1-DAY Psych Congress® REGIONAL MEETINGS

BRINGING THE *U.S. PSYCHIATRIC AND MENTAL HEALTH CONGRESS* TO A CITY NEAR YOU

The Psych Congress 1-Day Regional Meeting Series is built off the reputation and first-rate education offered by the *U.S. Psychiatric and Mental Health Congress*, the nation's largest independent continuing mental health education conference. The meetings are designed for mental health and primary care clinicians looking to advance their psychopharmacology, psychotherapy and wellness knowledge in a location near their practice. The Psych Congress 1-Day Regional Meeting offers:

- Up to 6.5 CME/CE credit hours
- High-quality CME and non-CME educational offerings presented by some of the nation's top mental health researchers and educators
- Reduced rates for early and group registration
- Networking opportunities with regional colleagues

Each Psych Congress 1-Day Regional Meeting provides practical, relevant education that clinicians can apply in practice immediately upon their return to the office. Dynamic educational sessions are aimed at sharing current and emerging treatment strategies, highlighting the latest advances in psychopharmacology, and teaching attendees how to implement measurement-based care in everyday clinical practice.

Register early and save at www.psychcongress.com/psychregionals

1-DAY Psych Congress® REGIONAL MEETINGS

Program Agenda*

7:00 a.m. – 7:15 a.m.

Registration

7:15 a.m. – 7:30 a.m.

Kickoff Speaker: Eric Arauz, MLER Effective Therapeutic Alliance: How to Utilize Trauma-Informed Therapeutic Tools (non-accredited)

Eric Arauz, MLER, is an international behavior health consumer advocate, trainer, and a person with the lived experience of bipolar I disorder, PTSD, addiction, and suicidality.

7:30 a.m. – 8:40 a.m.

Innovation Theater (non-CME)*

Breakfast will be served.

8:40 a.m. – 8:45 a.m.

Break

8:45 a.m. – 9:30 a.m.

Walk on the WILD Side: In Pursuit of Mental Wellness

Learning Objectives

- Discuss the power of wellness as an effective clinical intervention
- Examine the data supporting exercise, mindfulness, sleep, social connectedness, and nutrition as effective wellness interventions
- Review a 30-day pilot study consisting of 5 wellness elements

9:30 a.m. – 10:15 a.m.

The Emerging Role of the Immune System in Depression

Learning Objectives

- Explain how an immune-based understanding of depression provides explanations for many aspects of the disorder not addressed by other theories
- Describe pathways by which the peripheral immune system induces depressogenic changes in the central nervous system
- Describe how the immune system may provide novel treatments for major depression

10:15 a.m. – 11:00 a.m.

Addressing Adherence Challenges Across the Life Cycle of Schizophrenia

Learning Objectives

- Review practical approaches to assess adherence to antipsychotic medication, and how the assessment can inform treatment recommendations
- Utilize strategies that focus on collaborative and respectful conversations about adherence with your patients
- Develop more effective clinical approaches to using long-acting injectable (LAI) antipsychotic formulations as an alternative to oral antipsychotics by matching performance expectations for an LAI medication with specific patient profiles
- Outline the safety, efficacy, and clinical role of currently available older and newer LAI antipsychotic formulations, and considerations for selection throughout the life cycle of the illness

11:00 a.m. – 11:10 a.m.

Break

11:10 a.m. – 11:55 p.m.

Improving Outcomes in Major Depression: A Focus on Cognitive Symptoms

Learning Objectives

- Describe the prevalence and quality of life impact of cognitive symptoms in patients with major depressive disorder (MDD)
- Routinely utilize assessment tools to identify cognitive symptoms in patients with MDD
- Outline the receptor pharmacology of available MDD agents and the evidence-based impact on therapeutic decision-making
- Optimize outcomes in patients with MDD who are experiencing cognitive symptoms

11:55 p.m. – 12:00 p.m.

Break

12:00 p.m. – 1:10 p.m.

Innovation Theater (non-CME)*

Lunch will be served.

1:10 p.m. – 1:15 p.m.

Break

1:15 p.m. – 2:00 p.m.

Everything Old is New Again:
Psychedelics and 21st Century Psychiatry

Learning Objectives

- Describe the first phase of psychedelic research and why it was suspended
- Explain likely brain mechanisms by which psychedelic medications produce long-term changes in emotions and behavior
- Review recent research findings suggesting that psychedelic medications may produce long-term improvements in mood and anxiety symptoms

2:00 p.m. – 2:45 p.m.

Ensuring Early Identification
and Intervention of Alzheimer's
Disease: Guidance for Mental Health
Professionals

Learning Objectives

- Describe the pathophysiological processes of Alzheimer's disease (AD) and the implications for treatment selection and timely symptom management
- Distinguish between the multiple etiologies of dementia, cognitive impairment, and depressive symptoms that often manifest as clinical presentations of AD
- Utilize guideline criteria and validated screening tools for the early detection and diagnosis of AD and its related behavioral and psychotic symptoms
- Translate clinical data of current and emerging therapies within the AD armamentarium to the mental health management of patients with AD

2:45 p.m. – 3:30 p.m.

How to Fix the Mix: Diagnosis and
Treatment of Mixed Mood States

Learning Objectives

- Describe the ways of differentiating mixed mood states in the context of bipolar disorders vs. major depressive disorder (MDD)
- Discuss the risks involved in delaying the correct diagnosis and treatment
- Review appropriate treatment strategies for addressing mixed mood symptoms in the context of bipolar disorders and MDD

3:30 p.m. – 3:35 p.m.

Break

3:35 p.m. – 4:35 p.m.

Innovation Theater (non-CME)*

4:35 p.m. – 4:40 p.m.

Break

4:40 p.m. – 5:25 p.m.

“Facing the Stealthy Intruder” – An
Update on Generalized Anxiety Disorder

Learning Objectives

- Examine the adverse impact of generalized anxiety disorder (GAD) on the functioning and physical health of patients
- Review the art and science of GAD detection in a busy clinical practice
- Utilize screening tools for GAD in clinical practice and examine current nonpharmacologic and pharmacologic treatment options

5:25 p.m. – 5:55 p.m.

Wrap-up and Panel Discussion

*Agenda subject to change.

Accreditation Information

Intended Learners

This activity is intended for psychiatrists, primary care physicians, psychologists, nurse practitioners, physician assistants, psychiatric nurses, and other healthcare professionals who seek to improve the care of patients with mental health disorders.

Learning Objectives

- Use scales, screeners, and measurement-based care to improve efficiencies and outcomes in patients with mental disorders
- Review the neurobiological basis of mental illness and how the latest scientific findings impact clinical practice
- Integrate nonpharmacologic strategies into personalized treatment regimens for patients with mental disorders
- Assess clinical data on current and emerging psychopharmacology and incorporate these agents into treatment strategies

Accreditation

NACCME is accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

CME

NACCME designates this live activity for a maximum of 6.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

CNE

This continuing nursing education activity awards 6.5 contact hours.

Provider approved by the California Board of Registered Nursing.
Provider #13255 for 6.5 contact hours.

APA

North American Center for Continuing Medical Education, LLC (NACCME) is approved by the American Psychological Association to sponsor continuing education for psychologists. NACCME maintains responsibility for this program and its content.

Instructional level: Advanced

Requirements for Credit

To be eligible for documentation of credit, participants must attend the educational activity and complete the evaluation form. After

successful completion of the evaluation form online at www.psychcongress.com/psychregionals, participants may immediately print their documentation of credit. Physician assistants and nurse practitioners may participate in this educational activity and earn a certificate of completion as AAPA and AANP accept AMA PRA Category 1 Credits™ through their reciprocity agreements. Other health care professionals treating patients with mental health disorders should check with their state licensing and certification boards to determine if Psych Congress 1-Day Regional Meetings meet their continuing education requirements.

Contact Information

For questions regarding this educational activity, please call 609-630-6252.

ADA Statement

North American Center for Continuing Medical Education complies with the legal requirements of the Americans with Disabilities Act and the rules and regulations thereof. If any participant in this educational activity is in need of accommodations, please call 609-371-1137.

* Innovation Theaters (Non-CME)

These are promotional programs and no CE credits are offered. Food and beverage is provided by North American Center for Continuing Medical Education, LLC; an HMP Communications Holdings Company. Attendees pay for their meal as part of their conference registration fee. Your name badge will be scanned for admittance into Innovation Theater Presentations, which gives the presenting company access to your email address. To opt-out, please speak with a Psych Congress representative.

Cancellation Policy

Please note that payment for the Psych Congress 1-Day Regional Meeting series is **non-refundable**.
