Lung Separation Workshop Fee: \$350

CME Credits

Schumacher Clinical Partners designates this live activity for a maximum of **17.75 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity. An additional **3.5 AMA PRA Category 1 Credits™** will be awarded for the Lung Separation Workshop.

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Schumacher Clinical Partners and Airway Management Education Center. Schumacher Clinical Partners is accredited by the ACCME to provide continuing medical education for physicians.

The Difficult Airway Course: Anesthesia has been prior approved by the **American Association of Nurse Anesthetists** for **17.75 Class A CE credits**; Code Number 1036933;
Expiration Date 10/6/2019.

The Lung Separation Workshop has been prior approved by the **American Association of Nurse Anesthetists** for **3.50 Class A CE credits**; Code Number 1036943;
Expiration Date 10/6/2019.

Participants in the ANZCA CPD program may claim this CICO course as an emergency response activity in their CPD portfolio. Recognition Code: ER-17-CICO-019.

About Us

Airway Management Education Center was founded by Michael F. Murphy, MD, Ron M. Walls, MD and Robert C. Luten, MD in 1998. Since then, over 30,000 medical providers have taken The Difficult Airway Courses. Our faculty are renowned experts in airway management with an impressive portfolio of research and publications. They share an unparalleled passion for teaching, which translates to an extraordinary learning experience.

Lung Separation Workshop

Optional Pre-Course Workshop

In this pre-course workshop, participants learn and practice lung separation techniques in airway simulators. The workshop focuses on:

- left and right double lumen tube placement with confirmation of placement and troubleshooting
- use of bronchial blockers
- options for lung separation in the face of difficult airways

Enrollment is limited, so please apply early. Pre-registration is required.
