors and encourages you to attend this important part of the meeting.

Exhibit Days, Dates and Times

Wednesday, February 4, 2015

6:00pm–8:00pm with opening reception

Thursday, February 5, 2015

10:00am–1:00pm with coffee break

3:30pm–5:30pm with coffee break

Friday, February 6, 2015

10:00am–1:00pm with coffee break

3:30pm–5:30pm with coffee break

Exhibits Open on Wednesday Evening!

In 2015, the opening of the exhibits will once again be combined with Wednesday evening's Opening Reception in the Sapphire Ballroom and Foyer. The 2015 exhibit portion of the meeting will also include the Exhibit Passport Program where attendees receive "passports" at registration and obtain an exhibitor stamp at each booth they visit. Once attendees obtain stamps from at least 20 different exhibitors, they can enter for prize drawings. Prize offerings include electronics, software, and meeting registrations. New for 2015, are door prize drawings on Thursday and Friday's afternoon sessions. Attendees will be provided with raffle tickets for prize drawings during these sessions. This is the **only** national meeting where you will have the opportunity to see new services, equipment, and technologies especially showcased for maternal-fetal medicine subspecialists.

MEETING CANCELLATION POLICY

Written cancellations postmarked by January 23, 2015 will be refunded less a \$75.00 processing fee. REFUNDS WILL NOT BE MADE FOR CANCELLATIONS RECEIVED AFTER THAT TIME. All refunds will be issued after the meeting.

ADDITIONAL INFORMATION

Registration fees for the Scientific Sessions include continental breakfast and breaks. The Wednesday Evening Reception and Friday's President's Award Ceremony are open to you and your spouse/guest. Back by popular demand are the Luncheon Roundtables, featuring presentations by authorities in the specialty. Topics will cover current controversies and concerns in Maternal-Fetal Medicine. Attendance at each session is limited, so pre-registration is essential. The registration fee for the Roundtable Luncheons includes a box-lunch, beverage, and the opportunity to hear some of the most respected names in MFM discuss today's "hot button" issues.

Electronic Posters

For the second year, some posters in each session will be presented electronically on large LCD screens in lieu of the traditional paper format.

Mother's Lounge

SMFM will have a dedicated room in the Hilton San Diego Bayfront for mothers who are nursing. The room will be available throughout the meeting, free of charge to Pregnancy Meeting attendees, but storage is not permitted.

Ancillary Meetings

Thursday, February 5 3:00 - 5:00pm

Ob/Gyn Hospitalists Session: Collaborative Practice with Ob/Gyn Hospitalists to reduce stress on MFMs

Saturday, February 7 12:30 - 3:00pm

Global Obstetrics Network: GONet, examples of global prospective data synthesis

Register Online and avoid late/onsite registration fees! Register online at www.smfm.org. Registering online is fast, easy, and secure. SMFM accepts Visa, MasterCard and Discover for online registration.

Registration Reminder

If you are registering with the enclosed registration form, you must send a **separate form for each individual attending**. To ensure your registration information is processed correctly please TYPE or PRINT LEGIBLY and complete BOTH sides of the registration form.

You are encouraged to register in advance for all sessions. Space is limited in the postgraduate courses, workshops and symposia, special interest groups, and luncheon roundtables and registration is on a first come, first serve basis. In addition, those registering after January 30, 2015 pay an additional \$150 for late/onsite registration.

SMFM 35TH ANNUAL MEETING-AT-A-GLANCE

MONDAY FEBRUARY 2

REGISTRATION

7:00am–10:00am
Noon–5:00pm

OB Debates

8:00am–5:00pm

Ultrasound Challenges for the MFM

8:00am–5:00pm

Placenta Accreta: Making the Best Out of a Bad Disease

1:00pm–5:00pm

Putting the “M” Back into Maternal-Fetal Medicine

1:00pm–5:30pm

TUESDAY FEBRUARY 3

REGISTRATION

7:00am–5:00pm

Critical Care

8:00am–5:00pm

Advances and Updates in Perinatal Genomics

8:00am–5:00pm

Running an Efficient and Profitable Practice to Improve Care in the Era of Value Based Medicine and the ACA

8:00am–4:45pm

Hands-On Simulation Workshop for Ultrasound Guided Invasive Procedures

8:00am–12:30pm

Clinical Dilemmas: What the Literature Didn't Tell You

8:00am–12:00pm

Collaborative Workshop — Medications in Pregnancy and Lactation: Effect on Mother, Fetus and Infant

1:00pm–7:00pm

MFM Fellowship Directors Workshop

1:00pm–5:00pm

Journals Reviewer Course

5:00pm–7:30pm

WEDNESDAY FEBRUARY 4

REGISTRATION

7:00am–5:00pm

Collaborative Workshop— Medications in Pregnancy and Lactation: Effect on Mother, Fetus and Infant (cont.)

7:00am–2:45pm

Medical Complications in Pregnancy

8:00am–3:00pm

Infections in Pregnancy

8:00am–3:00pm

Debates in Fetal Intervention
