Troubleshooting IV Therapy Access, Complications & Uncompliant Patients: Delivering an Effective Rapid Response

Wednesday 4th November 2020 The Studio Conference Centre, Birmingham

This conference focuses on troubleshooting IV Therapy – access, complications and uncompliant patients – through delivering an effective rapid response.

Difficulties in IV access due to individual patient factors or patients with difficult venous access often lead to repeated failed attempts which can result in delayed diagnosis and treatment. The conference will update delegates on troubleshooting IV associated complications and practicalities of vascular access issues including effective PICC/Midline placement and maintenance. The conference will also look at setting up an effective IV Therapy rapid response service.

This conference will enable you to:

- Learn from outstanding practice in troubleshooting access, complications and uncompliant patients
- Reflect on national developments and learning
- Explore how a Human Factors approach can help to design out errors and make doing the right thing easier
- Improve the way you work with uncompliant patient groups including people with learning disabilities, children, IV drug users and people with needle phobia
- Develop your skills in reducing IV associated complications: Understanding and reducing infusion related infection and medical adhesive related skin injuries (MARSI)
- Ensure effective PICC/Midline placement including the use of Ultrasound guided vascular access
- Learn from experienced practitioners in setting up and delivering an effective rapid response service
- Understand how you can improve vessel health and maintenance
- Developing a practical and consistent approach to trouble shooting vascular access issues
- Identify key strategies for improving success rates in vascular access
- Ensure you are up to date with the latest evidence
- Self assess and reflect on your own practice
- Gain CPD accreditation points contributing to professional development and revalidation evidence

10.00 Chair's Welcome & Introduction: IV Therapy and vascular access devices - A national and international update

Jackie Nicholson

Global Committee Member, World Congress on Vascular Access
& Nurse Consultant Vascular Access
St George's University Hospitals NHS Foundation Trust

- innovations, developments and research
- the 2019 revised RCN standards for infusion therapy –what has changed?

10.30 Considering the uncompliant patient: a four-step approach

Andrew Barton

Chair, NIVAS
Advanced Nurse Practitioner in Vascular Access and IV Therapy
Frimley Health NHS Foundation Trust

- uncompliant patient groups
- how can you gain trust from your uncompliant patient?
- reducing discomfort by using ultrasound or infrared to locate a vessel
- case studies and advice for managing people with learning disabilities, IV Drug Users and Needle Phobic patients

11.00 Questions & answers, followed by coffee at 11.10

11.30 EXTENDED SESSION: Setting up a rapid response service

Andrea Darby

IV Therapy Clinical Team Leader
Gloucestershire Royal Hospital NHS Foundation Trust
Nurse Teacher (NMC) and
Queen's Nurse

- setting up and running a rapid response IV service
- developing and educating staff in a model of best practice
- the issues we are seeing in our service

12.15 EXTENDED SESSION: PICC/Midline placement and management & troubleshooting

Jane Pain

Advanced Nurse Practitioner - Vascular Access
Epsom and St Helier University Hospitals NHS Trust

- PICC/Midline placement including the use of Ultrasound guided vascular access
- reducing and managing complications
- our experience and practical tips for improvement

13.15 Questions & answers, followed by lunch at 13.25

14.00 EXTENDED SESSION: Reducing IV associated complications

Understanding and reducing infusion related infection and medical adhesive related skin injuries (MARSI)

Helen Harker

Senior Nurse in Intravenous Access
Royal Liverpool & Broadgreen University Hospitals NHS Trust

- understanding and reducing infusion related infection
- understanding the root cause of the infection
- the effective management of infected lines
- Medical adhesive skin injuries (MARSI) – occurrence, prevention, treatment and different dressings available
- our experience of IV team and Infection Control joint working

15.00 Human Factors, IV Therapy & Vascular Access

Fran Ives

Innovation Project Manager
West Midlands Academic Health Science Network with

Jane Higgs

Human Factors Consultant
JH Human Factors

- how an understanding of human factors can support effective IV practice
- using a human factors approach to design out error and make doing the right thing easier
- pros and cons of different devices in detail for different issues
- the developing role of needle free connectors
- interactive discussion

15.40 Questions & answers, followed by coffee at 15.50

16.00 Developing a practical and consistent approach to troubleshooting vascular access issues and complications

Genevi Octavo

IV Practitioner
Kings College NHS Foundation Trust

- trouble shooting IV access issues
- pros and cons of different devices in detail for different issues
- improving practice and driving improvement
- managing and reducing complications

16.30 Vessel access maintenance and preservation

Karen Harrold

IV Access Nurse Consultant
Mount Vernon Cancer Centre

- training and educating frontline staff in vessel access maintenance and preservation
- preserving veins for future use
- difficult issues in cancer care
- case studies in practice

17.00 Questions and answers then Moving forward: closing address by Chairman, followed by close
