Electronic Prescribing In Hospitals: Moving Forward

10% Card payments discount*
15% Group booking discount**

Wednesday 22 April 2015 ICO Conference Centre London

"Expanding the use of electronic prescribing by doctors and nurses in hospitals will help the NHS saves lives and save money."

Professor Sir Bruce Keogh, Medical Director of NHS England

"Studies show electronic prescribing can cut prescription errors – which can be present in as many as 8% of hospital prescriptions – by up to 50%" NHS England

"NHS Trust Boards are reminded that the impetus for renewed focus on the benefits of ePrescribing is to improve quality of care, reduce opportunity for error and enable communication of essential information across systems" Safer hospitals, safer wards: Achieving and integrated digital care record, NHS England

"Today I want to argue that we need to go much further, much faster. So today I am setting a new ambition for the NHS. I want it to become paperless by 2018. The most modern digital health service in the world. Patients will be at the heart of this change" Jeremy Hunt, Health Secretary

With a keynote address from **Ann Slee**, ePrescribing Lead at NHS England, this conference looks at moving forward with Electronic Prescribing and Medicines Administration (EPMA) in a hospital setting. Electronic Prescribing has the potential to support the medicines use process that can be delivered at every stage from prescribing to administration, it can provide management of prescriptions and will also give immediate access to medicines information.

Sessions will provide delegates with the understanding of how to implement and move forward with Electronic Prescribing in practice. Through learning from experienced implementers and case studies the conference will look at critical success factors in going live with eprescribing, and will particularly focus on moving forward with your eprescribing system into more complex areas with case studies in oncology, mental health, intensive and critical care and paediatrics. There will be case studies on Electronic Prescribing which will highlight the clinical benefits and engaging the clinical staff and the impact of eprescribing on prescribing and medication errors. The final session will discuss maintenance of existing prescribing systems and developing new functionality including transitioning between systems.

Follow the conference on twitter using #EPrescribing

10.00 Chairman's Introduction

Sean Brennan

Independent Consultant in Healthcare Informatics
Clinical Matrix

10.10 Delivering a Paperless NHS

Ann Slee

EPrescribing Lead
NHS England

- implementation locally: delivering and moving forward with eprescribing
- where Electronic Prescribing fits into Electronic Patient Records
- moving forward: critical success factors

10.40 Electronic Prescribing: learning from a decade of experience

Dr Jonathan Sheldon

Consultant Physician and Clinical Lead
Burton Hospitals NHS Foundation Trust

- embedding an electronic prescribing system to drive changes in clinical practice
- delivering an effective electronic prescribing and medicines administration system
- engaging clinicians in electronic prescribing and medicines administration
- our approach, experience and developments
- lessons and learning from a decade of electronic prescribing

11.25 Question and answers, followed by coffee and exhibition

12.00 Going Live and Beyond: Critical Success Factors in ePrescribing

Emma Goble

Principal Pharmacist
Kings College Hospital
ePrescribing has been rolled out across all the hospitals adult wards

- our experience of electronic prescribing in Kings as part of developing a paperless hospital: learning from going live on almost 100% of adult wards
- going live on the more difficult areas of a hospital
- EPMA, self medication and extended prescribing including independent non medical prescribing, supplementary prescribing and patient group directions
- what will your critical success factors and obstacles be in your organization?
- are there areas that should be avoided?

12.30 Reducing prescribing and medication errors

Jonathan Snape

Pharmacy Team Leader ePMA & Clinical Informatics
University Hospitals of North Midlands NHS Trust

- the impact of electronic prescribing on medication errors
- improving accuracy in prescribing, dispensing and drug administration decisions
- providing a clear audit trail for each individual healthcare professional and each individual drug
- the role of eprescribing identifying missed or delayed doses
- delivering clinically accurate information to support prescribing decisions

13.00 Question and answers, followed by lunch and exhibition

14.00 Electronic Prescribing in Complex Areas: Mental Health

Dr Trevor Broughton

Consultant Forensic Psychiatrist
Norfolk and Suffolk NHS Foundation Trust

- electronic prescribing in mental health
- our experience

14.30 Electronic Prescribing in Complex Areas: Intensive and Critical Care

Andreas Fischer

Clinical Systems Architect & Specialist Pharmacist, Critical Care
Royal Brompton & Harefield NHS Foundation Trust

- electronic prescribing in end of life and cancer care
- incorporating decision support and safety alerts
- developments in the Thames Valley Cancer Network

15.00 Electronic Prescribing in high risk areas Case study: Oncology and End of Life Care Electronic Prescribing

Andrea Barkwith

E-Prescribing Pharmacist
Thames Valley Cancer Network

- electronic prescribing in end of life and cancer care
- incorporating decision support and safety alerts
- developments in the Thames Valley Cancer Network

15.30 Question and answers, followed by tea

16.00 E Prescribing: maintenance and managing new functions: Learning from 20 years of implementation

Brian Power

Lead Informatics Pharmacist
Wirral University Teaching Hospitals NHS Foundation Trust
Wirral University Teaching Hospital NHS Foundation Trust have over 20 years of experience of electronic prescribing

- what have we learnt in 20 years of electronic prescribing
- critical success factors and how we would do things differently
- maintenance of your electronic prescribing system
- managing new functions and enhancements

16.30 Electronic Prescribing in high risk areas Case study: Paediatric Electronic Prescribing

Dr Stephen Marks

Consultant Paediatric Nephrologist
Great Ormond Street Hospital for Children NHS Foundation Trust

- electronic prescribing and medication errors in paediatrics
- issues specific to paediatrics
- our experience

17.00 Questions and Answers, chairman's closing remarks followed by Close
