Annual Western North Carolina Death Investigation Conference 2015

March 21, 2015, 8 am–4:30 pm

Bridger Field House at BB&T Football Field
Winston-Salem, N.C.

Target Audience

This activity is designed for nurses, nurse practitioners, physicians/pathologist assistants, paramedics, law enforcement, attorneys, forensic scientists, students in criminal justice programs, emergency medical technicians, laboratory/medical technicians and all others interested in updating their knowledge of forensic pathology.

Objective

Upon completion of this activity, participants should be better able to:

- Differentiate between common postmortem/therapeutic findings and antemortem injuries.
- Become more skilled at assessing a death scene.
- Collect the needed information that the forensic toxicologist/pathologist will need to interpret postmortem toxicology findings.
- Recognize the possibility of various causes and manners of death that can occur for water-related fatalities.
- Formulate a protocol in the investigation of perinatal deaths and animal-related fatalities.

Handouts

Handouts will be available online by the end of the day on March 17, 2015. Visit northwestahec.org and sign into "My CE Profile." Click on the course for a list of the handouts.
