Course Introduction

The perfect way to catch up with where you left off on your Neuromuscular journey, the REBOOT course is designed to refresh the skills and systems you learned in your NM journey at LVI but due to life-circumstances, you had to take a break. This course will be a fast paced and exciting overview of the key components in the Core courses 1-4.

If it has been a few years since you were out for Core 4 then this is an excellent way to get your case ready for Core 5 and to get back in the groove at LVI and finish your Core series. The reality is that like a foreign language, unless you use the skills and concepts you had developed in the Core courses, you lose them. Your command of these concepts has been diluted in the time since you were out for your last course, and this three-day program will put you back on track.

Refining

Dr. Doctor,

Garfield Refining, who has assisted the dental community for more than a century by processing for gold, silver, platinum and palladium, is pleased to offer a promotion to LVI course attendees and will have a representative on site at LVI during registration to collect scrap (and/or jewelry).

If you bring your precious metal dental scrap to registration on the first day of (course name), you will receive:

1. Full value of your precious metal scrap; Dentists who are in the practice of selling their metal scrap at the door, are in most instances receiving one third the value, compared to the more productive and efficient processing a refinery would produce, as only a refining company can process your PFM's.
2. Garfield will provide the greater of either \$100 or 5% of the total value of your scrap in tuition credit towards your next LVI course.

LVI course credit and payment for your scrap (through your choice of check, cash or gold coin exchange) will be delivered after Garfield has processed your dental scrap.

Canadian doctors have experienced no issue with the transporting of metals to the States, however, if desired a prepaid, insured label will be provided.

Response has been extremely positive. If you have any questions about what type of dental scrap/unwanted jewelry to bring, please call the Garfield Refining Representative, Tess Mosely, at 702-409-3737.
