

Fourth Annual Head and Neck Cancer Symposium

Reconstruction and Restoration for Quality of Life

Saturday, April 11, 2015 ■ 7:15 a.m.-1:30 p.m.

Baptist Hospital, Auditorium, 8900 North Kendall Drive, Miami, Florida 33176

Joseph P. McCain, DMD
Symposium Director

Planning Group: Andre Abitbol, M.D., Michael Troner, M.D.
George Weiss, MHA, R.T. (N), Mercy Mena-Allauca, MHA, CTR, RHIT

TARGET AUDIENCE: Primary Care Physicians, Dentists, Otolaryngologists, Gastroenterologists, Radiologists, Medical Oncologists, Oral Maxillofacial Surgeons, Surgeons, Pathologists, Pediatricians, Hospitalists, Nurses, Radiation Technologists, Nutritionists, Social Workers, Speech Pathologists, Emergency Department Physicians, Family Physicians, General Internists, Respiratory Therapists, Registered Dietitians and other interested healthcare practitioners.

SYMPOSIUM OVERVIEW: This year's symposium will focus on the reconstruction of head and neck cancer defects as a result of surgery. As survival rates continue to improve, an increased emphasis is placed on the restoration of quality of life: jaw function, eating, swallowing, speech and self-esteem. A renowned panel of experts will present the use of 3-D computer-based treatment planning, radiation and chemotherapy, ablative surgery, microvascular free tissue transfer, dental implants and maxillofacial prostheses to accomplish these goals. We encourage you to attend and actively participate. The goal is to enhance your abilities to contribute to the care of patients in our community.
