E-CERTIFICATE
PROVIDE FOR 2 DAYS COURSE

*Bridging
Specialties
In Sleep*

Objective

To provide an overview of sleep medicine practice in national level and exploring innovative approaches in research that bridges the gap between different specialties, leading to improved diagnosis, treatment, and management of sleep-related issues.

Register Now!

Join us at the **Malaysia Multidisciplinary Sleep Conference**, where experts from diverse specialties will share the latest updates in sleep medicine practice. Showcase your research in our **poster competition**, open to undergraduates and postgraduates, and stand a chance to **win exciting prizes, including Best Poster Presentation!**
