TARGET AUDIENCE

This program is designed to benefit Physicians, Nurses, Nurse Practitioners, Physician Assistants & Clinical Pharmacists.

There are no prerequisites required for this course. To claim your certificate you must attend the seminar, complete the activity evaluation and download your certificate of completion.

COURSE DESCRIPTION

Program sessions integrate the most current scientific and clinical information and incorporate case-based learning methods. A discussion period after each presentation will be used to clarify and debate issues. Participants will also have the opportunity to visit exhibits.

LEARNING OBJECTIVES

These objectives support medical assessment and management with patient populations for physicians, nurses, nurse practitioners, physician assistants and pharmacists.

- Formulate and integrate an evidence-based approach to key clinical challenges in hospital medicine.
- Describe diagnostic and management skills relevant to improving the care of the hospitalized patient.
- Implement optimal team-based strategies to promote systems changes and quality improvement.
- Promote successful transitions of care to the outpatient care arena.

Competencies addressed: Patient Care; Medical Knowledge; Practice-Based Learning & Improvement; Interpersonal & Communication Skills; Professionalism; System-Based Practice

The information provided at this CME/CE activity is for continuing education purposes only and is not meant to substitute for the independent medical/clinical judgment of a healthcare provider relative to diagnostic and treatment options of a specific patient's medical condition. If you have activity questions or concerns, please contact cpdsupport@health.usf.edu or call 813-224-7860.

USF is an Equal Opportunity/Affirmative Action/Equal Access Institution. For disability accommodations contact CEConsultants at 303-933-1767 within 5 days of the event.
