Course Information

New in 2015 ... Orthopaedic Foot & Ankle Surgery: The Essentials

This NEW program is designed to be a concentrated refresher course to discuss clinical evaluation and decision making for the most frequently seen foot and ankle problems, including Achilles tendon disorders, posterior tibialis tendon dysfunction, sports injuries, arthritis, forefoot reconstruction, neurologic disorders, and trauma. Utilizing didactic lectures followed by case-based discussion, program faculty will address the diagnosis, treatment options and current best practices for each topic area.

COURSE HIGHLIGHTS

- Clinical evaluation, non-operative treatment and surgical strategies for the most common foot and ankle problems
- Current best practices and controversies outlined with case discussions
- Focused time with faculty at themed lunch tables and in the evenings during breakout sessions
- Coding, practice management, and technology tips to improve your foot and ankle practice

OPTIONAL COURSE ADD-ONS

To maximize your time away, take advantage of add-on programs with faculty in a small group setting, including:

- **Fireside Chat** with program faculty Thursday evening to get acquainted and discuss how to grow your practice, ancillary income, career pathways, and how to become more involved with the AOFAS
- **Foot & Ankle Boot Camp** with concurrent sessions on CPT® Coding and Practice Management & Technology offered on Thursday and Friday evenings
- **Oral Board Prep** on Saturday afternoon, allowing candidates for ABOS Part II to practice foot and ankle case presentations to faculty

WHO SHOULD ATTEND

This program is ideal for general orthopaedists wishing to expand their practice, surgeons preparing for Maintenance of Certification (MOC), newly trained foot and ankle orthopaedic surgeons beginning practice, and fellows or residents seeking to supplement their training.

Course Information

COURSE OBJECTIVES

At the conclusion of this course, learners should be able to:

- Evaluate patients with common foot and ankle conditions and determine the appropriate treatment plan
- Compare and contrast surgical and non-operative treatment protocols for foot and ankle problems
- Discuss how to avoid potential complications
- Determine and apply strategies to improve patient outcomes
- Accurately code for common foot and ankle procedures

STATEMENT OF NEED

A need for this educational activity has been determined based on previous course evaluations and the AOFAS educational curriculum. The content of this course was based on current issues and topics provided by AOFAS membership and leadership. For more information on the AOFAS CME mission, visit www.aofas.org.

ACCREDITATION

The American Orthopaedic Foot & Ankle Society (AOFAS) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education (CME) for physicians.

AMA PRA CREDIT

The American Orthopaedic Foot & Ankle Society (AOFAS) designates this live activity for a maximum of 15.75 **AMA PRA Category 1 credits™**. Physicians should only claim credit commensurate with the extent of their participation in the activity. Course participants are required to submit a completed evaluation form at the end of the course in order to receive CME credit.

DISCLOSURE

The AOFAS requires all instructors, planners and other individuals in a position to control or influence the content of an educational activity to disclose all relevant financial relationships or affiliations during the past 12 months with any commercial interest (any entity producing, marketing, re-selling, or distributing health care goods and services consumed by, or used on patients). All identified conflicts of interest must be resolved and the education content vetted by the AOFAS for fair balance, scientific objectivity and appropriateness. The AOFAS also requires faculty to disclose when off-label / unapproved uses of a product are discussed in a CME activity. The AOFAS attests that the persons responsible for the development of this educational activity did so independently and were not influenced by commercial supporters. All financial disclosures will be provided to meeting attendees in the final program materials.

DISCLAIMER

The methods, techniques and procedures demonstrated and views and opinions expressed by speakers, presenters and faculty during this continuing medical education program are their own, and do not represent those of the AOFAS nor does presentation on the program represent or constitute endorsement or promotion by the AOFAS. The AOFAS expressly disclaims any warranties or guarantees, expressed or implied, and shall not be liable for damages of any kind in connection with the material, methods, information, techniques, opinions, or procedures expressed, presented or demonstrated.
