20	30						

IFPA Conference 2019 in Buenos Aires will allow to develop a four-day meeting that will keep the format of the last IFPA meetings regarding lectures, awards, four simultaneous workshops, oral and poster presentations and ECR awards.

IFPA 2019 / SLIMP 2019 BUENOS AIRES – ARGENTINA 10-13 September 2019

PLACENTA: The origin of pregnancy health and disease

Aim: The main goal of this meeting is to provide insights into the main advances in the development, function, cellular aspects, signaling, molecular mechanisms, genetics, epigenetics and bioinformatics in the placenta and addressing the maternal-fetal interaction and other multidisciplinary issues and technical advances needed to improve the knowledge involved in sustaining pregnancy & outcomes in health and disease.

Activities: The activities will promote the excellence and warmth in both Scientific and Social aspects for delegates and young investigators in a vibrant South American City.
