

CARDIOVASCULAR MDT-6

Wednesday 4th November 2015
W12 Conference Centre, Hammersmith Hospital

Welcome to the 6th Cardiovascular MDT Course.

Stents or Surgery for coronaries and aneurysms; TAVI or AVR; LAA closure or warfarin; Defib or Bivent? Stroke management questions?

Such choices are challenging despite the wealth of clinical trials available. Test your knowledge and get help from a Cardiovascular Multi-Disciplinary Team (MDT) using case-based learning. Interactive Keypad Voting will keep you stimulated!

A panel of Cardiac and Vascular Surgeons, Cardiologists and Anaesthetists, Care of the Elderly and Stroke Specialists will go through carefully chosen cases designed to clarify your decision making.

This course is suitable for all those taking part in the assessment of cardiovascular patients, including medical staff, nurses, and paramedics.

The registration fee for this course is £50 inc VAT.
