

ITLS Ohio

Emergency Care Conference

February 27 - March 2, 2014

**Crowne Plaza Columbus North
Columbus, Ohio**

*Don't miss out on the
ITLS Ohio Team
Competition!
Winners receive a FREE
registration to the
2014 ITLS International
Trauma Conference!*

**Registration
Deadline:
February 12, 2014**

WHO SHOULD ATTEND?

- Pre-hospital Emergency Care Providers
- Emergency and Critical Care Nurses
- Other Emergency Care Providers

WHY ATTEND?

- Nationally-Known Speakers
- Earn Continuing Education Credit
- Ohio's Premier Pre-hospital Conference

www.ittraumaohio.org/conference

2014 EMERGENCY CARE CONFERENCE

February 27 – March 2, 2014 Crowne Plaza Columbus North
Columbus, Ohio

Earn continuing education credit!

Options to meet your CE requirements:

- Cardiac ■ General ■ Geriatric
- Instructor ■ Pediatric ■ Trauma

Grant Funds:

According to the Ohio Division of EMS, Ohio EMS Training Grant recipients may use funds to attend this continuing education conference. Please call the Ohio Division of EMS at (800) 233-0785 with questions.

ITLS Ohio is an approved provider of EMS Continuing Education (State of Ohio 2069).

Earn up to 15 hours of Continuing Education Units at the 2014 Emergency Care Conference. More credits are available at the pre-conference workshops!

Funding for this program is supported by grant no. H33MC06699 from the Emergency Services for Children Program (section 1910, PHS Act), Health Resources and Services Administration, Maternal and Child Health Bureau & the National Highway Traffic Safety Administration.

"I was amazed by the information and insight that was given in such a short amount of time. It's great being able to learn from people who have a willingness to share their knowledge and experience with others." - 2013 Attendee

Hotel Information

Crowne Plaza Columbus North

6500 Doubletree Ave.

Columbus, OH 43229

2014 ITLS Ohio Team Competition

ITLS Ohio is accepting applications for teams to compete in the ITLS Ohio Competition. The winning team must be available to represent Ohio at the 2014 ITLS conference in Cleveland, Ohio held Nov. 4-7. Teams will complete three scenarios and the team with the highest accumulative score will be declared the winner. The Competition will be held on Friday, Feb. 28. Competitors must be available by 0700 for an introduction and to be sequestered. Teams will be accepted on a first-come, first-served basis.

For further information contact ITLS Ohio:

(614) 760-1464 or (614) 792-6506 • Toll-free (888) 464-2857

E-mail: info@itraumaohio.org • Web site: www.itraumaohio.org

SCHEDULE AT-A-GLANCE

Pre-Conference:

THURSDAY, FEBRUARY 27

0700-0800 – Pre-Conference Workshop Registration
0800-1700 – Advanced Stroke Life Support Workshop
0800-1700 – Pediatric ITLS Certification Workshop
0800-1700 – Comp. Review of Allopathic Pearls and Pitfalls

FRIDAY, FEBRUARY 28

0630-0800 – Pre-Conference Workshop Registration
0800-1200 – Hands-On High Tech Home Health
0800-1200 – Instructor Workshop
0700-1200 – Team Competition

Conference:

FRIDAY, FEBRUARY 28

1000-1300 – Conference Registration
1300-1315 – Welcome
1315-1415 – *General Session: The EMS Comedy Tour*
1415-1430 – Break & Networking with Exhibitors
1430-1530 – *Concurrent Breakout Sessions (1):*
 Concussion Management, New Legislation: “More Questions Than Answers”
 Facebook, Sexting & the New Social Media
 Pediatric Airway & Common Respiratory Diseases
 The Bariatric Patient, The World is Growing
1530-1545 – Break & Networking with Exhibitors
1545-1645 – Repeat *Concurrent Breakout Sessions (1)*
1645-1700 – Break & Networking with Exhibitors
1700-1815 – *General Session: Why Teens Kill*

SATURDAY, MARCH 1

0700-0800 – Conference Registration & Breakfast
0800-0900 – *General Session: Lights, Sirens & Geritol®: Geriatrics in EMS*
0900-0930 – Break & Networking with Exhibitors
0930-1030 – *Concurrent Breakout Sessions (2):*
 Life or Limb? Let's Save Both...Pre-hospital Tourniquets
 Pediatric Pain Management
 Special Considerations of Caring for the Elderly & the Disabled During a Disaster
 Yeah, But Can You Defend It?
1030-1045 – Break & Networking with Exhibitors
1045-1145 – Repeat *Concurrent Breakout Sessions (2)*
1145-1300 – Lunch & Networking
1300-1400 – *Concurrent Breakout Sessions (3):*
 Chest Trauma by the Numbers
 Sepsis: A Silent Killer
 The Medical Aspects of Radiation Incidents
 Toxicology 101: Recreational Pharmacology & Suicide
1400-1415 – Break & Networking with Exhibitors
1415-1515 – Repeat *Concurrent Breakout Sessions (3)*
1515-1530 – Break & Networking with Exhibitors
1530-1545 – Mayer Glimcher Award & Team Competition Winner Presentation
1545-1700 – *General Session: An Unsettling Settlement - A Lethal Misadventure in Emergency Medicine & How to Avoid Your Own*
2000-2400 – Reception

SUNDAY, MARCH 2

0700-0800 – Breakfast
0800-0915 – *General Session: Bomb & Blast Injuries*
0915-0930 – Break & Networking
0930-1030 – *Concurrent Breakout Sessions (4):*
 Cases in Emergency Medical Services (EMS)
 “How Did This Happen?” Medical Errors in the Pre-hospital Setting
 Spinal Immobilization Techniques & Decision Making
 The Sun Shall Rise & Set
1030-1045 – Break & Networking
1045-1145 – Repeat *Concurrent Breakout Sessions (4)*
1145-1200 – Break & Networking
1200-1315 – *General Session: Mind, Body & Soul*

Thursday, February 27

Advanced Stroke Life Support Workshop • 0800-1700

(General) – 8 CEs

Joe Farmer, Paramedic; Glen Keating, Paramedic, RRT; Bryan Russell, BS, Paramedic; Bryan Spangler, MHA, NRP, EMSI, CMTE; Dariusz Wolman, Paramedic, PhD

In addition to saving lives, early treatment and rapid transport of ischemic stroke patients can significantly decrease the risk of disability. In this hands-on workshop we will identify the five main stroke syndromes, cover pre-hospital and emergency department stroke protocols and examine how to best manage airway, glucose and hypertension.

Pediatric ITLS Workshop • 0800-1700 – (Pediatric) – 8 CEs

Pat Ambrose, NRP, CCEMT-P; Kim Beauch, BIS, RN, NRP; Brian Bugbee, NRP, CCEMT-P, LMT; Tim Christman, BSN, RN, Paramedic; Shelby Loudon, Paramedic

In this workshop, you'll learn the skills needed to effectively assess scene safety and perform critical interventions in pediatric trauma situations. Attendees will gain the knowledge to identify scene hazards and mechanisms of injury, perform rapid trauma assessment and identify compromises in airway, breathing, circulation and neurological status of an injured infant or child.

Comprehensive Review of Allopathic Pearls and Pitfalls (CRAPP) Topics to Round Out Your National Registry Renewal 0800-1700 (2 Cardiac & 6 General) – 8 CEs

Rita Chambers, BBA, NRP; Mary Hancock, MD, FACEP; Lou Ann Metz, BS, NRP

If you're trying to renew your National Registry and find yourself struggling to get hours in certain topic areas, we've got the solution for you. Geared toward the advanced practice paramedic, this course will cover EMS Operations, Cardiology, Airway/Respiratory and Medical Emergencies. By combining lectures, group discussion and hands-on experience, this entertaining course is designed to promote participation while combating boredom!

Friday, February 28

Hands-On High Tech Home Health • 0800-1200

(General) – 4 CEs

Rod Bair, RN, CEN, Paramedic; Steve Borghese, RN, Paramedic, CEN; Steve Maffin, AAS, Paramedic; Michael Smith, NRP, CCEMT-P, EMSI

As long term health care continues to move further away from skilled facilities and into patients' homes, EMS providers must become familiar with the equipment used by these patients. This workshop will look at the basics of various disease processes associated with long term care patients, how to manage common complaints and troubleshooting various equipment failures.

Instructor Workshop • 0800-1200 – (Instructor) – 4 CEs

Kelly Grayson, NREMT, CCEMT-P

Join us as we explore the nuts and bolts of EMS education. You'll learn how the most effective educational principles work equally well on animals or humans, strategies to enhance critical thinking skills in your students and how to select and train the people that bridge the gap between classroom and street—your preceptors.

Team Competition • 0700-1200 – (Trauma) – 4 CEs

Team members must be ITLS certified and registered for the full Emergency Care Conference by Jan. 31. Refer to page 2 for more details or download complete rules and an application online at <http://tinyurl.com/ECteamcomp>.

Friday, February 28

1000-1300 Registration

1300-1315 Welcome

1315-1415 The EMS Comedy Tour (General) 1 CE
Kelly Grayson, NREMT, CCEMT-P

Ever experience vujá dé, the feeling that nothing like this has ever happened before? Join Kelly Grayson as he riffs on chlorinating the gene pool, helpful tips on avoiding hemorrhoids, how to pay the mortgage on \$8.75 an hour, what's wrong with EMS dispatchers, how to furnish your apartment with hospital supplies and how to answer that first stupid tourist question of the day, all while staying one step ahead of the HIPAA Fairy. You'll laugh, you'll cry, you'll hurl.

1415-1430 Break & Networking with Exhibitors

1430-1530 Concurrent Breakout Sessions (1):
Choose One

Concussion Management, New Legislation: "More Questions Than Answers" (Trauma) 1 CE

Joseph Congeni, MD

This timely presentation will cover the most current issues related to brain injury and concussion. Join us as we discuss how to recognize, evaluate and manage these injuries. This session will also cover strategies to prevent traumatic brain injury and a comprehensive review of the new "Return to Play" laws regarding concussive injuries sustained by young athletes.

Facebook, Sexting & the New Social Media (General) 1 CE

Phil Chalmers

Social media offers today's kids an exciting portal for entertainment and peer interaction. But not all social media activities are healthy - or even safe. This session will familiarize you with new social media platforms, how to protect kids from cyber bullying, sexting and other harmful content. We will explore recent cases highlighting the connection between social media and juvenile violence.

Pediatric Airway & Common Respiratory Diseases

(Pediatric) 1 CE

Ann Dietrich, MD, FAAP, FACEP

This session features a comprehensive review of the pediatric airway, its unique features and how they impact the care of a patient. In addition, we will review respiratory diseases commonly seen in pediatric patients, their presentation and how to best manage these diseases.

The Bariatric Patient, The World is Growing (General) 1 CE

Daniel Marcum, MHA, BSN, RN, Paramedic

Fifty years ago, statistics for obesity didn't even exist. Now, obesity is recognized as a worldwide epidemic and a serious threat to public health. This presentation will look at the comorbidity factors associated with this disease as well as bariatric procedures available to combat obesity. We will also examine the unique challenges that EMS providers face when caring for and transporting the bariatric patient.

1530-1545 Break & Networking with Exhibitors

1545-1645 Repeat Concurrent Breakout Sessions (1):
Choose One from Above

SCHEDULE

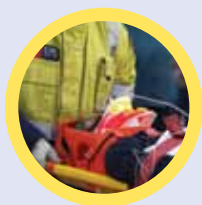

Friday, February 28 (cont.)

1645-1700 Break & Networking with Exhibitors

1700-1815 **Why Teens Kill** (General) 1.25 CEs
Phil Chalmers

This fast-paced lecture will cover more than 50 juvenile homicide cases, ranging from mass shooting events to gang-related murders to thrill killings. Utilizing crime scene photos and interrogation videos, this session will instruct EMS and law enforcement on the six types of teen killers, how to safely respond to them, the warning signs and ways to keep our schools and communities safe.

.....

Saturday, March 1

0700-0800 Registration & Breakfast

0800-0900 **Lights, Siren & Geritol®: Geriatrics in EMS** (Geriatric) 1 CE
Dustin Calhoun, MD

Geriatrics represent the most rapidly growing sector of our society and older patients have many diseases, injuries and medical needs unique to their age group. This presentation will discuss the relative complexity of geriatric medical conditions, how that complexity affects treatment and important considerations for providing pre-hospital geriatric care.

0900-0930 Break & Networking with Exhibitors

0930-1030 **Concurrent Breakout Sessions (2): Choose One**

Life or Limb? Let's Save Both...Pre-hospital Tourniquets (Trauma) 1 CE
Dustin Calhoun, MD

Tourniquets are prevalent throughout medical history and are one of the oldest life-saving devices still used in modern medicine. This presentation will discuss this history, how it has affected modern perceptions of tourniquet use, evidence surrounding the efficacy and safety of tourniquets and important considerations in their application.

Pediatric Pain Management (Pediatric) 1 CE
Ann Mary Bacevice, MD, FAAP, FACEP

Responding to and transporting an injured child in pain can be challenging, even for the most experienced emergency care provider. In this session, we will examine several cases and discuss how to manage the injured child's pain both safely and effectively, while also covering some non-pharmacological options for pediatric pain management.

Saturday, March 1 (cont.)

Special Considerations of Caring for the Elderly & the Disabled During a Disaster (Geriatric) 1 CE
Thomas Tallman, DO, FACEP

During a disaster, how is the decision made whether to shelter in place or evacuate? Who assists in an evacuation incident involving a nursing home with many patients who are non-ambulatory? In this session we will answer these questions, discuss meeting special needs during relocation and how to provide needed supplies.

Yeah, But Can You Defend It? (General) 1 CE
Kelly Grayson, NREMT, CCEMT-P

So you assessed your patient and provided excellent medical care - can your documentation back it up? Can it withstand a lawyer's scrutiny and also be understood by twelve people who don't know how to avoid jury duty? Join us in this entertaining, interactive presentation as we assess and treat a simulated patient, document the call and answer the question, "Yeah, but can you defend it?"

1030-1045 Break & Networking Exhibitors

1045-1145 **Repeat Concurrent Breakout Sessions (2): Choose One from Above**

1145-1300 Lunch

1300-1400 **Concurrent Breakout Sessions (3): Choose One**

Chest Trauma by the Numbers (Trauma) 1 CE
Michael Oddi, MD, FACS, FACC, FCCP

Many of the basic principles of immediate evaluation and management of combat injuries are applicable to trauma patients on the "Urban Battlefield." Join us as we examine these principles, paying special attention to chest trauma and the importance of rapidly recognizing and treating these wounds. We will also review "the lethal six" and "the hidden six" chest injuries.

Sepsis: A Silent Killer (General) 1 CE
Ryan Gerech, MD, CMTE

Did you know sepsis is the 10th leading cause of death in the US? Because of sepsis' time-sensitive nature, EMS is uniquely positioned to improve outcomes and help prevent death in patients with sepsis. This presentation will focus on how sepsis kills; the treatment strategies that save lives; and the EMS initiatives already in place around the country that are making a difference.

The Medical Aspects of Radiation Incidents (General) 1 CE
Thomas Tallman, DO, FACEP

Whether accidental or intentional, the threat of radiation incidents is real and presents potentially challenging medical scenarios. In this session we will cover the effects of radiation exposure, immediate vs. lethal concerns during these events, management of a radiation incident and proper decontamination procedures.

Toxicology 101: Recreational Pharmacology & Suicide (General) 1 CE
Steve Maffin, AAS, Paramedic

Street drugs continue to be a problem for patients and providers alike. In this presentation we will focus on bath salts, synthetic cannabis and heroin. We will discuss available treatment options and the challenges of treating intoxicated patients. We will also examine emerging trends of chemical suicide and the dangers EMS providers face when responding to these calls.

CONFERENCE SCHEDULE

Saturday, March 1 (cont.)

- 1400-1415 Break & Networking with Exhibitors
- 1415-1515 **Repeat Concurrent Breakout Sessions (3): Choose One from Page 5**
- 1515-1530 Break & Networking with Exhibitors
- 1530-1545 Mayer Glimcher Award & Team Competition Winner Presentation
- 1545-1700 **An Unsettling Settlement - A Lethal Misadventure in Emergency Medicine & How to Avoid Your Own (General) 1.25 CEs**
Scott Bolleter, BS, Paramedic

This presentation was developed to highlight the reality of medical misadventure in the emergent care arena. While serious complications in emergency medicine are relatively rare, understanding their implications to our clinical practice is crucial. This lecture takes a step-by-step walk through personal relationships, professional camaraderie, media interactions, patient care, as well as critical care interventions and the final responsibility that rests with each procedure. While this talk begins with a cold white marble headstone, it holds the promise of illuminating our efforts and improving patient care.

- 2000-2400 Reception

Sunday, March 2

- 0700-0800 Breakfast & Networking Opportunity
- 0800-0915 **Bomb & Blast Injuries (Trauma) 1.25 CEs**
James Augustine, MD, FACEP
- In the age of terrorism, the question is not **IF** emergency care providers will again encounter a bombing incident, but when—and more importantly how to be prepared. This keynote presentation will provide a comprehensive update on best practices for managing blast events, anticipating the unique patterns of injury associated with them, “upside-down” triage and the potential impact of these events on nearby hospitals.
- 0915-0930 Break & Networking Opportunity

Sunday, March 2 (cont.)

- 0930-1030 **Concurrent Breakout Sessions (4): Choose One**

Cases in Emergency Medical Services (EMS) (Pediatric) 1 CE
Sharon Mace, MD, FAAP, FACEP

Pediatric patients with airway, respiratory, cardiac, neurologic, trauma and infectious diseases will be presented using a case-based format where the patient's initial information will be given. In this session we will go over how to diagnose the patient in order to initiate therapy and discuss what the management of the various emergencies should be. Key factors, physical examination and ancillary findings will also be discussed.

“How Did This Happen?” - Medical Errors in the Pre-hospital Setting (General) 1 CE
Ryan Gerech, MD, CMTE

“Human fallibility is like gravity, weather & terrain, just another foreseeable hazard.” –J.T. Reason.
No matter how experienced we are or how much we train, errors in providing emergency medical care will occur. Why? Because, as the saying goes...we are “only human.” Using a case-based approach, this presentation will focus on identifying the common human factors that make errors inevitable—and how best to minimize these errors and mitigate the consequences of “being human.”

Spinal Immobilization Techniques & Decision Making (Trauma) 1 CE

James Augustine, MD, FACEP

Immobilization on a long backboard has long been the primary method for transporting patients. But the benefit of long backboards is largely a matter of training and not science. Worse, this “one size fits all” method can cause patient pain, agitation and respiratory compromise. In this session, you will gain insight on the use of new immobilization techniques that match each patient's needs.

The Sun Shall Rise & Set (Geriatric/Pediatric) 1 CE
Scott Bolleter, BS, Paramedic

As some of our most vulnerable patients, pediatric and geriatric populations often require medical care that is distinct from other age groups. In this session, we will examine actual cases in order to gain a better understanding of the comparative needs of these two types of patients and how best to approach, assess and treat their unique injury and illness patterns.

- 1030-1045 Break & Networking Opportunity
- 1045-1145 **Repeat Concurrent Breakout Sessions (4): Choose One from Above**
- 1145-1200 Break & Networking Opportunity
- 1200-1315 **Mind, Body & Soul (General) 1.25 CEs**
Scott Bolleter, BS, Paramedic

Emergency medicine can take a toll on your mind, dampen your spirit and even cause you to question why you pursued your profession in the first place. Join us as we discuss lessons our profession teaches and why we forget those lessons, refocus our energies on why we initially turned to patient care and—most importantly—reclaim that “something lost.”

- 1315 Conference Adjourns & CE Certificate Pick-up

Conference Registration Deadline is February 12, 2014!

**Please print clearly. Incomplete forms cannot be processed.
Payment must be received in order to process.**
