WELCOME

I would like to invite you to the beautiful Camelback Resort in Scottsdale, Arizona, for the Society of Urodynamics, Female Pelvic Medicine and Urogenital Reconstruction (SUFU) 2015 Winter Meeting. This marks a homecoming of sorts for SUFU, as Scottsdale was the site of our first Winter Meeting in 2004.

Our meeting has transformed over the years, with enhanced interactions between basic and clinical scientists, clinicians, industry partners and trainees. The first day-and-a-half of the meeting is devoted to basic science plenary sessions, carefully planned and coordinated by my co-chairs Lori Birdier, PhD and Adam Klausner, MD. The topics are provocative and timely, including discussions of the impact of aging on brain and bladder function, as well as new concepts in the pathophysiology underlying bladder pain.

The remainder of the meeting will include plenary lectures, lively debates, state-of-the-art discussions and dynamic case presentations by experts in the field. We continue to have smaller breakout sessions each day to encourage more face-to-face discussions with renowned thought leaders. Additionally, as our trainees are indeed our future, we have several new sessions designed specifically for them, including introduction to statistics, developing an academic career and grant writing. In addition, this meeting marks another important event for SUFU, as we initiate our formal association with the Mediterranean Incontinence and Pelvic Floor Society (MIPS) with an inaugural lecture. We look forward to many more years of interaction with MIPS.

We continue to promote the clinical research of our members, and as such, poster and podium sessions remain a huge focus of the meeting. We encourage members to actively engage the authors during these sessions as a means of stimulating discussion and generating new ideas. We will highlight several of our award-winning researchers and grant recipients during the meeting as well, as we hope to encourage the next generation of thought leaders. I owe a special thanks to David Ginsberg, MD, co-chair of the clinical meeting, for overseeing the abstract selection process and Steve Siegel, MD, for developing the neuromodulation content of the meeting.

Evening social events remain a cornerstone of our meeting, including the SUFU Welcome Reception on Wednesday, February 25th and a Cocktail Hour and Awards Presentation on Friday, February 27th. We encourage you to interact with your colleagues, industry partners and friends from across the country and world during these events. Additionally, there will be other opportunities to interact with our industry members at sponsored lunch symposiums and throughout the meeting in the exhibit hall. We certainly encourage you to visit with our industry partners, as their ongoing support continues to allow SUFU to grow, and the SUFU meeting to flourish.

On behalf of all of my co-chairs, I look forward to seeing you in Scottsdale.

Best Regards,

Gary E. Lemack, MD
SUFU Vice President and Winter Program Chair

GENERAL SESSION

7:55 a.m. – 8:00 a.m. **Introduction**
Gary E. Lemack, MD
Program Chair

8:00 a.m. – 8:45 a.m. **Panel: Urinary Tract Infection Update 2015**
Moderator: Karyn S. Eilber, MD

Panelists: **Pathophysiology of Recurrent UTI's – Why Patients with 'Normal' Urinary Tracts Get Bladder Infections**
Duane Hickling, MD

Evaluation and Treatment of Recurrent UTI's in Women: Who Needs Treatment and How Should We Be Treating?
Kimberly L. Cooper, MD

Evaluation and Treatment of UTI's and Prostatitis in Men
Michel A. Pontari, MD

8:45 a.m. – 9:15 a.m. **Radiological Evaluation of SUI and POP – Is It Necessary?**
Moderator: Alan J. Wein, MD, FACS, PhD (Hon)

Panelists: **Vital to Optimal Diagnosis and Management**
Christian O. Twiss, MD

Unnecessary and Costly
Howard B. Goldman, MD, FACS

9:15 a.m. – 9:30 a.m. **Update on Injectables for Stress Urinary Incontinence**
Roger R. Dmochowski, MD, MMHC

9:30 a.m. – 10:00 a.m. Break – Visit the Exhibits

10:00 a.m. – 10:15 a.m. **Mechanism of Action and Differences Between Sacral, Pudendal and Tibial Nerve Stimulation**
Ken Gustafson, PhD

10:15 a.m. – 11:00 a.m. Management of Refractory Refractory Overactive Bladder: What To Do When Third Line Therapies Fail

Lead Revision

Steven W. Siegel, MD

Pudendal

Kenneth M. Peters, MD

OnabotulinumtoxinA

Sandip P. Vasavada, MD

Augmentation/Diversion

Stephen R. Kraus, MD

11:00 a.m. – 11:30 a.m. Panel: Controversies in Pelvic Floor Physical Therapy

Moderator: Christopher K. Payne, MD

Panelists: **Uptraining: Indications, Techniques and Outcomes**
Kelly Scott, MD

Downtraining: Indications, Techniques and Outcomes
Colleen M. Fitzgerald, MD

11:30 a.m. – 1:00 p.m. Industry Sponsored Lunch Symposium

Location: Salons J & K and Cholla

CONCURRENT POSTER/PODIUM SESSIONS

1:00 p.m. – 2:20 p.m. IC/Pelvic Pain/Geriatrics/BPH Podium Session

Location: Salons C, D, E and G & I

Moderators: Tomas L. Griebeling, MD
Raymond R. Rackley, MD

LUTS/Voiding Dysfunction/Neurogenic Bladder Moderated Poster Session

Location: Salons A & B

Moderators: Michelle E. Koski, MD
Larry T. Sirls, II, MD

LUTS/Voiding Dysfunction/Neurogenic Bladder Non-Moderated Poster Session

Location: Salons A & B

REGISTRATION INFORMATION

Registration Fee Includes:

- One ticket to Welcome Reception
- One ticket to Awards Reception
- Entry to scientific sessions
- Program materials

SUFU has a green initiative, so instead of cutting down trees to make paper program books, we are cutting down on the use of paper and going electronic, which also cuts costs for the society as a whole. A link to the electronic version of the program book will be available on the website one week before the meeting.

Spouse/Guest Registration Fee Includes:

- One ticket to Welcome Reception
- One ticket to Awards Reception

If your Spouse/Guest would like to receive CME credit for attending the meeting, you must register that person **separately at the appropriate category.*

Early Registration Deadline

Meeting registration forms must be received by the SUFU Executive Office by **1/27/2015** to receive the discounted early registration rate. All forms received after this deadline will be assessed the regular registration fee.

Registration Cancellation & Refund Policy

Registration refund requests must be submitted in writing to the SUFU Executive Office by **1/27/2015**. All refund requests will be subject to a \$100 processing fee. No refunds will be made after **1/27/2015**.

EDUCATIONAL NEEDS & OBJECTIVES AND ACCREDITATION

NEEDS

The basic science topics of advances in age-related changes in brain and bladder function, modeling and phenotyping of the bladder in health and disease, electroceutics, MRI computational modeling, physiology of bladder pain and understanding of the bladder/urothelial microbiome. Attendees of the SUFU program need to be aware of the latest updates and controversies in these areas.

The clinical science topics of urinary tract infection, imaging in pelvic organ prolapse, urodynamics, pelvic floor dysfunction, urinary incontinence, vaginal surgical techniques, vaginal prolapse, fecal incontinence/constipation, neuromodulation and neurogenic bladder voiding dysfunction are rapidly developing areas. In addition, attendees of the SUFU program need to be aware of the latest updates and controversies in these areas.

This meeting will facilitate interactions between clinicians, investigators and basic scientists regarding these topics. Attendees will benefit from the ongoing review of these topics, which will assist them in assessing and providing the optimal patient care.

OBJECTIVES

At the conclusion of the SUFU 2015 Winter Meeting, participants should be able to:

1. Describe the complexities of age-related changes in brain and bladder function.
2. Describe the controversies in bladder modeling in health and disease.
3. Identify the role of electroceutics in the management of bladder dysfunction.
4. Describe the role of MRI computational modeling in pelvic organ prolapse diagnosis.
5. Explain the physiological principles underlying bladder pain.
6. Describe the role of bladder/urothelial biome in health and disease.
7. Review the pathophysiological explanations for recurrent urinary tract infections and current diagnostic and management strategies.
8. Identify the potential role of radiological imaging in pelvic organ prolapse diagnosis and treatment planning.
9. Describe current and potential future options for injectable therapy for the treatment of stress urinary incontinence.
10. Describe the potential treatments for patients with severe overactive bladder syndromes who have not responded to conventional modalities.
11. Explain the role of up-training and down-training of the pelvic floor for patients with various lower urinary tract and pelvic floor disorders.
12. Recognize the different indications for varying surgical approaches in the treatment of anterior vaginal wall prolapse.
13. Describe the concept of frailty in the elderly, and how it may impact your surgical planning and counseling.
14. Identify the role of urodynamics in the evaluation of patients with lower urinary tract symptoms, as well as better interpret urodynamic studies.
15. Describe the pathophysiology of neurogenic bladder conditions, as well as optimal treatment strategies for patients with various neurogenic bladder disorders.

16. Describe the ways in which we can critically evaluate our outcomes in the treatment of patients with pelvic floor disorders.
17. Describe surgical management strategies for patients with neurogenic disorders suffering from severely compromised bladder outlets.
18. Evaluate current surgical options for treatment of benign prostatic hyperplasia.
19. Explain the definition of bladder outlet obstruction in the male and female patient and understand the differences on obstruction between the two genders.
20. Describe current surgical options for reconstructing the upper urinary tract.
21. Review current diagnostic and treatment algorithms for fecal incontinence and constipation.
22. Describe benign gynecological conditions of the vagina and vulva, as well as explain current use of topical estrogen therapy.
23. Explain the controversy regarding the current role of vaginal rejuvenation.
24. Explain the medicolegal controversy regarding vaginal mesh implantation.
25. Describe the histological fate of implanted surgical mesh.
26. List treatment options for managing complex forms of stress urinary incontinence in women.

Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the University of Oklahoma College of Medicine and the Society of Urodynamics, Female Pelvic Medicine and Urogenital Reconstruction (SUFU). The University of Oklahoma College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Acknowledgement of Commercial Support and in-kind support and exhibitors

Commercial support is financial, or in-kind, contributions given by a commercial interest, which is used to pay all or part of the costs of a CME activity. A **commercial interest** is any entity producing, marketing, re-selling or distributing health care goods or services consumed by, or used on, patients.

Appropriate acknowledgement will be given to all supporters at the time of the educational activity.

Policy on Faculty and Presenters Disclosure

It is the policy of the University of Oklahoma College of Medicine that the faculty, presenters and joint providers disclose real or apparent conflicts of interest relating to the topics of this educational activity, and also disclose discussions of unlabeled/unapproved uses of drugs or devices during their presentation(s).

Disclaimer Statement

Statements, opinions and results of studies contained in the program are those of the presenters/authors and do not reflect the policy or position of the Board of Regents of the University of Oklahoma ("OU") nor does OU provide any warranty as to their accuracy or reliability.

Every reasonable effort has been made to faithfully reproduce the presentations and material as submitted. However, no responsibility is assumed by OU for any claims, injury and/or damage to persons or property from any cause, including negligence or otherwise, or from any use or operation of any methods, products, instruments or ideas contained in the material herein.

Faculty Disclosure Report

The University of Oklahoma College of Medicine and the Irwin H. Brown Office of Continuing Professional Development must ensure balance, independence, objectivity and scientific rigor in all its activities. We have implemented a process where everyone who is in a position to control the content of an education activity has disclosed to us all relevant financial relationships with any commercial interest. In addition, should it be determined that a conflict of interest exists as a result of a financial relationship one may have, this will be resolved prior to the activity. This policy is designed to provide the target audience with an opportunity to review any affiliations between the CME organizers/presenters and supporting organizations for the purpose of determining the potential presence of bias or influence over educational content. A complete disclosure report is provided to all attendees in a packet provided at registration.

General Disclaimer

The statements and opinions contained in this program are solely those of the individual authors and contributors and not of SUFU. The appearance of the advertisements is not a warranty, endorsement or approval of the products or services advertised or of their effectiveness, quality or safety. The content of this publication may contain discussion of off-label uses of some of the agents mentioned. Please consult the prescribing information for full disclosure of approved uses. SUFU disclaims responsibility for any injury to persons or property resulting from any ideas or products referred to in the abstracts or advertisements.

Special Assistance

We encourage participation by all individuals. If you have a disability, advance notification of any special needs will help us better serve you. Call (847) 517-7225 if you require special assistance to fully participate in the meeting.
