A MESSAGE FROM THE PROGRAM CHAIR

On behalf of the American College of Legal Medicine's President-Elect, Tom McLean, MD, JD, FCLM, and the Board of Governors, I invite you to enjoy our 55th Annual Conference. The excellent faculty of speakers will be addressing many contemporary and controversial issues in health law and health policy. The program also includes a number of sessions designed to provide physicians, dentists and attorneys with tools and information that will immediately impact their everyday practice. These sessions include: the traditional update of judicial and legislative actions, technology and legal medicine, medical malpractice, international health law session, and a special Moot Court Styled Debate on the virtues of Physician Peer Review.

Again This Year: There is a special medical ethics session. This session is designed for physicians who are required to receive two hours of medical ethics CME credits to renew their license.

This year the Stewart Reuter lecture will be given by Henry Butler, JD, Ph.D., George Mason University Foundation Professor of Law and Executive Director, Law & Economics Center "Intent and Consequences: What to Make of So-Called "Unintended Consequences" in Health Care Law and Policy". The S. Sandy Sanbar Lecture will be presented by David Ozar, Professor; Department of Philosophy, Loyola University Chicago; Clinical Ethics Consultant, NorthShore University HealthSystem "The Unbefriended: A New Protected Class of patients?"

In addition to these fine presentations, the 55th Annual Meeting will contain several traditional sessions including: the Cyril Wecht Luncheon, the Women's Leadership Breakfast, the Awards Banquet and the poster presentation session. Perhaps most importantly, the College will again host two receptions on Friday and Saturday evening which will provide valuable networking opportunities. Finally, Bruce H. Seidberg, DDS, MScD, JD, FCLM, will host an expanded two-day dental program, which will run concurrently with the main program.

Whether you are a first time attendee, a physician in need of medical ethics CME, or a long-time Fellow or member of the College, we invite you to the 55th Annual Meeting of the American College of Legal Medicine.

LAS VEGAS ATTRACTIONS

www.lasvegas.com/activities/attractions

From zip lines and car racing to the Bellagio's world-famous fountains and the Mandalay Bay Beach, experiencing all of Las Vegas' attractions is like riding a roller coaster, which you can do because we have those, too.

In addition to the casinos and shows, there are zoos, theaters, aquariums and galleries. And even those are ever changing.

No two Las Vegas attractions are alike. The Mob Museum offers a glimpse into Vegas' illustrious and notorious past, while the Dolphin Habitat at The Mirage offers a glimpse into the undersea world far away from our desert landscape. And that's not even the most unexpected attraction in Las Vegas. Live the life of a race-car driver or fighter-jet pilot. Imagine yourself a pro golfer. Or paddle up to the Hoover Dam in a kayak.

The attractions in Vegas prove that you don't know nearly as much as you think you do about what there is to do here. Even locals are regularly amazed at all the new things to see and do in Las Vegas.

2015 ACLM 55TH ANNUAL MEETING

EDUCATIONAL NEEDS & OBJECTIVES

Educational Needs

Physicians, dentists, attorneys and educators who practice in the healthcare industry and its related fields recognize that the practice of medicine is complicated by abundant legislative requirements, administrative rules and regulations and Federal/State court decisions interpreting those laws. It is difficult to maintain a working knowledge of these developments. This meeting will provide details of new legislation, rules and court decisions, societal changes and shifts in the market place that will impact the practice of medicine. Key changes impacting the practice of medicine during the past one to two years include: the impact of technology including Electronic Medical Records (EMRs); accountable care organizations and their evolution; state imposed ethics requirements as part of the continuing education process; physicians seeking non-traditional employment; medical malpractice; the outsourcing of healthcare services; and social networking's impact on the practice of medicine.

Objectives

The 55th Annual Conference of the American College of Legal Medicine will focus on a diverse range of current legal medicine topics.

By the conclusion of this meeting, participants should be able to:

1. Describe recent legislative and court opinions affecting medical and dental practice.
2. Integrate medical and legal ethics into their daily practice.
3. Translate the impact of globalization on public health policy.
4. Integrate new regulatory changes into current practice.
5. Describe dental and legal issues involved in today's health care.
6. Explain the practice of legal medicine and healthcare initiatives on a global or international perspective
7. Outline the action steps required to comply with the HIPAA "final rule" compliance changes, which became effective September 23, 2013.
8. Understand the impact of technological approaches in the synthesis of designer drugs, and creative prosecution of the non-scheduled, illicit, analog drug
9. Explain the legal and regulatory aspects of vaccine development and deployment
10. Assess realistic future possibilities regarding the fate of the ACA
