Speaker

Kim Murphy, MS, RN, APRN-CNP, RNC-OB, RNC-MNN, RNC-EFM

Kim has 35 years of nursing experience, with over 30 years in the women's health and perinatal arenas. She is certified in women's health, inpatient obstetrics, fetal monitoring and maternal newborn nursing. Additionally, Kim is a national, AWHONN-designated fetal monitoring instructor for both intermediate and advanced programs. She is a nurse planner and has created programs for neonatal, obstetrical and women's health topics, presenting throughout the country.

Kim has worked in Level I and Level III institutions, along with providing women's health services in both the private office and public health settings. Kim is on staff at Poling Law in Columbus, OH, as their obstetrical and woman's health legal nurse consultant, working with attorneys across the country on legal issues.

MED-ED reserves the right to substitute an equally qualified speaker if necessary.

Course Overview

Presented in lecture format, this course reviews topics for the National Certification Corporation (NCC) Inpatient Obstetric Nursing Exam. Elements of the exam will be discussed, followed by a review of the content. The major components include disease processes during pregnancy, fetal evaluation, application of fetal monitoring for the laboring client and postpartum and neonatal assessments. Practice questions will enable the participant to increase confidence and experience with test content.

Program Learning Outcomes

This program prepares the learner to:

- Describe the Inpatient Obstetric Nursing Exam, test plan and the practice requirements to sit for the exam.
- Construct a study plan for the exam based on understanding the blueprint and domains of practice covered.
- Identify common mistakes and pitfalls that are made during studying and testing for the exam.
- Recall the core components covered in the exam through didactic supplementation and test questions.
