EMEL SYMPOSIUM ON ENDOMETRIOSIS

WELCOME LETTER

Dear friends, dear colleagues,

Welcome to the inaugural Symposium of the Emirates Endometriosis League (EMEL) on Endometriosis to be held on 23-24 April 2015.

Endometriosis is a debilitating, chronic disease that can disrupt a patient's personal, as well family life.

As a young organization of experienced gynecologists dedicated to the care of patients with this profound disease, we are honored to present regional and internationally renowned speakers to join our local faculty in presenting a multitude of topics during these two days.

We would like to invite both colleagues and patients to this forum to discuss the presented topics and to help us all better understand, treat, and deal with this mysterious, under-diagnosed medical dilemma.

Welcome to Dubai, Welcome to the EMEL symposium 2015!

Ghassan Lotfi, M.D.

President of EMEL Board

CONFERENCE TOPICS

- Endometriosis in the UAE- EMEL, Aims and prospects
- What are the surgical options for treatment of pelvic endometriosis?
- Ultrasound in diagnosing DIE
- Ovarian endometriosis- to treat or not to treat?
- Medical management of endometriosis
