The World Congress of Enhanced Recovery After Surgery welcomes you to Lyon!

Dear colleagues,

On behalf of the ERAS Society and the colleagues in the organizing committees we have the pleasure to invite you to the 5th ERAS World Congress on May 10-12 in Lyon, France.

The ERAS World Congress is a unique occasion that brings together eminent experts and leaders in perioperative care.

It is also the utmost opportunity to gather specialists from different horizons that share their expertise and provide participants with the most recent updates, new concepts, state-of-the-art lectures and progress in perioperative care. This is reinforced by the participation of surgeons, anesthesiologists, nurses, hospital administrators bringing the patient into the heart of medical care.

The ERAS World Congress aim to reinforce the patient centered care through the interactions between all medical actors and networking. Interdisciplinary debate and multidisciplinary approach allows experts to bring their opinions and to debate with the auditorium.

Our goal is to organize an exciting and outstanding meeting with worldwide experts and delegates.

Heartily welcome and we look forward to seeing you in Lyon,

Mustapha Adham,
ERAS 2017 Congress President

Nicolas Demartines
ERAS Treasurer

Mike Scott
ERAS Educational Chair

Olle Ljunqvist,
ERAS Society Chairman

Dileep Lobo
ERAS Scientific Chair

ERAS

The ERAS Society is a multidisciplinary, multi-professional non-profit medical society. Our approach to care comes from the insight that best practice for the surgical patient is achieved using a multimodal approach. The previous highly successful ERAS Congresses in Lisbon in 2016 and Valencia 2014 were where experts from all disciplines and professions met. The ERAS Society World Congress represents a unique opportunity to present new products and services to over 500 delegates from around the world in a nice and historic location: This time Lyon.

The ERAS Society supports efforts to develop surgical care further by research, education and also by helping colleagues worldwide to implement ERAS pathways in a range of surgical domains.

ERAS represents a paradigm shift in perioperative care in three ways.

- First, it continuously re-examines traditional practices, replacing them with evidence-based best practices when necessary.
- Second, it is comprehensive in its scope, covering all areas of the patient's journey through the

perioperative process.

- Lastly, ERAS actively develops methods to and supports the implementation of the evidence based care principles.
- Use of the ERAS principles pathway has been shown to:
 - reduce care time by more than 30%
 - reduce postoperative complications by up to 50%

The Rhône region never leaves anyone indifferent – the contrasts of its landscapes and Beaujolais vineyards constantly surprise.

Located at the confluent of the Rhône and the Saône, Lyon is proud of its 2000 years of history.

Once Lugdunum, capital of the Gauls, now Lyon, an international metropolis, France's second city proposes an original trip back in time and through cultures.

UNESCO has recognised the exceptional nature of Lyon by listing its historical site as a World Heritage.

Gastronomy, culture, nature, sport...

Lyon and the Rhône region offer visitors a warm welcome, surprising and delighting them with their rich resources, festive atmosphere and carefully preserved quality of life.
