Event Overview:

The dynamic healthcare landscape in the GCC region has increased the participation of pharmacists in providing quality care to patients significantly and created new roles for them throughout the healthcare facilities. Hence pharmacists have to develop on both levels scientifically and professionally.

The 5th Annual GCC Pharmacy Congress is the ideal platform to familiarize the attendees with the latest technologies used to improve healthcare outcomes, highlight key solutions to the challenges facing the profession in our region. The congress is designed to provide pharmacists with up-to-date policies and advances in their field and help them to develop their clinical and leadership skills that are essential for a modern-day pharmacist.

Whether you are a hospital pharmacist or a community pharmacist, the GCC Pharmacy Congress is the ideal platform for you as we have developed two completely separate streams one for hospital pharmacists and another for the community to help serve the pharmacists in our region. We are confident that you all will enjoy this year's dedicated streams and leave the conference with deepening knowledge that you will be able to apply in your practice.

VALUABLE FEEDBACK / TESTIMONIALS

“

It's a good opportunity for all of us in the GCC region to discuss current issues in pharmacy practice, meet our colleagues in different countries, share experiences and discuss challenges in our practice.

Dr. Ahmed Al Jedai, A Deputy Minister for Medical support Services, Deputyship of Therapeutic Affairs, Ministry of Health, Riyadh, KSA.

”

“

I had a good experience and I've been a member of the scientific committee for the last three years. I can see how much they are dedicated to the pharmacy profession and how they are really keen to address all aspects and introduce the challenges. I like the idea of the diversity of the speakers we have as well as the topics and you can see the proof of the success of this congress in terms of the number of the attendees which is growing year after year

Dr. Lana Hammad, Pharmacy Director, Sheikh Khalifa General Hospital, UAE

”

“

The first and foremost significance of this conference is the network.

You tend to meet people, peers and colleagues in the same sector and industry from across the region and you get to know the challenges and solutions that they have come up with for certain issues that you might be facing. Another thing is the fact that you get to know the trends that the people are really interested with and they are looking at so you would know at least that you are in par with the others or if you are delayed in some areas and that you need to push on and move forward so it's always refreshing to attend such conferences, exchange experiences, ideas and understand different perspectives.

Bader Alzaid Altraiji, Chief Executive Officer, YIACO Medical, Kuwait

”

“

A great venue to bring together all local stakeholders to discuss and advance the pharmacy profession in the region.

Dr. Wafa Y. Dahdal, Director of International Programmes & Associate Director of Professional Development, American College of Clinical Pharmacy, USA

”

“

I think the success of this conference is coming from gathering all the experts in the GCC area and international speakers and allowing them to share their experiences and challenges, their achievement and success stories among all the institutions in the region. Also, it provides a dynamic interaction with the panelists, experts and the audience. It focusses on the hospital and the community pharmacy practices as well as the technologies, the hot and important topics in our region

Fatima Al Braiki, Group Pharmaceutical Director, SEHA Corporate, UAE

”

“

The GCC Pharmacy Congress is a very important platform for pharmacists coming from all over the GCC to connect together, to share experiences to discuss about the challenges facing their profession. Pharmacy supply chain is one of the major things that needs to be discussed furthermore, especially with the level of interaction and interest that people are showing.

Belal Zuaier, Category Manager, Pharmaceuticals and Supply Chain, Cleveland Clinic Abu Dhabi, UAE
