Monday Workshop

- 10:00 - 2:00 **Casting Workshop: "Techniques of Fiberglass Casting, a Hands-on Experience"**
3M Casting and Splinting Workshop
This course will involve demonstration and intensive lab experiences to the basics of splinting and casting. For splinting, we will review the overall indications for splint use and specifics of application of splints for the wrist, thumb, upper extremity, and lower leg. Casting will also be provided in an overview and attendees will receive hands on instruction in the short arm cast, thumb spica, and short leg casts. Attendees will also be introduced to the use of soft cast for sports injuries.
