MESSAGE FROM THE ORGANISING CHAIRPERSON

Welcome to Perak. It is the first time the College is holding its annual scientific congress in Ipoh, the “Land of Tin” with the largest deposits of the metal in the world and Ipoh has much to offer.

2018 is an opportune time to come to Perak because the size of our Annual Congress is such that not many venues outside the Klang valley can accommodate us. We are pleased to announce that having surveyed this Aman Jaya Convention Centre, we have found it suitable. As it is a new venue, we hope you will find the facilities and arrangements pleasant.

There is much to take note off in the ever changing world of surgery. New technology, especially the connectivity of the internet has the potential to change the way we do things. Refinements in how we plan and organize surgery for patients, such as ERAS and day care surgery, should stimulate us to relook at our practice. Sometimes, cases in the news involving doctors cause us to think not only of our science and skills but also of non-technical matters. We want our profession to progress incisively but also in a balanced way and the Organising Committee thought the age old motto of ‘first do no harm’ *Primum Non Nocere* is still the theme that befits the Congress.

For the College of Surgeons, Malaysia, our international connections have always been a much treasured asset. This year we very warmly welcome the Royal Colleges of Surgeons of Edinburgh, Glasgow and Australasia, as well as the College of Surgeons of Sri Lanka as partners for our meeting. They have helped to bring for us an outstanding faculty of surgeons who are experts in areas which are important today. The Organising Committee hopes our meeting will facilitate collaboration in all the areas we have similar interests in, training, organization and even scientific. To all our overseas guests we wish you a very warm welcome and express our sincere thanks for putting our meeting on your priority list and coming here.

We hope, besides the surgical programme and fellowship which we believe you will find interesting, that Perak will have a wonderful place in your memory in the future. Ipoh city has its charm, but surrounding it, Perak has also much to offer. Pangkor Island has rustic beauty. The caves at Gua Tempurong have ancient majesty. Taiping has Lake Gardens and hills that are supremely serene. Kuala Kangsar has a river and palace that are magical. They are all within reach of a short journey of Ipoh and we hope that not only our overseas friends, but our local delegates will not forget the beautiful places in Perak. We are too busy inside hospital buildings too often. I hope this weekend and the days before and after offer everyone at the Congress a chance to experience not only something new and profound, for you, in surgery but also about Perak.

Our President, has family roots, time in school and working life here in Perak and if he is not too busy I think he would love to tell you about Perak. Same goes for me.

Lim Kean Ghee

ETHICON PRIZE 2018

The Ethicon Prize is an award for the best original scientific or clinical paper submitted by young surgeons in Malaysia for presentation at the Annual Scientific Meeting of the College of Surgeons, Academy of Medicine of Malaysia. This award, started in 1989, will hopefully encourage a high standard of research and scientific presentations among young surgeons.

The Prize

Cash of RM2,000 donated by Ethicon.

Regulations

1. The competition is open to all young surgeons and surgical trainees currently working in Malaysian hospitals who are below 35 years old as on 1st February 2018.
2. The work submitted may be from any surgical specialty, and it may take the form of clinical trials, surveys, retrospective studies, laboratory experiments or any other form of unpublished original work.
3. The bulk of the work which are submitted must be performed by the author himself/herself even though he may have done the work in conjunction with other doctors or agencies either locally or overseas. However, the work must be carried out in Malaysia.
4. The author himself / herself should present the paper at the Annual Scientific Meeting of the College in April 2018 if the paper is selected for the finals.
5. The author must submit a signed declaration of his/her age, that his/her paper has not been published or presented elsewhere and the presenter has done most of the work.

Procedure

Completed papers are to be submitted online via the conference website at **www.csamm.asm.org.my** by **10th April 2018**. Full guidelines for the submission are available on the website.

Privileges

Authors whose papers are shortlisted for presentation shall be accorded the following privileges:

1. Complimentary registration
2. Hotel accommodation for the duration of the conference (for those outside Ipoh)
3. Travel expenses (for those outside Ipoh)

ABSTRACT SUBMISSION GUIDELINES

The Scientific Committee welcomes the submission of free communications.

This could be in the form of Oral or Poster Presentations.

The deadline for submission of abstracts is **10th April 2018**. Late submission will not be considered. Only abstracts from participants who have registered and paid their registration fees will be considered.

Abstracts submission is to be done online at the conference website. For full submission instructions as well as guidelines, please log-on to **www.csamm.asm.org.my**

SCIENTIFIC E-POSTERS

You are kindly invited to submit scientific contributions to be presented during the meeting. As an alternative to the traditional printed paper poster, the CSAMM is pleased to introduce e-posters to the Annual Scientific Meeting 2018. E-posters will replace the printed posters and we are sure that you will share our enthusiasm for this innovative approach to poster presentation. As you will have uploaded your poster in advance there is no need to print and carry a poster to the meeting. This will save you the time and costs associated with printing and reduce the carbon footprint of the meeting. There will be monitors at the conference where all posters can be viewed.

Abstracts may only be submitted using the electronic abstract submission system and must meet the following criteria:

- The abstract must not exceed 300 words
- Abstracts must be written in English, explained abbreviations may be used
- Graphs and Tables are not allowed

All Abstracts must follow the required structure:

- Introduction
- Objectives
- Materials and methods
- Results
- Discussion
- Conclusions

Successful entrants will be emailed instructions on how to upload their e-posters for presentation after 10th April 2018. Your e-poster should be produced using the PowerPoint Poster template which will be provided. The content of the presentation should be of a single slide. E-Posters of different dimensions may be skewed/stretched/truncated when displayed on the monitors at the Annual Scientific Congress unless they conform to the template.

A maximum of ten E-posters adjudged to be of sufficient merit will be eligible for the top three prizes.

First prize: RM 1,000.00

Second prize: RM 750.00

Third prize: RM 500.00

In the event that none of the submissions achieves sufficient academic merit, no prizes will be awarded.
