

Dates to Remember

Abstract Submission Deadline:
19 December 2014

Early Bird Registration Deadline:
9 March 2015

Submit your abstract

Deadline for receipt of abstracts: **19 December 2014**

Don't miss your chance to submit your latest research to the premier European Meeting in the bone field. Find out about how to plan and prepare your abstract and the grants and prizes available on the ECTS-IBMS 2015 website.

Submit your work online at www.ects-ibms2015.org

Late breaking abstracts will be accepted for the Meeting.
Please visit the website for more information.

Abstract Awards

There are a number of Meeting specific awards that you may be eligible for by submitting an abstract:

- ECTS-IBMS New Investigator Awards
- ECTS-IBMS Travel Awards
- ECTS-IBMS Allied Health Awards

For more details including the application criteria for these awards, please visit www.ects-ibms2015.org/awardsabstracts.aspx

Registration Fees

	Until 9 March	From 10 March	From 24 April and onsite
ECTS & IBMS members	€540	€675	€810
Non-members	€750	€880	€980
Trainees/Allied Health Professionals - members	€270	€325	€380
Trainees/Allied Health Professionals - non-members	€325	€380	€435

CME

ECTS-IBMS 2015 will seek accreditation by the European Accreditation Council for Continuing Medical Education (EACCME) to provide up to 27 hours of European external CME credits for medical specialists.

Chair:
Bente Langdahl
(Aarhus, Denmark)
ECTS Representatives:
Claus Glüer
(Kiel, Germany)
Tim Arnett
(London, UK)
Stuart Ralston
(Edinburgh, UK)
Lorenz Hofbauer
(Dresden, Germany)
Hans van Leeuwen
(Rotterdam, The Netherlands)
IBMS Representatives:
Theresa Guise
(SPC Co-Chair)
(Indianapolis, Indiana, USA)
Richard Eastell
(Sheffield, UK)
John Eisman
(Sydney, Australia)
Gabri van der Pluijm
(Leiden, The Netherlands)
Seiji Fukumoto
(Tokyo, Japan)
Claire Edwards
(Oxford, UK)
Local Organising Committee:
Hans van Leeuwen (Chair)
(The Netherlands)
Gabri van der Pluijm
(Vice-Chair)
(The Netherlands)
Carola Zillikens
(President Dutch Society for Calcium and Bone Metabolism (NVCB))
Socrates Papapoulos,
(The Netherlands)
Astrid Bakker,
(The Netherlands)
Bram van der Eerden,
(The Netherlands)

The latest cutting-edge clinical, translational and preclinical research and clinical investigation, in one education packed meeting.

Welcome to ECTS-IBMS 2015

Dear Colleagues,

We are delighted to provide you with details of the 4th Joint Meeting of the European Calcified Tissue Society (ECTS) and the International Bone and Mineral Society (IBMS), which will take place in Rotterdam, The Netherlands. Recognised as the foremost annual European gathering in the field, ECTS-IBMS 2015 will feature a broad and stimulating scientific programme addressing the very latest advances, challenges, and developments in bone and calcified tissue. With an international delegation of clinicians, health care professionals, and researchers in attendance, the Joint Meeting will be a unique opportunity to share in the vision of leading experts and discover what the future holds for this fast moving and exciting sector of medical research and practice.

What to expect at the ECTS-IBMS Joint Meeting

- Learn from a world-leading faculty of international experts, distinguished researchers and clinicians
- Interact with peers, build networks and establish collaborations
- Educational Meet-the-Professor Sessions
- Dedicated events for early-career investigators who are rising through the ranks
- Join the debate! Joint ECTS/ASBMR Debate
- Dedicated day-long clinical session highlighting advances in the management of patients with bone-related disorders
- Poster sessions with ample time for discussion and interaction
- Discover high-impact advances in the field at a wide range of Industry-Sponsored Satellite Symposia

In 2015, the Meeting will be heading to the beautiful city of Rotterdam, a city with an important history. Throughout the years Rotterdam has been characterised by embracing novel challenging developments and is in the 2014 New York Times top 10 list of places in the world to visit. Rotterdam is set to provide the perfect setting for four exciting days of innovation, discovery and education from across the bone and calcified tissue field.

The famous renaissance humanist, Desiderius Erasmus Roterodamus (1466-1536), was born in Rotterdam. Erasmus stood for common sense, freedom of intellect and literary expression, all of which are very important for today's progression of science and improvement of clinical care. The Erasmus University Medical Center is named after him.

We look forward to welcoming you to the stunning city of Rotterdam in 2015!

Bente Langdahl
(SPC Chair)

Hans van Leeuwen
(Chair, Local Organising Committee)

Theresa Guise
(SPC Co-Chair)

Gabri van der Pluijm
(Vice-Chair, Local Organising Committee)

Full programme and speakers available at www.ects-ibms2015.org

Making Clinical matter

Kicking off a packed schedule of clinical sessions taking place throughout ECTS-IBMS 2015 will be the hugely popular Clinical Update day, dedicated to updating health professionals on the latest advances in the management of patients with bone-related disorders.

Are you a PostDoc?

Take your place on the renowned ECTS-IBMS PostDoc Training Programme

The packed schedule features interactive sessions, discussion and debates, alongside expert speakers covering key PostDoc topics, all designed to support and stimulate your further career-learning. Find out more online today at www.ects-ibms2015.org/postdoc.aspx

New Investigators

The ECTS-IBMS 2015 programme will also include parallel strands of dedicated sessions for New Investigators and a complementary parallel programme of the Cancer and Bone Society (CABS).

The New Investigator programme intends to provide an open and informal forum for New Investigators at the very early stage of their careers, enabling them to listen to and question other New Investigators presenting their work in a small-scale and non-intimidating atmosphere.

CABS strands

Parallel sessions on cancer induced bone disease in collaboration with the Cancer and Bone Society (CABS). These premier international scientific events provide an international forum to present and discuss current basic and clinical science in the rapidly advancing field of skeletal complications of cancer.
