SYMPOSIUM DESCRIPTION & TARGET AUDIENCE

PROGRAM OVERVIEW

This symposium features a comprehensive educational program discussing the most up to date topics in general and medical dermatology, dermatologic surgery, pediatric dermatology, cosmetic dermatology, and dermatopathology. Internationally recognized faculty will provide both scientific and practical sessions in a collegial and casual atmosphere where questions and interactive discussion are encouraged.

New this year!! A 50 question self-assessment course with discussion of answers will be offered at no extra charge. This course is intended to qualify for American Board of Dermatology Maintenance of Certification (MOC).

The 2014 Winter Skin Seminar will be held in Snowmass, Colorado at The Viceroy Hotel. Participants can choose from various lodging scenarios: studio and suite options will be available. The Viceroy offers all the amenities expected at a top-notch ski and snowboard mountain resort nestled in a quaint ski village that allows you to "stay at one and ski at four" with Aspen mountain, Aspen Highlands, Buttermilk, and the host mountain, Snowmass available for your winter sports enjoyment. Ski-in/ski-out is available at Snowmass and the Viceroy is 7 miles from Aspen.

TARGET AUDIENCE

The target audience for this seminar is practicing dermatologists, dermatology residents and fellows, primary care physicians with an interest in dermatology, and other healthcare professionals.

LEARNING OBJECTIVES

As a result of participating in this activity, participants should be able to:

1. Describe the new generation of psoriasis medications and identify appropriate uses in psoriatic patients.
2. List and manage the potential toxicities of biologic agents for psoriasis.
3. List common dermatological surgical complications and describe approaches to their management.
4. Describe and use new molecular tools for diagnosing epidermolysis bullosa.
5. Describe the approach to management of the patient with acne, according to the latest guidelines.
6. Describe the molecular basis for many forms of alopecia, and apply new targeted therapies based on these findings.

SPECIAL SERVICES

All individuals are encouraged to participate. To request disability arrangements, please contact the Winter Skin Seminar Administrative Coordinator, Sandy Lingle, at (502) 852-7287 at least 14 days prior to the date of this program. Continuing Medical Education fully complies with the legal requirements of the ADA and the rules and regulations thereof.
