Transformation....

Personal • Professional • Practice

JOIN US IN A NEW ERA FOR THE SOUTHWEST DENTAL CONFERENCE

The Southwest Dental Conference is the meeting of choice for quality professional development offering innovative educational opportunities with our signature atmosphere of tradition, hospitality and camaraderie.

Welcome to the 2015 Southwest Dental Conference. The Scientific Committee has gone above and beyond the call of duty to bring you the best of the best in continuing education. It is our view that educational experiences should be transformational for you personally, professionally and for your practice. We have challenged each and every speaker to do just that in their presentations and workshops.

With our new date in August comes a brand new look that is much more casual, relaxed, and vacation like. We hope you enjoy the change. Also, you will notice that we have redesigned and relocated the registration area. We have provided more gathering areas in the public spaces to facilitate interactions with your friends and team. Finally, the exhibits are expanded and relocated into a new space. We believe this will enhance your experience with the exhibitors who help all of our attendees learn first hand about the latest products, materials, instruments, and technology that dentistry has to offer.

The SWDC has also collaborated with the Omni Dallas Hotel, the Convention and Visitors Bureau, and many world-class destinations in our city to help you, your team, and your family enjoy everything Dallas has to offer. There truly is something for everyone in Downtown Dallas.

We want to say thank you for selecting the Southwest Dental Conference for your educational needs. This great event is designed to provide you with the finest educational experiences available. We would love to get your comments and feedback so that we can continue to improve our meeting. We look forward to seeing you in August.

Edwin McDonald III, DDS
2015 SWDC Chairman

Marshal Goldberg, DDS, MS
DCDS President

General Information

2015 Southwest Dental Conference

August 6-8, 2015

Kay Bailey Hutchison Convention Center

650 S. Griffin Street

Dallas, Texas 75202

Exhibit Hall F; Meeting Rooms C & D

All exhibit booths and most clinical programs are located at the Convention Center.

REGISTRATION INFORMATION

PREREGISTER TO SAVE TIME AND MONEY!

Avoid long registration lines: preregister online or by mail using the form on pages 10-11. Registrations after June 26, 2015 will incur an additional \$25 fee per person, and will increase again by \$25 per person on August 5, 2015.

PREREGISTRATION IS EASY!

1. Select courses and complete registration online (swdentalconf.org) or by mail. Those who register online will receive an email confirmation within 72 hours.
2. If mailing, mail form to the registration company:

Southwest Dental Conference
6840 Meadowridge Court
Alpharetta, GA 30005

Registrations are processed in the order received. Students can only register by mail or on-site and family members can only register on-site. All students must provide a copy of their valid student ID card when registering by mail or on-site. Telephone and fax registrations are not accepted. All forms must be received by the registration company on or before June 26, 2015 to qualify for the preregistration fees. Registrations after this date must be done online and will incur additional charges. Fees are payable to Southwest Dental Conference in U.S. funds by check, money order, MasterCard, VISA or American Express. Credit card users must supply a new credit card number within 24 hours of denial notification or ordered tickets will be returned to inventory. Tickets will not be held.

PREREGISTRATION MATERIALS

Badges and tickets are sent to U.S. registrants by mail. Materials for those outside the U.S. are held for pickup at the On-site Registration Area. Each registered person receives a personalized packet of materials. Obtain a plastic badge holder, on-site meeting program and other important information at the Welcome Center when you arrive.

ON-SITE REGISTRATION HOURS

Wednesday, August 5 12:00-5:00 p.m.

Thursday, August 6 7:30 a.m.-5:00 p.m.

Friday, August 7 7:30 a.m.-5:00 p.m.

Saturday, August 8 8:00 a.m.-12:00 p.m.

CORRECTIONS/CHANGES/ADDITIONS

Corrections, changes and additions are processed at no charge after original registration has been submitted. Online registrants may make certain changes to their information and add classes through the website (swdentalconf.org). You cannot cancel registrations on the website. You may also mail corrections, changes and additions to the registration company. Indicate the ID number shown on your name badge.

CANCELLATION / REFUND POLICY

Cancellation / Refund Deadline: July 10, 2015.

Send a written request for cancellation / refund accompanied by badges and tickets to Southwest Dental Conference, 13633 Omega Road, Dallas, TX 75244. A 20% administrative fee will be assessed. No refunds are given after the stated deadline regardless of reason including, but not limited to, death, illness or acts of God. Refunds are processed four weeks after completion of the Conference.

General Information

TICKETS & COURSES

ONLINE HANDOUTS

After registering for courses, attendees with valid email addresses will receive access to handouts online. Attendees should download the handouts for each course they plan to attend. Handouts are not available on-site.

LOST TICKETS/LOST BADGES

Lost tickets are replaced at the original cost. Lost badges are replaced at no additional cost at the On-site Registration desk with ID.

HANDS-ON WORKSHOPS

Hands-on workshops will be conducted at the Kay Bailey Hutchison Convention Center.

Workshops marked with an asterisk (*) require supplies. Supply lists are printed with the course synopsis. Attendees are responsible for bringing supplies to the course.

CLASSROOMS

All rooms are set to maximum capacity. If a course is free, your seat will be held for 10 minutes after the start of the course. When the room is filled, no additional people will be admitted and no standing is allowed per order of the fire marshal. No children are permitted in the classrooms. Cellular phones and pagers must be turned off prior to entering any of the meeting rooms.

SWDC COURSE TICKET POLICY

All 2015 Southwest Dental Conference courses are ticketed.

You must be registered and have a ticket to attend each course. Please indicate the course numbers on your registration form.

You must register for the courses you plan to attend in order to receive CE credit. The SWDC CE Verification system does not allow you to enter completion codes for courses in which you did not obtain a ticket.

Download the SWDC App!

Available for free in iTunes and Google Play this summer

- See your personalized daily schedule with courses and room numbers
- Look up Conference information, clinicians, maps and courses
- Find exhibitors, add them to your itinerary, and see their show specials
- Access local information, including transportation, attractions and things to do in Dallas
- Don't waste time in line: redeem your CE credits right on your phone or tablet!
- Follow the SWDC social media feeds for contests and news
- Receive important alerts from the Conference about room changes, special events and more.

Don't forget to follow the SWDC on Facebook and Twitter for more updates!

CONTINUING EDUCATION

Dallas County Dental Society
is an ADA CERP Recognized Provider.

ADA CERP® | Continuing Education
Recognition Program

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Dallas County Dental Society designates one (1) credit per hour for CE activities, unless otherwise noted.

Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/goto/cerp.

CE courses provided by Dallas County Dental Society are recognized by the Texas State Board of Dental Examiners, other state's licensing bodies and the Academy of General Dentistry. In Texas, CE courses must be "technical or scientific as relates to clinical care" to qualify for relicensure. Courses are designated "technical and/or scientific" or "nontechnical." CE requirements differ from state to state, so please check with your state for specific requirements. AGD course codes and CE credit hours are shown on each course synopsis.

COURSE DISCLAIMER

The Southwest Dental Conference and its sponsor, Dallas County Dental Society, make every effort to present high-caliber clinicians in their respective areas of expertise. The presentations of the clinicians in no way imply endorsement of any product, technique or service presented in the courses. The Southwest Dental Conference and Dallas County Dental Society specifically disclaim responsibility for any material presented.

CE DOCUMENTATION

A CE Attendance Worksheet is available on-site at the Welcome Center. Record course information and completion codes on the CE Attendance Worksheet. Completion codes are given at the conclusion of each course. Each attendee is responsible for maintaining all CE documentation. AGD members may obtain special AGD forms from the AGD desk. Some states have different requirements for documentation and verification of course credits. Please check with your state.

CE VERIFICATION

For on-site scanning, the CE Center is located at the back of the Exhibit Hall. At the computer, scan the bar code on your CE Scan Card and type in the four-digit completion code for each course attended. This will generate a printed CE Verification Certificate detailing course name, presenter, date, time and number of CE credit hours. Courses may be entered into the computer all at once or at various times. The printed CE Verification Certificate is cumulative and will show all courses you have attended each time the list is printed. **Courses with identical dates and times will not print.** The CE Center is open during Exhibit Hall hours Thursday and Friday. On Saturday, CE Scanning is available at the On-site Registration Area. You may leave the CE Attendance Worksheet at the CE Center or mail it to the registration company after the Conference, and a CE Verification Certificate will be mailed to you. The registration service will mail CE Verification Certificates at no charge for up to 90 days after the Conference; thereafter, a \$25 charge is assessed.

CE Verification is available on the SWDC mobile app throughout the Conference and at swdentalconf.org post-Conference. Click on the CE Verification link. You will be directed to enter your badge number and the first four letters of your last name. After entering this information, please enter completion codes for every course you attended. You may either print or email your certificate. This site will be available for six months after the 2015 SWDC.

Travel/Hotel Information

TRANSPORTATION

Dallas is easily accessed from across the country by two airports: Dallas Love Field and Dallas/Fort Worth International Airport.

Ride the DART Rail System

DART drops off riders just a short, covered walk from the Kay Bailey Hutchison Convention Center. Trains run at 20-minute intervals, 5:30 a.m.-12:30 a.m., seven days a week. Stations are located at the Convention Center and several areas throughout Dallas. For more information, call DART at 214-979-1111 or visit their website at dart.org.

Trinity Railway Express

If coming from west of Dallas, the Trinity Railway Express brings riders to Union Station, where you can catch a DART train to the Convention Center. For routes and schedules, visit trinityrailwayexpress.org.

Public Parking

In addition to the underground parking off Griffin Street at the back of the Convention Center, surface parking lots surrounding the Convention Center are available at an estimated cost of \$15 per day. No reserved parking is available. Visit dallasconventioncenter.com for more information.

Room Rates:

Single/Double: \$179 Triple: \$199 Quad: \$219

HEADQUARTERS HOTEL

Omni Dallas Hotel

555 S. Lamar
Dallas, TX 75202
Reservations: 214-744-6664
www.omnihotels.com

RESERVATION DEADLINE:
July 3, 2015

The Omni Dallas Hotel opened in 2011 in downtown Dallas. The hotel features 1,001 guest rooms, including 64 luxury suites and three presidential suites. Enjoy the modern decor and the convenience of a short walk across the skybridge connected to the Convention Center. Social events, ancillary meetings and some courses will be held at the hotel.

Dining at the hotel consists of several fantastic eateries as well as a full-service Mokara Spa, gift shop, rooftop terrace pool deck and a spacious fitness center with stunning views of downtown.

Please note: Our convention dates are determined by the number of attendees that stay in the SWDC hotel room block. Please help us get the best, most consistent dates possible by staying in the Omni Dallas Hotel. This ensures that we receive credit for your stay and improves our standing with the Kay Bailey Hutchison Convention Center. Register early to book your hotel reservation.

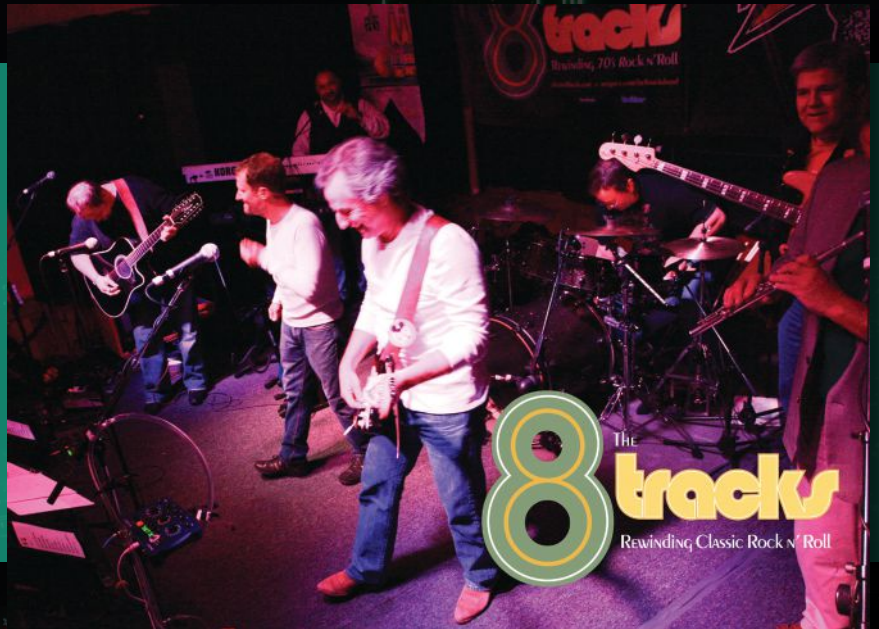

SWDC STAR BASH

Attendee Appreciation Party

Omni Dallas Hotel
Thursday, August 6
6:00 – 8:00 p.m.

Featuring LIVE music from

CE Express

Always an attendee favorite, the CE Express 1-hour course format is back and expanded for 2015! Enjoy the classic CE Express and Hygiene CE Express, as well as our newest versions: Assistant CE Express and Compliance CE Express.

CE EXPRESS

Thursday, August 6

8:00 a.m.-12:00 p.m.

Course #T01

Presentations by:

Antonio Berto, DDS
Patricia Simon, DDS
Francisco Curiel, DDS
Kathleen Kasper, DDS

Friday, August 7

12:30-4:30 p.m.

Course #F02

Presentations by:

Hui Liang, DDS, PhD, MS
Ruben Ovadia, DDS, MS
Aly Sergie, DDS
Campbell Bourland, DDS

HYGIENE CE EXPRESS

Thursday, August 6

12:30-4:30 p.m.

Course #T03

Co-sponsored by the Dallas Dental Hygienists' Society

Presentations by:

Lisa Cooper, RDH, BS
Jane Cotter, RDH, MS
Diane Flint, DDS, MS
Patrica Nunn, RDH, MS

Friday, August 7

8:00 a.m.-12:00 p.m.

Course #F01

Co-sponsored by the Dallas Dental Hygienists' Society

Presentations by:

Terri Patrick, RDH, MS
Kandice Swarthout-Roan, MS, RDH
Annette Wolfe, RDH, BS
Nancy Manion Blinn, RDH

ASSISTANT CE EXPRESS

Thursday, August 6

8:30 a.m.-12:30 p.m.

Course #T02

Presentations by:

Joe Simmons III, DDS
Edwin McDonald III, DDS
Pamela Moore, DDS
Jennifer Barrington, DDS

COMPLIANCE CE EXPRESS

Saturday, August 8

8:30-11:30 a.m.

Course #S01

Presentations by:

Robert Felps
Edward Jones, PMP, CHSP
Kyle Wallace
Kayce Hollingsworth, CDA, RDA

See course descriptions on each day for course titles and more information. Tickets must be purchased for entire CE express session; single presentation tickets are not available.

Thursday, August 6

HIGHLIGHTS

CE Express

8:00 a.m.-12:00 p.m.

Defining and Attaining Success:

A Woman's Perspective

8:00-11:00 a.m. — Part I

1:00-4:00 p.m. — Part II

Lee Ann Brady, DMD

Ricki Braswell, CAE

Assistant CE Express

8:30 a.m.-12:30 p.m.

Autoimmune Diseases: Systemic and Oral Health, and Pharmacologic Treatment Considerations

9:00 a.m.-12:00 p.m.

Ann Eshenaur Spolarich, RDH, PhD

Hygiene CE Express

12:30-4:30 p.m.

Instrument Management from Patient Treatment to Sterilization

1:30-4:30 p.m.

Jessica Wilson

STAR BASH

Featuring The 8tracks

6:00-8:00 p.m.

All-Ceramics: What's New, What's Proven, Controversies and Clinical Tips – Part I

Damon Adams, DDS

D,A,H,T	9:00 a.m.-12:00 p.m.
\$10	Course #T28

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Identify the basic classifications/indications of the all-ceramic materials currently available.
- Learn the advantages and disadvantages of each class of modern all-ceramic materials.
- Future challenges and solutions for 100% zirconium restorations.
- Understand preparation and core build-up requirements for monolithic zirconia and lithium disilicate.
- Discover the latest developments and innovations in all-ceramics.

AGD Subject Code: 017/250

All-Ceramics: What's New, What's Proven, Controversies and Clinical Tips – Part II

Damon Adams, DDS

D,A,H,T	2:00-5:00 p.m.
\$10	Course #T49

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn about cements and surface treatments for all-ceramics, making it much simpler!
- Treatment planning considerations for all-ceramics – opening the doctor-technician channels.
- Determine whether all-ceramics are always the best choice. What are some of the best alternatives?
- Recognize the role of occlusion in the function and longevity of all-ceramics. What can we do differently to improve our long-term results?
- Explore ways to improve impressions and bite registrations for your lab team to ensure success.

AGD Subject Code: 017/250

A Pathway to a More Rewarding and Profitable Practice – Part I

Jeff Baggett, DDS

Mark Murphy, DDS

Dale Sorenson, DDS

ALL	9:00 a.m.-12:00 p.m.
FREE	Course #T29

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Transition to a more comprehensive co-discovery examination experience from any current practice situation.
- Develop the clinical, verbal and leadership skills to communicate the value proposition of comprehensive dentistry to your team and patients.
- Enhance predictability and success in restorative treatment through the application of foundational and occlusal principles.
- Develop simple protocol and process to improve successful treatment planning.
- Apply a strategic planning matrix that helps patients accept a treatment they need and supports both material and behavioral rewards.

AGD Subject Code: 550

A Pathway to a More Rewarding and Profitable Practice – Part II

Jeff Baggett, DDS

Mark Murphy, DDS

Dale Sorenson, DDS

ALL	2:00-5:00 p.m.
FREE	Course #T50

CE Hours: 3 nontechnical

See Part I for learning objectives.

AGD Subject Code: 550

Defining and Attaining Success: A Woman's Perspective – Part I

Lee Ann Brady, DMD

Ricki Braswell, CAE

ALL	8:00-11:00 a.m.
FREE	Course #T11

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Create personal and professional vision.
- Balance work and life.
- Lead and manage a team.
- Manage finances to support success.

AGD Subject Code: 550

Defining and Attaining Success: A Woman's Perspective – Part II

Lee Ann Brady, DMD

Ricki Braswell, CAE

ALL	1:00-4:00 p.m.
FREE	Course #T33

CE Hours: 3 nontechnical

See Part I for learning objectives.

AGD Subject Code: 550

The Perfect Fit Workshop

Sherry Burns, RDH, MS

D,H	8:00-11:00 a.m.
\$95	Course #T04

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand ergonomic guidelines to neutralize occupationally-related musculoskeletal stressors with both ultrasonic scalers and hand instruments.
- Explore the most common clinical challenges presented by the dental architecture of various teeth.
- Understand features, techniques and benefits of ergonomically designed hand instruments, magnetostrictive ultrasonic inserts and piezoelectric ultrasonic tips.
- Become familiar with selecting hand instruments, inserts and tips based upon the specific objective of the clinical procedure, the challenges of root formations, and your personal preferences to create "The Perfect Fit" for you and your patients.

Thanks to Hu-Friedy Mfg. Co., LLC for providing supplies and materials for this workshop.

AGD Subject Code: 490

What's Hot, What's Not: You be the Judge

Sherry Burns, RDH, MS

D,A,H	1:00-4:00 p.m.
\$10	Course #T34

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Differentiate between plaque, planktonic bacteria and microbial biofilms.
- Review pertinent behaviors of biofilms that influence our periodontal treatment goals of thorough biofilm disruption and removal.
- Learn the distinction between supragingival and subgingival biofilm removal utilizing air polishing technologies.
- Cite rationale for utilization of subgingival air polishing

with glycine powder followed by ultrasonic and hand instrument debridement protocol.

- Identify the paradigm shift to integrate subgingival air polishing techniques into clinical protocols.

Presented in part with an educational grant from Hu-Friedy Mfg. Co., LLC.

AGD Subject Code: 495

Treating Back and Neck Pain in Modern Dentistry: A Survival Guide for the Rest of Your Career

Timothy Caruso, PT, MBA, MS

ALL	8:30-11:30 a.m.
\$10	Course #T20

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn the incidence and prevalence of cervical/lumbar pain in the dental profession.
- Understand pain generators in the cervical/lumbar regions.
- Identify the unique musculoskeletal needs of the dental profession and the effects of prolonged static loading.
- Familiarize yourself with conservative treatment options for cervical lumbar pain.
- Discover mechanical diagnosis and therapy (McKenzie Method) to treatment of referred/radicular back and neck pain as an alternative to or screening prior to surgical intervention.
- Learn chairside preventative postures, exercises and strategies.
- Learn when to seek medical care.

AGD Subject Code: 012/770

Got Pain in Your Practice? Tell Me Your Troubles!

Timothy Caruso, PT, MBA, MS

ALL	1:30-4:30 p.m.
\$10	Course #T40

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand posture and body mechanics in the dental operator.
- Explore the anatomy and physiology of pain generators.
- Learn the accepted approaches for pain reduction.
- Discover possible options in instrumentation, loupes, and gloves to eliminate stress.
- Increase productivity and time management in the dental practice.
- Create a personal time pie.
- Identify corrective postures, body mechanics and treatment approaches in order to practice productively without pain.

AGD Subject Code: 012/770

Assistant CE Express

D,A,H	8:30 a.m.-12:30 p.m.
\$20 (all four courses)	Course #T02

CE Hours: 4 technical and/or scientific

Dental Materials Update for Assistants: Achieve and Maintain Optimal Chairside Efficiency and Improve Treatment Outcomes

Joe Simmons III, DDS

8:30-9:30 a.m.

AGD Subject Code: 017

The Art and Science of Provisional Restorations

Edwin McDonald III, DDS

9:30-10:30 a.m.

AGD Subject Code: 250

Looking for the Unexpected

Pamela Moore, DDS

10:30-11:30 a.m.

AGD Subject Code: 730

All Hands on Board: How to Become Indispensable to Your Doctor

Jennifer Barrington, DDS

11:30 a.m.-12:30 p.m.

AGD Subject Code: 250

CE Express

D,A,H	8:00 a.m.-12:00 p.m.
\$20 (all four courses)	Course #T01

CE Hours: 4 technical and/or scientific

Regenerative Endodontics: A New Treatment Modality For Pulp Regeneration

Antonio Berto, DDS

8:00-9:00 a.m.

AGD Subject Code: 070

Growth Modification in Orthodontics

Patricia Simon, DDS

9:00-10:00 a.m.

AGD Subject Code: 370

Implant Temporization: A Prosthetic Way for Soft Tissue Management

Francisco Curiel, DDS

10:00-11:00 a.m.

AGD Subject Code: 690

Forensic Dentistry on Fast Forward

Kathleen Kasper, DDS

11:00 a.m.-12:00 p.m.

AGD Subject Code: 145

Hygiene CE Express

D,A,H	12:30-4:30 p.m.
\$20 (all four courses)	Course #T03

CE Hours: 4 technical and/or scientific

Co-sponsored by the Dallas Dental Hygienists' Society

The Dental Hygienist's Role in Sleep-Disordered Breathing

Lisa Cooper, RDH, BS

12:30-1:30 p.m.

AGD Subject Code: 160

Dental Oncology: Pre, Concurrent and Survivorship Care and Management of the Oncology Patient

Jane Cotter, RDH, MS

1:30-2:30 p.m.

AGD Subject Code: 730

Right Time for the Right Radiograph: Talking to Patients About Dental Imaging

Diane Flint, DDS, MS

2:30-3:30 p.m.

AGD Subject Code: 165

Leveraging Brain Science to Help Reduce Oral Disease Risk

Patricia Nunn, RDH, MS

3:30-4:30 p.m.

AGD Subject Code: 730

Diagnosing and Treating the Worn Dentition

Thomas Dudley, DMD

D,A,H	8:30-11:30 a.m.
\$10	Course #T21

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Identify the types, etiologies and distinguishing characteristics of tooth wear.
- Learn when and how to treat tooth wear.
- Discover treatment options for worn dentition.
- Become familiar with clinical cases to illustrate the treatment of tooth wear.

Presented in part with an educational grant from Bisco Dental, GC America, and Pulpdent.

AGD Subject Code: 250

Smile Design Principle: The Keys to Success in Achieving Esthetic Results

Thomas Dudney, DMD

D,A,H,T	1:30-4:30 p.m.
\$10	Course #T41

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand the importance of incisal edge position and how to determine it.
- Identify what is esthetically acceptable and unacceptable with regards to the dental midline, axial alignment and gingival height symmetry.
- Learn treatment options for correction of gingival height asymmetry.
- Evaluate interdental contact areas, embrasure form and dark triangles.
- Learn about negative space and buccal corridors.
- Understand altered passive eruption and the multidisciplinary treatment of short clinical crowns and gummy smiles.
- Discover the benefits of soft tissue recontouring with diode lasers.

Presented in part with an educational grant from Bisco Dental, GC America, and Pulpdent.

AGD Subject Code: 149/780

Ceramics and Esthetics: How to Achieve Esthetic Success with Every Type of Ceramic System

Gregory Gillespie, DDS

D,A,H	8:30-11:30 a.m.
\$10	Course #T22

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn about all ceramic systems including e.Max®, zirconia, PFM's, and feldspathic options and their indications.
- Review current research behind improvements in materials.
- Learn how to predictably restore implants.
- Understand cements including RMGI's, self-adhesive resins, universal cementation systems and etch and rinse resins.
- Become familiar with cementation techniques for PFM, all ceramic, veneers, onlays, zirconia and implants.

Presented in part with an educational grant from DENTSPLY Caulk.

AGD Subject Code: 017/250

New Products: When Do I Make the Switch?

Gregory Gillespie, DDS

D,A,H	1:30-4:30 p.m.
\$10	Course #T42

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn about bulk fill composites.
- Understand 4th-7th generation bonding systems including the latest "universal" bonding systems.
- Learn about the latest in nano hybrid composite systems and their placement.
- Become familiar with the use of today's current cements.

Presented in part with an educational grant from DENTSPLY Caulk.

AGD Subject Code: 017/250

The 5 Must-Have Components for Dental Social Media Marketing Success

Jack Hadley

ALL	8:00-11:00 a.m.
FREE	Course #T12

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Review specific examples and case studies to grow your own practice.
- Create and post content that provides value and is shared.
- Understand why social media is so critical today for search engine optimization (SEO).
- Create a clear social media strategy for your practice and goals for implementing it.

Presented in part with an educational grant from My Social Practice.

AGD Subject Code: 561

Creating and Posting Social Media Content That Engages, Provides Value and Shares Practice Culture Workshop

Jack Hadley

ALL	1:00-4:00 p.m.
\$55	Course #T06

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Create a specific content calendar based on a comprehensive social strategy.
- Utilize proven, successful campaigns in your practice.
- Evaluate your current digital marketing tools and effectiveness, then assess how to improve it.
- Manage your online marketing strategy through participation.

Presented in part with an educational grant from My Social Practice.

AGD Subject Code: 561

Composite Techniques for Predictability and Success with Anterior Freehand Bonding

Dennis Hartlieb, DDS

D,A,H	9:00 a.m.-12:00 p.m.
\$10	Course #T30

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand what materials are critical for creating excellence with anterior freehand bonding.
- Learn when and where you should be using nanofilled composites for anterior bonding.
- Become familiar with the proper adhesive for direct anterior bonding.
- Control the opacity and translucency of a direct resin restoration.
- Discover the techniques necessary to blend composite to tooth structure to hide Class IV fractures.
- Understand techniques using silicone indexes to ensure ideal incisal edge position for final restorations.

Presented in part with an educational grant from Cosmedent, Inc.

AGD Subject Code: 250

Posterior Composites: Efficiency and Esthetics from the Simple to the Complex Restoration

Dennis Hartlieb, DDS

D,A,H	2:00-5:00 p.m.
\$10	Course #T51

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn about self-etch adhesives; how to make them better and where not to use them.
- Explore techniques to create exquisitely contoured Class II proximal walls.
- Understand layering techniques that not only reduce the stresses of polymerization of the composite, but also result in the creation of natural tooth shape and form of the restoration.

Presented in part with an educational grant from Cosmedent, Inc.

AGD Subject Code: 250

Dick Cheney: Dental Patient

Randy Huffines, DDS

D,A,H	8:30-11:30 a.m.
\$10	Course #T23

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn local anesthetic techniques for hypertensive patients.
- Manage patients taking medications that cause bleeding problems.
- Distinguish facts from myths related to antibiotic premedication.
- Understand the dental team's role in various cardiac procedures.
- Manage oral side effects of cardiovascular medications.

AGD Subject Code: 750

Successfully Treating Older Patients: Techniques for the Entire Dental Team

Randy Huffines, DDS

D,A,H	1:30-4:30 p.m.
\$10	Course #T43

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Modify treatment based on the patient's medical status including bleeding problems, Alzheimer's disease, cardiovascular disease, stroke, Parkinson's and cancer.
- Learn from clinically important changes in the oral cavity as we age.
- Employ the most current strategies for the management of root caries.
- Learn innovative techniques for edentulous and partially edentulous older patients.

AGD Subject Code: 752

Aiming for Success: Radiographic Techniques from Analog to Digital

Theresa Johnson, RDH, MBA

D,A,H	1:30-4:30 p.m.
\$10	Course #T44

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Identify characteristics of a diagnostic image and exposure factors that affect image quality.
- Recognize the advantages and limitations of new radiographic technology, including digital systems and new designs in aiming devices and holders.
- Utilize the paralleling technique, as well as the bisecting angle technique when warranted, to obtain diagnostic quality images with either analog or digital systems.
- Assemble and position a variety of aiming devices and holders.
- Identify common exposure technique errors and implement methods to correct such errors, including modifications to alignment of image receptor and/or central ray as required by technology or anatomy.
- Implement methods to minimize radiation exposure for patients and the operator.

Presented in part with an educational grant from DENTSPLY Professional.

AGD Subject Code: 165

21st Century Minimally Invasive Dental Hygiene

Ron Kaminer, DDS

D,A,H	1:30-4:30 p.m.
\$10	Course #T45

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand current concepts in dental cariology.
- Provide the high-tech clinical exam.
- Understand oral cancer detection – new technology for earlier diagnosis.
- Explore getting patients to say "yes" to nonsurgical periodontal treatment.
- Become familiar with dental lasers and their application in hygiene.

Presented in part with an educational grant from Air Techniques, Doxa Dental, Shofu Dental Corporation, and Voco America, Inc.

AGD Subject Code: 495

Clinical Treatment Planning and Problem Solving:

When it Doesn't Go By the Book

Robert Lowe, DDS

D,A,H	8:30-11:30 a.m.
\$10	Course #T24

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Review clinical solutions for real life problems.
- Learn about restoration of excessive tooth wear and the role of anterior guidance.
- Gain knowledge of open bite correction without surgical intervention.
- Explore orthodontic tooth preparation and prosthetic tooth repositioning.

Presented in part with an educational grant from Doxa Dental, GC America, Kerr Corporation, SDI (North America) Inc., and Shofu Dental Corporation.

AGD Subject Code: 250

Esthetic Overhaul from Basic to Cutting-Edge: Technologies and Techniques That Will Change Your Practice!

Robert Lowe, DDS

D,A,H	1:30-4:30 p.m.
\$10	Course #T46

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn techniques to place morphologically precise direct composite restorations. What about "bulk fill" composites and bioactive dental materials?
- Understand esthetic crown and bridge techniques and the use of all-ceramic systems and ceramometallic restorations in various clinical situations. What about prepless veneers?
- Learn about a lower cost option to porcelain for esthetic cases – Pearlfect Smile!
- Master impressions: First time, every time. Learn to manage soft tissue issues for the most challenging clinical situations.
- Identify predictable cementation for modern dental materials. Bioactive cements are changing the paradigm for cementation protocols.

Presented in part with an educational grant from Doxa Dental, GC America, Kerr Corporation, SDI (North America) Inc., and Shofu Dental Corporation.

AGD Subject Code: 017/250

Local Anesthetics: Dentistry's Most Important Drugs

Stanley Malamed, DDS

D,A	8:00-11:00 a.m.
\$10	Course #T13

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Compare the clinical characteristics of current local anesthetic formulations.
- Learn the mechanism of action of phentolamine mesylate – the local anesthesia reversal agent.
- Learn the mechanism of action of buffering local anesthetics.
- Understand the mechanism of action and efficacy of the intranasal local anesthetic mist.

Presented in part with an educational grant from Septodont.

AGD Subject Code: 132

The Renaissance in Local Anesthesia: Mandibular Anesthesia

Stanley Malamed, DDS

D,A	1:00-4:00 p.m.
\$10	Course #T35

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Name four methods of achieving pulpal anesthesia of mandibular teeth.
- Learn about the Gow-Gates mandibular nerve block.
- Identify the technique and effectiveness of the intraosseous and PDL techniques.
- Become familiar with the Akinosi-Vazirani closed mouth mandibular nerve block.

Presented in part with an educational grant from Septodont.

AGD Subject Code: 132

Oh, How I Wish My Dental Assistant Knew How to...

Mary Mellard, DDS

D,A	1:30-4:30 p.m.
\$10	Course #T47

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand procedures and techniques for everyday equipment and products used in the office (including some that you may not have heard of.)
- Set up procedures when using some of the latest high-tech equipment.
- Use some of the newest products, including adhesives, cements and temporary materials.
- Interact with patients and explain procedures.

AGD Subject Code: 017

Real World Endo[®] presents: New Horizons in Endodontics – Part I

Allen Ali Nasseh, DDS, MMSc

D,A	8:00-11:00 a.m.
\$10	Course #T14

CE Hours: 3 technical and/or scientific

This lecture is recommended but not mandatory to attend workshop course #F04.

LEARNING OBJECTIVES

- Improve the success rate of your endodontic cases no matter what instrumentation or obturation system you use (including hand filing!)
- Improve your efficiency of care without compromising quality.
- Instrument and obturate root canals using rotary NiTi files and BioCeramic cements in conjunction with hydraulic condensation.
- Learn multiple tips and tricks to perform a painless endodontic procedure from anesthesia to post operative care.

Presented in part with an educational grant from Brasseler USA.

AGD Subject Code: 070

Real World Endo® presents: New Horizons in Endodontics – Part II

Allen Ali Nasseh, DDS, MMSc

D,A	1:00-4:00 p.m.
\$10	Course #T36

CE Hours: 3 technical and/or scientific

This lecture is recommended but not mandatory to attend workshop course #F04.

See part I for learning objectives.

Presented in part with an educational grant from Brasseler USA.
AGD Subject Code: 070

Diagnosis and Treatment Planning Essentials for the Dental Implant Patient – Part I

Mark Nation, DMD

D,A,H	8:00-11:00 a.m.
\$10	Course #T15

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand the rationale for dental implants.
- Learn strategies and literary support for implant therapy.
- Understand clinical parameters and patient considerations.
- Identify treatment planning considerations for fixed dental implant therapy and avoidance of complications for the partially edentulous and completely edentulous patient.
- Know the necessary considerations for hard and soft tissues.
- Learn functional parameters that affect implant therapy.
- Understand oral environment – pre-existing conditions that affect implant success.

This course is presented in part with an educational grant from BioHorizons.

AGD Subject Code: 490

Diagnosis and Treatment Planning Essentials for the Dental Implant Patient – Part II

Mark Nation, DMD

D,A,H	1:00-4:00 p.m.
\$10	Course #T37

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn about implant fixture options: pros and cons of certain designs and materials.
- Understand treatment considerations for overdenture implant therapy.
- Understand single-unit implant considerations and abutment options.
- Utilize dental implant provisionalization parameters and techniques.
- Become familiar with material selections for implant prosthetics with relationship to esthetic outcomes and strength.

This course is presented in part with an educational grant from BioHorizons.
AGD Subject Code: 490

Science-Based Sound Bites to "Sell" Your Message

Trisha O'Hehir, RDH, MS

D,A,H	8:30-11:30 a.m.
\$10	Course #T25

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Recognize sound bites in consumer marketing.
- Understand the complexities of plaque biofilm formation.
- Learn about cell level changes associated with bleeding and periodontal disease.
- Utilize science-based sound bites to educate patients.

AGD Subject Code: 495

Top 10 Technology Tips and Myths

Laci Phillips

ALL	8:00-11:00 a.m.
FREE	Course #T16

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Identify today's technology.
- Learn how to streamline systems with that technology.
- Explore new techniques for you and your team to take back to your practice.

AGD Subject Code: 561

High Tech: The Fast Lane to Easy Street

Laci Phillips

ALL	1:00-4:00 p.m.
FREE	Course #T38

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Learn how to share your expertise in the office with the entire team.
- Explore the new technology and the not so new: how do they work in your office?
- Gain new knowledge and insights into the industry so you can stay on top of your game.

AGD Subject Code: 561

The 4 P's of Pediatric Dentistry: Psychology, Pharmacology, Physiology and Phamily

David Rothman, DDS

D,A,H	9:00 a.m.-12:00 p.m.
\$10	Course #T31

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Develop a preventive plan based on current understanding of the interrelationship between diet, frequency, cariogenicity and inconsistent parenting.
- Understand diagnostic modalities appropriate to children and factors that influence child development and how they can help treatment at the various developmental stages.
- Understand and manage the behavior of the underparented, overstressed, no-limits child of the new decade.
- Improve your knowledge base to become comfortable with seeing and treating children in the office.
- Understand that family and social influences are redefining and shaping the child and the family relationship.

AGD Subject Code: 430

Identifying and Treating Medical Emergencies in Children

David Rothman, DDS

D,A,H	2:00-5:00 p.m.
\$10	Course #T52

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Identify medical and sedation emergencies in children.
- Develop an appropriate emergency kit and emergency protocol.
- Identify risk factors for pediatric patients based upon their unique anatomy, physiology and childhood diseases.
- Provide RESCUE to stabilize the endangered child.

AGD Subject Code: 430

The Reality of Immediate Load

Charles Schlesinger, DDS

D,A,H	8:30-11:30 a.m.
\$10	Course #T26

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Incorporate implants into your practice.
- Understand how your patients are influencing your practice.
- Understand immediate load technology.
- Learn how the right implant can change the way you place implants.
- Make implantology the most predictable and profitable treatment you can provide.

Presented in part with an educational grant from OCO Biomedical, Inc.
AGD Subject Code: 690

Incorporating an Implant System Workshop

Charles Schlesinger, DDS

D,A,H	1:30-4:30 p.m.
\$145	Course #T09

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn basic implantology protocols.
- Identify and place multiple implants.
- Master surgical protocols.
- Prepare to implement an implant system into your practice.

Thanks to OCO Biomedical, Inc. for providing supplies and equipment for this workshop.
AGD Subject Code: 690

Nitrous Oxide Monitoring for Auxiliaries

Laurie Semple, CDA, RDA, MEd

A,H	8:00 a.m.-12:00 p.m. and 1:00-5:00 p.m. (all day)
\$155*	Course #T05

CE Hours: 8 technical and/or scientific

CE requirements differ from state to state, so please check with your state for specific requirements.

REGISTRATION DEADLINE FOR THIS COURSE IS JUNE 30, 2015.

LEARNING OBJECTIVES

- Learn the history of nitrous oxide/sedation equipment.
- Review anatomy, physiology and pharmacology relative to nitrous oxide monitoring.
- Understand the stages of anesthesia/sedation and patient monitoring requirements.
- Learn about complications and staff safety.
- Identify infection control issues and legal considerations.

Attendees are required to download, print and bring the study guide to this workshop. Study guides will not be provided on-site. Attendees must bring their state ID card or driver's license, a highlighter and two (2) #2 sharpened pencils.

A valid email address is **mandatory**. Attendees will be contacted for additional REQUIRED information and notified when your study guide is available for download.

AGD Subject Code: 163

A Practical Approach to Temporomandibular Disorders: Diagnosis and Management

Thomas Sollecito, DMD

D,A,H	2:00-5:00 p.m.
\$10	Course #T53

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Explore the complexity in the diagnosis of facial pain disorders.
- Understand the diagnostic approach to a patient with a temporomandibular disorder.
- Become familiar with the biopsychosocial model of TMD.
- Understand the management, including splint therapy, of temporomandibular disorders.

AGD Subject Code: 182

Autoimmune Diseases: Systemic and Oral Health, and Pharmacologic Treatment Considerations

Ann Eshenaur Spolarich, RDH, PhD

D,A,H	9:00 a.m.-12:00 p.m.
\$10	Course #T32

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Identify common signs and symptoms of various autoimmune diseases.
- Recognize the adverse oral and systemic complications associated with medications used to treat autoimmune diseases.
- Identify oral manifestations of common autoimmune diseases.
- Learn important practice management considerations when planning dental care for patients with autoimmune disease.

Presented in part with an educational grant from Colgate Oral Pharmaceuticals.

AGD Subject Code: 016/730

Exploring the Emerging Science

Ann Eshenaur Spolarich, RDH, PhD

D,A,H	2:00-5:00 p.m.
\$10	Course #T54

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn about the challenges that clinicians face when adopting an evidence-based practice philosophy.
- Identify resources that are available to help clinicians locate scientific evidence that supports best practices.
- Discover evidence-based resources that can provide clinical decision support at the point of care.
- Review evidence-based strategies that can successfully reduce risks for oral disease.

Presented in part with an educational grant from Colgate Oral Pharmaceuticals.

AGD Subject Code: 730

Thursday Courses

D=Dentist H=Hygienist A=Assistant
B=Business Assistant T=Dental Technician S=Spouse

Contemporary Clinical Periodontics 2015

Jon Suzuki, DDS, PhD, MBA

D,A,H	8:00-11:00 a.m.
\$10	Course #T17

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand biological basis for periodontal diseases.
- Learn how to relate oral infections to systemic diseases and conditions.
- Explore advances in periodontal treatment planning and therapies.
- Understand concepts of periodontal and implant surgeries including regeneration.

AGD Subject Code: 490

Peri-implantitis: Etiologies and Potential Therapies

Jon Suzuki, DDS, PhD, MBA

D,A,H	1:00-4:00 p.m.
\$10	Course #T39

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- How to define peri-implant mucositis and peri-implantitis.
- Recognize the four primary etiologies of peri-implantitis.
- Understand nonsurgical treatment approaches for implant rescue.
- Understand surgical treatment plan approaches for implant rescue.
- Recognize the importance of implant maintenance.

AGD Subject Code: 490

Set Yourself Apart with Digital Portrait Photography

Bernie Villadiego, DDS

D,A,H,T	8:00-11:00 a.m.
\$10	Course #T18

CE Hours: 3 technical and/or scientific

This lecture is a prerequisite for workshop course #T07.

LEARNING OBJECTIVES

- Learn how to use digital/portrait photography for internal and external marketing.
- Learn about the basics of exposure (aperture, shutter speed, and ISO) and color balance.
- Gain a solid foundation of studio lighting and practical knowledge of controlling light.
- Understand the fundamentals of using available and natural light without the use of heavy strobe equipment.

AGD Subject Code: 138

Fundamentals of Studio Lighting Workshop

Bernie Villadiego, DDS

ALL	1:00-4:00 p.m.
\$95*	Course #T07

CE Hours: 3 technical and/or scientific

Course #T18 is a prerequisite for this workshop.

LEARNING OBJECTIVES

- Explore what equipment is necessary to set up a studio.
- Discover what camera settings to use.
- Learn how to shape the light with strobe lights and soft boxes.

Attendees are encouraged to bring their DSLR camera, 100 mm macro dental lens, memory cards and batteries to this workshop.

Thanks to PhotoMed International for providing equipment for this workshop.

AGD Subject Code: 138

Precision, Productivity and Profitability of Implant Prosthetics in Private Practice

Robert Vogel, DDS

D,A,H	8:00-11:00 a.m.
\$10	Course #T19

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Gain confidence and predictability with state-of-the art implant materials and techniques.
- Improve practice productivity and reduce complications.
- Understand how to integrate advanced techniques into private practice with simplification.
- Learn to allow more patients to benefit from implant-based treatment through ideal fee determination and presentation techniques.

AGD Subject Code: 610/670/690

State-of-the-Art Tips, Tricks and Techniques in Implant Overdentures with Locator Abutments Workshop

Robert Vogel, DDS

D,A,T	1:00-4:00 p.m.
\$145*	Course #T08

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn to simplify clinical procedures in removable implant prosthetics.
- Obtain predictable, consistent, stress-free results.
- Obtain updated knowledge on state-of-the-art techniques in implant dentistry.
- Develop patient presentation and fee determination techniques to allow more patients to benefit from implant dentistry.

Attendee should bring loupes (if desired), one (1) small and one (1) medium flame shaped acrylic bur and an explorer.

Thanks to Straumann USA, LLC for providing supplies and equipment for this workshop.

AGD Subject Code: 670/690

Smile Design for the General Dentist

Charles Wakefield, DDS

D,A,T	8:30-11:30 a.m.
\$10	Course #T27

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Explore the principles of smile design for general clinical practice.
- Learn about materials, techniques and lab communication.
- Understand the value of surgical anterior crown lengthening in your practice.
- Apply concepts of color in planning esthetic cases.
- Select the most advantageous material or restoration for esthetic cases.

AGD Subject Code: 780

Custom Direct Composite Restorations Workshop

Charles Wakefield, DDS

D	1:30-4:30 p.m.
\$145*	Course #T10

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn to determine shades dependent on the proper use of color.
- Discover how to make perfect interproximal contacts every time.
- Place anterior composites with esthetic results as good as porcelain.
- Create a lifelike surface texture and facilitate polishing.
- Learn to use the newest ultrasonic composite placement instrument.

Attendees should bring eye protection.

Thanks to Garrison Dental Solutions, Hu-Friedy, Mfg. Co., LLC and Kerr Corporation for providing supplies and equipment for this workshop.

AGD Subject Code: 250

Instrument Management from Patient Treatment to Sterilization

Jessica Wilson

ALL	1:30-4:30 p.m.
\$10	Course #T48

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Establish a standardized workflow from the treatment room through the sterilization process.
- Develop consistent protocols for efficient operator set-up and teardown.
- Implement effective systems for instrument organization and delivery to increase practice productivity.
- Identify systems for materials management.
- Apply current guidelines and safety regulations for instrument management and reprocessing.

Presented in part with an educational grant from Hu-Friedy, Mfg. Co., LLC.

AGD Subject Code: 148

Friday, August 7

HIGHLIGHTS

Orthodontic Symposium

8:00-11:00 a.m. and 1:00-4:00 p.m.

Duncan Brown, BCS, DDS

Equipment Maintenance and Repairs Workshop

8:30-11:30 a.m. repeating 1:30-4:30 p.m.

Introduction to Sleep Medicine for the Dental Practice

8:30-11:30 a.m. and 1:30-4:30 p.m. (all day)

Steven Bender, DDS Paul McLornan, DDS, MS

Infection Control in Practice

9:00 a.m.-12:00 p.m.

Jessica Wilson

The Exceptional Dental Team: Advocates for Total Health and Gatekeepers of Systemic Inflammation

9:00 a.m.-12:00 p.m.

DeWitt Wilkerson III, DMD

All-Ceramics: What's New, What's Proven, Controversies and Clinical Tips – Part I (repeat)

Damon Adams, DDS

D,A,H,T	9:00 a.m.-12:00 p.m.
\$10	Course #F35

CE Hours: 3 technical and/or scientific

See Thursday for learning objectives.

AGD Subject Code: 017/250

Occlusal Concepts and Pearls for Restorative Success

Jeff Baggett, DDS

D,A	2:00-5:00 p.m.
\$10	Course #F60

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Determine which occlusal philosophy works best for your practice.
- Recognize signs and symptoms of occlusal disease and review treatment modalities.
- Understand use of a simple occlusal scheme in all aspects of your restorative dentistry.
- Learn six different techniques to obtain an accurate centric relation bite record.
- Relate "micro" occlusal schemes to your lab technician.

AGD Subject Code: 184/250

Introduction to Sleep Medicine for the Dental Practice

Steven Bender, DDS

Paul McLornan, DDS, MS

D,A,H,T	8:30-11:30 a.m. and 1:30-4:30 p.m. (all day)
\$290	Fee covers Course #F44 and #S06

CE Hours: 6 technical and/or scientific

Upon completion of this **two-day course**, which includes course #F44 and workshop course #S06, attendees will fulfill the Texas State Board of Dental Examiners' requirement for 12 hours of minimum basic education in sleep-disordered breathing (a combination of didactic and clinical education).

LEARNING OBJECTIVES

- Understand the basic components of sleep.
- Understand and identify sleep related breathing disorders.
- Learn the various treatment modalities for sleep related breathing disorders.
- Discover how to implement oral appliances for sleep related breathing disorders into your practice.

AGD Subject Code: 160

Anterior Composite Artistry

Lee Ann Brady, DMD

D,A,H	9:00 a.m.-12:00 p.m.
\$10	Course #F36

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand composite materials for anterior restorations.
- Understand dentin and enamel adhesion.
- Explore the concept of composite layering.
- Learn about anterior matrices.
- Gain knowledge of finishing and polishing.

Presented in part with an educational grant from Heraeus Kulzer, LLC.

AGD Subject Code: 250/780

ORTHODONTIC SYMPOSIUM

A Contemporary Approach to Esthetic Diagnosis and Treatment – Part I

Duncan Brown, BCS, DDS

D,A,H	8:00-11:00 a.m.
\$10	Course #F16

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn the basics of "esthetic based diagnosis."
- Understand enhanced Case Management Practices: SAP bracket placement, ELSE (elastics light short early), disarticulation.
- Learn about Active Early: the rationale and basis for activating the appliance early.
- Become familiar with case management – the keys to success.

Co-sponsored by the Greater Dallas Association of Orthodontists.

Presented in part with an educational grant from Ortho Classic.

AGD Subject Code: 370

ORTHODONTIC SYMPOSIUM

A Contemporary Approach to Esthetic Diagnosis and Treatment – Part II

Duncan Brown, BCS, DDS

D,A,H	1:00-4:00 p.m.
\$10	Course #F45

CE Hours: 3 technical and/or scientific

See Part I for learning objectives.

Co-sponsored by the Greater Dallas Association of Orthodontists.

Presented in part with an educational grant from Ortho Classic.

AGD Subject Code: 370

Exploring the Myths of Clinical Concepts

Sherry Burns, RDH, MS

D,A,H	8:30-11:30 a.m.
\$10	Course #F25

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand the scientific data regarding the effects of steam sterilization on dental instruments.
- Identify the characteristics and effects of various types of metal used in the manufacturing of dental instruments.
- Identify the “myths, misconceptions, and misunderstandings” regarding the design, use and sharpening of Gracey curettes.
- Demonstrate the principles of “leverage” and “fulcrum” essential in hand instrumentation techniques.
- Differentiate the effects of “blade angulation,” “terminal shank position” and “lateral pressure” in efficient deposit removal.

Presented in part with an educational grant from Hu-Friedy Mfg. Co., LLC.

AGD Subject Code: 495

CE Express

D,A,H	12:30-4:30 p.m.
\$20 (all four courses)	Course #F02

CE Hours: 4 technical and/or scientific

CBCT and Your Private Practice

Hui Liang, DDS, PhD, MS

12:30-1:30 p.m.

AGD Subject Code: 165/730

Simple Steps for Success in Implant Dentistry

Ruben Ovadia, DDS, MS

1:30-2:30 p.m.

AGD Subject Code: 690

Demystifying Tooth and Shade Matching – How to Take the Suffering out of this Everyday Challenge

Aly Sergie, DDS

2:30-3:30 p.m.

AGD Subject Code: 780

Infections of Odontogenic Origin: Treatment, Management and Complications

Campbell Bourland, DDS

3:30-4:30 p.m.

AGD Subject Code: 730

Hygiene CE Express

D,A,H	8:00 a.m.-12:00 p.m.
\$20 (all four courses)	Course #F01

CE Hours: 4 technical and/or scientific

Co-sponsored by the Dallas Dental Hygienists' Society

Osteoporosis: Neck Bone Connected to the Head Bone

Terri Patrick, RDH, MS

8:00-9:00 a.m.

AGD Subject Code: 730

Origins of Dental Fear: Managing the Anxious Patient

Kandice Swarthout-Roan, MS, RDH

9:00-10:00 a.m.

AGD Subject Code: 153

The Role of Dentifrices and Therapeutic Outcomes

Annette Wolfe, RDH, BS

10:00-11:00 a.m.

AGD Subject Code: 017/250

How Underserved Children's Lives are Improving One Sealant at a Time

Nancy Manion Blinn, RDH

11:00 a.m.-12:00 p.m.

AGD Subject Code: 430

Lasers in Dentistry: Come and See the Light

Donald Coluzzi, DDS

D,H	8:30-11:30 a.m.
\$10	Course #F26

CE Hours: 3 technical and/or scientific

This lecture is a prerequisite for workshop course #F12 and #S02.

LEARNING OBJECTIVES

- Have a basic understanding of lasers and their use in dentistry.
- Be able to compare and contrast lasers and their operating features.
- Appreciate how lasers are safely and effectively used in clinical cases.

AGD Subject Code: 260

Lasers in Dentistry: Come and See the Light Workshop

Donald Coluzzi, DDS

D,H	1:30-4:30 p.m.
\$175*	Course #F12

CE Hours: 3 technical and/or scientific

Course #F26 is a prerequisite for this workshop.

LEARNING OBJECTIVES

- Understand the differences among the lasers available in the workshop.
- Perform some simulations of the most common dental procedures with a variety of lasers.
- Explore laser purchase and practice integration.

Attendees may bring loupes (if desired).

Thanks to DenMat for providing supplies and equipment for this workshop.

AGD Subject Code: 260

DISCLAIMER: This course will present information on the various uses of lasers in a dental practice. Attendees should refer to the specific legal guidelines for laser use in the state in which they are licensed.

Restorative Options for Today's Practice

Thomas Dudney, DMD

D,A,H	1:00-4:00 p.m.
\$10	Course #F46

CE Hours: 3 technical and/or scientific

Learning Objective

- Identify factors affecting material selection and characteristics of an ideal restorative material.
- Learn about feldspathic and pressed ceramics.
- Combine function and esthetics with lithium disilicate ceramics.
- Explore CAD-CAM technology and zirconia restorations.
- Learn about abutment selection for anterior implants.
- Understand conservative anterior options when implants are contraindicated.
- Review universal adhesives.
- Explore conventional cementation vs. adhesive bonding.

Presented in part with an educational grant from Bisco Dental, GC America, and Pulpdent.

AGD Subject Code: 017/250

Oral Surgery for the General Practitioner Made Easy – Part I

Robert Edwab, DDS

D,A,H	9:00 a.m.-12:00 p.m.
\$10	Course #F37

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Become familiar with proper use of oral surgery instruments.
- Understand how to avoid surgical complications.
- Learn how to perform your surgeries more efficiently.

AGD Subject Code: 310

Oral Surgery for the General Practitioner Made Easy – Part II

Robert Edwab, DDS

D,A,H	2:00-5:00 p.m.
\$10	Course #F61

CE Hours: 3 technical and/or scientific

See Part I for learning objectives.

AGD Subject Code: 310

Equipment and Maintenance Repairs Workshop

ALL	8:30-11:30 a.m. repeating 1:30-4:30 p.m.
\$50	AM Course #F06 PM Course #F15

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Learn how to make basic dental equipment repairs.
- Fix the leaky water syringe and make equipment adjustments.
- Have a better understanding of how to maintain equipment and save money.

Co-sponsored and facilitated by Midwest Dental Equipment & Supply, Co.
AGD Subject Code: 550

The Dynamics and Function of the Masticatory System: The Multiple (Inter) faces of Occlusion

Henry Gremillion, DDS

D,A,H	9:00 a.m.-12:00 p.m.
\$10	Course #F38

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Identify the basic principles of anatomy and function of the masticatory system.
- Understand the multiple deleterious effects of occlusal trauma.
- Understand the importance of sleep-related movement disorders such as bruxism.
- Review current concepts of mechanisms involved in specific myogenous and arthrogeous TMD subgroups.

AGD Subject Code: 180

Anterior and Posterior Direct Resin Restorations: Experience for Practice Success Workshop

Dennis Hartlieb, DDS

D	8:00-11:00 a.m. repeating 1:00-4:00 p.m.
\$145*	AM Course #F03 PM Course #F08

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn the application of bevel design and layering techniques to create invisible Class IV restorations.
- Know how and when to use Opaquers to create naturally appearing restorations.
- Understand the importance of Microfill composites for ultimate esthetics in free hand bonding.
- Review step-by-step techniques that work: layering techniques to create lifelike form to posterior direct resin restorations.
- Utilize a technique to efficiently restore the very large direct posterior composite restoration.

Attendees should bring loupes to this workshop.

Thanks to Cosmedent, Inc. for providing supplies and equipment for this workshop.

AGD Subject Code: 250

From Risk to Results: Achieving Successful Clinical Outcomes with Advanced Ultrasonic Instrumentation Techniques

Theresa Johnson, RDH, MBA

D,H	8:00-11:00 a.m.
\$10	Course #F17

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Develop an understanding of the evidence-based decision making (EBDM) process while providing a mechanism for staying current in practice by addressing gaps in knowledge so that the clinician can provide the best care possible.
- Incorporate the patient's risk factors, which include current medical status, dental and periodontal considerations and overall patient history.
- Learn how to use salivary diagnostics in the prevention and treatment of periodontal disease, including the use of chairside testing for the presence of diabetes, c-reactive protein and other biomarkers that play a role in periodontal disease.
- Understand the unique relationship between oral and systemic conditions with emphasis on the inflammatory process.
- Develop an understanding of the role ultrasonic instrumentation plays in the delivery of successful preventive and therapeutic debridement through an examination of the current evidence-based research.

Presented in part with an educational grant from DENTSPLY Professional.

AGD Subject Code: 495

Current Concepts in Minimally Invasive Dentistry

Ron Kaminer, DDS

D,A,H	9:00 a.m.-12:00 p.m.
\$10	Course #F39

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand predictable early caries diagnosis.
- Learn about simplified posterior esthetic dentistry.
- Learn how to predictably eliminate white spots.
- Understand dental lasers and their implementation into everyday practice.
- Identify the myths and truths behind new restorative materials.

Presented in part with an educational grant from Air Techniques, Doca Dental, Shofu Dental Corporation, and Voco America, Inc.

AGD Subject Code: 250/780

Out with the Old, In with the New: A Crash Course on State-of-the-Art Dentistry

Ron Kaminer, DDS

D,A,H	2:00-5:00 p.m.
\$10	Course #F62

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Explore the etiology and predictable treatment of dental caries.
- Evaluate tooth whitening – great results every time.
- Learn about simplified posterior restorative dentistry.
- Dental lasers – truth or hype?
- Gain knowledge of a simplified appliance to treat burning and headaches.

Presented in part with an educational grant from Air Techniques, Doca Dental, Shofu Dental Corporation and Voco America, Inc.

AGD Subject Code: 250

Set Your Practice on Fire! Increasing Production in a Changing Profession

Roger Levin, DDS

ALL	8:30-11:30 a.m.
FREE	Course #F27

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Learn how to continually increase production and reach challenging targets.
- Identify ways to increase profit.
- Identify ways to increase patient referrals.
- Learn how to continually reduce stress.

AGD Subject Code: 550

Build Your Ideal Practice and Dream Team: The Blueprint to a Highly Productive Practice and Happy Staff

Roger Levin, DDS

ALL	1:30-4:30 p.m.
FREE	Course #F53

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Increase hygienist and doctor production.
- Grow the practice 20% or more.
- Build a world-class team using proven systems.
- Enjoy an exciting, low-stress practice environment.

AGD Subject Code: 550

Implant Dentistry: Enhancing Diagnosis, Case Acceptance and Restorative Outcomes Using the Latest Technology

David Little, DDS

D,A,H	8:30-11:30 a.m.
\$10	Course #F28

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand the diagnosis and treatment planning using CBCT and planning software.
- Learn case acceptance techniques and how to attract implant patients.
- Utilize restorative techniques including immediate provisionalization and impressions.

Presented in part with an educational grant from DENTSPLY Tulsa Dental Specialties.

AGD Subject Code: 690

Implant Dentistry: Enhancing Diagnosis, Case Acceptance and Restorative Outcomes Using the Latest Technology Workshop

David Little, DDS

D	1:30-4:30 p.m.
\$145	Course #F13

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand diagnosis and treatment planning on implant edentulous patient, including CT scans, surgical guides and esthetic tooth selection.
- Learn about impression techniques, proper abutment and attachment selection, and how to pick implant overdenture attachments intraorally.
- Discover how to present options to patients and determine a fair fee for the implant overdenture case.

Presented in part with an educational grant from DENTSPLY Tulsa Dental Specialties.

AGD Subject Code: 690

Removable Prosthodontics Updated: A Foundation for Dentures and Implant Retained Overdentures

Joseph Massad, DDS

D,A,T	8:00-11:00 a.m.
\$10	Course #F18

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn impression making for the total/partial edentulous, dentate, immediate, and implant retained overdenture patients.
- Make a physiological centric relation record for the full mouth restorative patient in five minutes.
- Differentiate between indications for bar, stud and fixed implant attachments.

AGD Subject Code: 670/690

Implant Overdenture Methods Update to Avoid Problems of the Past Workshop

Joseph Massad, DDS

D,A,T	1:00-4:00 p.m.
\$225*	Course #F09

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn how to apply the latest impressioning concepts to most prosthetic therapies.
- Utilize a gothic arch tracing device to capture the occlusal record for various dental scenarios, including immediate and implant overdentures.
- Make final impressions from complete edentulous to multiple implant restorations for absolute accuracy.
- Instantly create an anterior esthetic tooth setup at chairside.

Attendees are encouraged to bring a lab jacket or apron.

AGD Subject Code: 670/690

Making Tough Esthetic Provisionals Easy

Mary Mellard, DDS

D,A	8:30-11:30 a.m.
\$10	Course #F29

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Assess the esthetic requirements of the patient.
- Establish laboratory communications.
- Gain knowledge for troubleshooting provisionals.
- Develop verbal skills for communicating instructions to the patient.

AGD Subject Code: 250

Making Tough Esthetic Provisionals Easy Workshop

Mary Mellard, DDS

D,A	1:30-4:30 p.m.
\$125*	Course #F14

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Become familiar with steps required to create the esthetic provisional.
- Gain knowledge of materials and equipment to use in the creation of the esthetic provisional.
- Understand common problems and their correction.

Attendee should bring loupes (if desired.)

AGD Subject Code: 250

"The Rocky Horror Implant Show": Cone Beam CT for Dental Implants

Dale Miles, DDS, MS

D,A,H	8:00-11:00 a.m.
\$10	Course #F19

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand the principles of CBCT.
- Identify more precisely selected presurgical implant sites.
- Understand the role CBCT can play in implant planning.
- Observe demonstrations of powerful 3-D software.
- Understand the potential liability of NOT using cone beam scans.

AGD Subject Code: 165

Radiographic Signs of Significant Systemic Diseases

Dale Miles, DDS, MS

D,A,H	1:00-4:00 p.m.
\$10	Course #F47

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Recognize key radiographic features of common but significant medical problems.
- Identify clinical and radiographic features of these problems.
- Learn how Cone Beam CT (CBCT) can improve disease feature detection.

AGD Subject Code: 165

Improving Case Acceptance: Moving Beyond Insurance Entitlement

Mark Murphy, DDS

ALL	1:30-4:30 p.m.
FREE	Course #F54

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Educate patients about the true role of dental insurance.
- Evaluate the financial impact of participation and PPO discounting on your practice.
- Measure, monitor and manage case acceptance in the practice.
- Develop a more co-discovery, curiosity-inducing new patient examination experience.
- Strengthen your verbal skills and develop your own personalized scripts that support better patient education and choice.

AGD Subject Code: 550

Real World Endo® presents: New Horizons in Endodontics Workshop

Allen Ali Nasseh, DDS, MMSc

D	8:00-11:00 a.m.
\$145*	Course #F04

CE Hours: 3 technical and/or scientific

Thursday Course #T14 and #T36 are recommended, but not mandatory to attend this workshop.

LEARNING OBJECTIVES

- Create straight-line access with the aid of the BRO orifice shaper, and improve all aspects of root canal access with piezo ultrasonic technology.
- Learn how to machine the root canal space and be able to apply Synchronized Hydraulic obturation.
- Discover and overcome limitations of NiTi rotary instruments in complicated anatomy cases like apical curvatures, bifurcations and canal isthmus.

Attendees are encouraged to bring two (2) to four (4) accessed, extracted teeth.

Thanks to Brasseler USA for providing supplies and equipment for this workshop.

AGD Subject Code: 070

Ageless Performance: Become Drop Dead Healthy!

Uche Odiatu, DMD

ALL	8:00-11:00 a.m.
\$10	Course #F20

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- FORTIFY your body with the TOP age-defying FOODS for an empowered clinic day.
- MASTER your day with practical ergonomics to improve your posture and tone muscle.
- DISCOVER the TEN exercises you must MASTER to turn back the hands of time.
- BECOME your patient's best role model for OPTIMAL HEALTHY living.
- LEARN the TOP herbal and performance supplements your patients are taking.

AGD Subject Code: 150

Oral-Systemic Dynamics: The Value-Added Practice

Uche Odiatu, DMD

ALL	1:00-4:00 p.m.
\$10	Course #F48

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn about the latest science on the link between systemic disorders and oral health.
- Identify seven KEY foods and lifestyle habits that contribute to inflammation and disease.
- Understand why many patients don't respond well to your hygiene programs.
- Learn how oral health relates to Alzheimer's, diabetes, heart disease, COPD and cancer.
- Rally your entire team around a common goal and boost office morale and production.

AGD Subject Code: 150/750

The Impact of Mouth Breathing on Oral and General Health

Trisha O'Hehir, RDH, MS

D,H	8:30-11:30 a.m.
\$10	Course #F30

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand oxygen absorption differences between nasal and mouth breathing.
- Identify early habits that lead to mouth breathing.
- Understand tongue function and the impact of ankyloglossia.
- Learn how to screen patients for correct resting tongue posture.

AGD Subject Code: 730

Achieve Health in 5mm Bleeding Pockets

Trisha O'Hehir, RDH

D,H	1:30-4:30 p.m.
\$10	Course #F55

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Review research rationale for periodontal instrumentation.
- Observe a radical change in instrument design and treatment approaches.
- Learn to read the tissues to determine the presence of subgingival calculus and biofilm.
- Understand approaches beyond "brush, floss and fluoride" to effectively control biofilm.

AGD Subject Code: 495

Successful Endodontics for General Dentists

Ove Peters, DMD, MS, PhD

D,A	8:00-11:00 a.m.
\$10	Course #F21

CE Hours: 3 technical and/or scientific

This lecture is recommended but not mandatory to attend workshop course #F10.

LEARNING OBJECTIVES

- Recount the biological background for endodontic procedures including stem cell based regenerative endodontics.
- Describe new technologies in endodontics and select which of these is applicable to the generalist and specialist practice.
- List identifiable steps in a best practice approach for clinical endodontics.
- Understand endodontic outcomes and suggest to patients the most applicable treatment strategies.

Presented in part with an educational grant from DENTSPLY Tulsa Dental Specialties.

AGD Subject Code: 070

WaveOne®: From Shape to Fill Workshop

Ove Peters, DMD, MS, PhD

D	1:00-4:00 p.m.
\$145*	Course #F10

CE Hours: 3 technical and/or scientific

Course #F21 is recommended, but not mandatory to attend this workshop.

LEARNING OBJECTIVES

- Learn to use the reciprocating WaveOne® instrument effectively.
- Learn how to work within the limitations of the system.
- Explore how to effectively fill root canals once prepared with WaveOne®.

Attendees should bring 4-5 extracted teeth.

Thanks to DENTSPLY Tulsa Dental Specialties for providing supplies and equipment for this workshop.

AGD Subject Code: 070

New! Dental Billing and Coding Dynamics!

Laci Phillips

ALL	9:00 a.m.-12:00 p.m.
FREE	Course #F40

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Discover the hidden tools in your software to effectively work with insurance companies.
- Create reporting techniques to get your money faster and easier.
- Learn new charting and coding tools and identify progress notes vs. clinical notes.

AGD Subject Code: 554

Fashionably Late to the Social Media Party? Let's Get Your Dance Card Ready!

Laci Phillips

ALL	2:00-5:00 p.m.
FREE	Course #F63

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Learn the most effective social media networking sites.
- Gain the tools needed to build your own social media site.
- Create your campaign and learn how to implement it.

AGD Subject Code: 561

Floss or Die: Is Inflammation the Tie That Binds?

Mark Reynolds, DDS, PhD

D,A,H	8:30-11:30 a.m.
\$10	Course #F31

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Review key inflammatory pathways implicated in periodontitis and other chronic diseases.
- Understand evidence linking periodontal diseases to systemic conditions.
- Develop practice recommendations based on available evidence.

AGD Subject Code: 490

Clinical Advances in Bone and Periodontal Regeneration

Mark Reynolds, DDS, PhD

D,A,H	1:30-4:30 p.m.
\$10	Course #F56

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Discover the different types of regenerative techniques and materials.
- Understand the role of clinical parameters important for the selection of regenerative approaches.
- Recognize strategies to avoid complications common to different regenerative approaches.
- Describe clinical expectations of outcome based on recent evidence-based reviews.

AGD Subject Code: 490

"Global Diagnosis" – A New Vision of Dental Diagnosis and Treatment Planning

J. William Robbins, DDS

D,A,H	8:00-11:00 a.m.
\$10	Course #F22

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Become familiar with four global diagnoses.
- Understand the "5 CORE Questions" with their corresponding treatment options.
- Learn how to complete a global diagnosis form that will lead to a comprehensive diagnosis.
- Learn how to communicate with the interdisciplinary team.

AGD Subject Code: 250

The 6 Tools: Putting the Teeth in the Middle of the Smile

J. William Robbins, DDS

D,A,H	1:00-4:00 p.m.
\$10	Course #F49

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn how to diagnose the need for both functional and esthetic crown lengthening surgery.
- Prescribe orthodontic intrusion and extrusion.
- Explore indications for connective tissue grafting.

AGD Subject Code: 250

Ouch, That Hurts! Assessing and Treating Dental Emergencies in Children

David Rothman, DDS

D,A,H	8:30-11:30 a.m.
\$10	Course #F32

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Develop a protocol for screening and triaging emergencies.
- Review the current protocols for treating dental fractures and traumatized teeth.
- Learn to treat and identify concurrent soft tissue injuries.
- Provide follow-up care on an emergency appropriate to the patient's needs.

AGD Subject Code: 430

Creating Indirect Restoration Excellence from A to Z

Sam Simos, DDS

D,A,H	8:30-11:30 a.m.
\$10	Course #F33

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand why optimal prep design dictates desirable outcomes.
- Learn the latest in impression technologies and techniques that simplify the process and ensures exceptional result.
- Master the five minute master temporary technique. So easy and predictable, even the receptionist can do it!
- Learn how to adhere to different substrates: enamel/dentin, zirconia, metal, lithium disilicate and feldspathic porcelain.
- Learn the evidence-based protocols to successful adhesion.

Presented in part with an educational grant from DENTSPLY Caulk.

AGD Subject Code: 250/780

Adhesion: Making Your Best Better

Sam Simos, DDS

D,A,H	1:30-4:30 p.m.
\$10	Course #F57

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand why to adhere when given the option.
- Discover why indirect self-cure mechanisms rule in indirect dentistry.
- Learn the importance of dual cure systems in less light accessible areas.
- Learn how to adhere to different substrates: enamel/dentin, zirconia, metal, lithium disilicate and feldspathic porcelain.
- Learn the evidence-based protocols to successful adhesion.

Presented in part with an educational grant from DENTSPLY Caulk.

AGD Subject Code: 250/780

Oral Medicine Update: A Field Guide for the Oral Health Care Professional

Thomas Sollecito, DMD

D,A,H	8:00-11:00 a.m.
\$10	Course #F23

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Evaluate the oral cavity and diagnose common oral mucosal diseases.
- Understand the relationship between systemic disease and its oral manifestations.
- Understand how to manage those oral conditions with the latest therapeutics.
- Learn how to counsel your patients regarding their oral condition.

AGD Subject Code: 730

Oral Manifestations of Systemic Disease

Thomas Sollecito, DMD

D,A,H	1:00-4:00 p.m.
\$10	Course #F50

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Identify various oral conditions observed as a manifestation of systemic disease.
- Identify conditions that require further evaluation and possibly require referral to a specialist.
- Understand treatment for those oral conditions associated with systemic disease.

AGD Subject Code: 730

The Keys to Excellence in Restorative Dentistry: Ideal Preparations and Exquisite Provisionalization

Dale Sorenson, DDS

D,A,H	1:00-4:00 p.m.
\$10	Course #F51

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Review principles of ideal tooth preparations from a mechanical and physiological perspective.
- Understand systematic rationale and step-by-step protocol for achieving predictable and consistent preparations.
- Become familiar with the multifaceted scope of provisionalization in the restorative process.
- Discover proper provisional design to enhance soft tissue management and create ideal papilla development.

AGD Subject Code: 250

Commonly Prescribed Medications and Managing the Oral Side Effects of Medicine Use

Ann Eshenaur Spolarich, RDH, PhD

D,A,H	8:30-11:30 a.m.
\$10	Course #F34

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Identify and discuss commonly prescribed medications taken by clients treated in the oral health care setting.
- Identify common drug interactions of significance to dental professionals.
- Review several new dental drugs and their indications for use in practice.
- Manage oral side effects caused by medications.

Presented in part with an educational grant from Colgate Oral Pharmaceuticals.

AGD Subject Code: 016

Pharmacologic and Dental Treatment Considerations for the Patient with Respiratory Disease

Ann Eshenaur Spolarich, RDH, PhD

D,A,H	1:30-4:30 p.m.
\$10	Course #F58

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Explore the etiology and risk factors for asthma, emphysema, bronchitis, lung cancer and seasonal allergies.
- Review oral side effects and other adverse events associated with major medication classes used to treat these diseases.
- Understand the oral systemic relationships between respiratory disease and oral health.
- Identify modifications necessary to safely treat patients with respiratory disease.

Presented in part with an educational grant from Colgate Oral Pharmaceuticals.

AGD Subject Code: 016

Fundamentals of Studio Lighting Workshop (repeat)

Bernie Villadiego, DDS

ALL	8:30-11:30 a.m.
\$95*	Course #F07

CE Hours: 3 technical and/or scientific

Course #T18 is a prerequisite for this workshop.

See Thursday for learning objectives.

Attendees are encouraged to bring their DSLR camera, 100 mm macro dental lens, memory cards and batteries to this workshop.

Thanks to PhotoMed International for providing equipment for this workshop.

AGD Subject Code: 138

Custom Direct Composite Restorations Workshop (repeat)

Charles Wakefield, DDS

D	8:00-11:00 a.m.
\$145*	Course #F05

CE Hours: 3 technical and/or scientific

See Thursday for learning objectives.

Attendees should bring eye protection.

Thanks to Garrison Dental Solutions, Hu-Friedy Mfg. Co., LLC and Kerr Corporation for providing supplies and equipment for this workshop.

AGD Subject Code: 250

Restorative Materials: What, Where, When and How

Charles Wakefield, DDS

D,A	1:30-4:30 p.m.
\$10	Course #F59

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Select adhesives for varying clinical situations.
- Learn the criteria for the use of microfill, hybrid and nanofilled composites.
- Understand the use of glass ionomers and resin modified glass ionomers as liners, restoratives and luting agents.
- Identify available bleaching options.
- Understand direct pulp capping and biocompatibility of materials.
- Explore esthetic alternatives with many direct and indirect materials.

AGD Subject Code: 017/250

"Some Days You're the Pigeon...Some Days, the Statue" – Part I

Dave Weber

ALL	9:00 a.m.-12:00 p.m.
FREE	Course #F41

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Discover the six most powerful words in the English language and when to use them.
- Learn the secret to bringing out the best in the people we work with and patients we serve.
- Develop a proven process for drawing people closer.

AGD Subject Code: 550

"Some Days You're the Pigeon...Some Days, the Statue" – Part II

Dave Weber

ALL	2:00-5:00 p.m.
FREE	Course #F64

CE Hours: 3 nontechnical

See Part I for learning objectives.

AGD Subject Code: 550

The Exceptional Dental Team: Advocates for Total Health and Gatekeepers of Systemic Inflammation

DeWitt Wilkerson III, DMD

ALL	9:00 a.m.-12:00 p.m.
\$10	Course #F42

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Develop a screening process and management protocol for obstructive sleep apnea.
- Learn nutritional principles and practices that can be implemented by the total wellness dental team.
- Learn about strategies for developing programs related to smoking cessation, physical activity and stress reduction.
- Incorporate a screening process and management protocol for oral pathogens and systemic inflammation.

AGD Subject Code: 150/730

Treating Masticatory System Disorders with Occlusal Splints

DeWitt Wilkerson III, DMD

D,A	2:00-5:00 p.m.
\$10	Course #F65

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Identify the basic categories of masticatory system problems.
- Identify the appropriate use of occlusal splints for each problem.
- Develop a simple protocol for the use of occlusal splints.
- Understand how to evaluate successful outcomes in daily practices.

AGD Subject Code: 180

Infection Control in Practice

Jessica Wilson

ALL	9:00 a.m.-12:00 p.m.
\$10	Course #F43

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Review infection control principles pertaining to sterilization and disinfection of patient care items.
- Implement proper steps of instrument processing for patient safety.
- Learn to optimize dental unit water line quality in accordance with CDC Guidelines.
- Understand technologies and treatments available to achieve recommended water quality level.
- Learn how to apply standard precautions and safety regulations in accordance with CDC Guidelines.

Presented in part with an educational grant from Hu-Friedy Mfg. Co., LLC.

AGD Subject Code: 148

Introduction to Forensic Dentistry

James Wood, DDS

ALL	8:00-11:00 a.m.
\$10	Course #F24

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn about evidence collection protocols for forensic dentistry.
- Understand the forensic value of dental records in forensic dentistry.
- Understand the importance of cooperation with the legal system in forensic cases.
- Become familiar with the role of the dental team in forensic casework.

AGD Subject Code: 145

Dental Response to Mass Disasters

James Wood, DDS

ALL	1:00-4:00 p.m.
\$10	Course #F52

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand the forensic dentist's role and team approach for mass fatality incidents.
- Learn about forensic dental identification protocols for mass fatality incidents.
- Understand infection control in mass disasters.
- Become familiar with technology advances and their impact on mass disaster management.
- Learn about opportunities for dental personnel to become involved in mass disaster responses.

AGD Subject Code: 145

Basic Life Support for Healthcare Providers (CPR)

Christopher Zak

ALL	1:00-5:00 p.m.
\$65*	Course #F11

CE Hours: 4 nontechnical

LEARNING OBJECTIVES

- Provide effective CPR for adult, child and infant victims.
- Operate an AED safely and effectively.
- Provide assistance for a choking victim.
- Provide rescue breathing for a victim of respiratory arrest.

Upon completion of this workshop attendees will receive an American Heart Association CPR card.

It is recommended that attendees have a current (2010) version of the American Heart Association's Basic Life Support (BLS) for Health Care Providers Student Manual (Can be ordered online: Item #90-1038).

Co-sponsored by the Dallas County Dental Assistants Society.

AGD Subject Code: 142

2015 SWDC REMINDERS

- Register early to save time and money. Remember, registration fees increase after the preregistration deadline and again on-site.
- Be sure to add the classes you would like to attend when completing your registration. All classes require a ticket and some clinicians will sell out quickly.
- Double-check your email address when you register! You must have a valid email to receive access to handouts and other important information.
- Make your hotel reservation early to guarantee accommodations at the luxurious Omni Dallas Hotel connected to the Convention Center.
- Gather your team and make plans to attend the STAR BASH Thursday evening, from 6:00-8:00 p.m. at the Omni Dallas Hotel.

Saturday, August 8

HIGHLIGHTS

Treating Medical Emergencies in the Dental Office: For the Entire Team Workshop

8:00-11:00 a.m.

Robert Edwab, DDS

Head and Neck Anatomy with Dissection Workshop

8:00-11:00 a.m. and 12:30-3:30 p.m. (all day)

Henry Gremillion, DDS

Behavior Management Strategies in Pediatric Dentistry with Special Consideration for Protective Stabilization

8:00 a.m.-12:00 p.m. and 1:00-5:00 p.m. (all day)

Alton McWhorter, DDS, MS; Carolyn Kerins, DDS;

Susan McGuire, DDS and Kathleen Pace, DDS

COMPLIANCE CE EXPRESS

8:30-11:30 a.m.

Stark Raving Crazy: Dangers of Synthetic Drugs' Impact on Your Practice

1:30-4:30 p.m.

Patrick Sammon, PhD

Introduction to Sleep Medicine for the Dental Practice: Clinical Skills Workshop

Steven Bender, DDS

Paul McLornan, DDS, MS

D,A,H,T	8:00-11:00 a.m. and 1:00-4:00 p.m. (all day)
Fee included w/ #F44*	Course #S06

CE Hours: 6 technical and/or scientific

Upon completion of this **two-day course**, which includes courses #F44 and workshop course #S06, attendee will fulfill the Texas State Board of Dental Examiners' requirement for 12 hours of minimum basic education in sleep-disordered breathing (a combination of didactic and clinical education).

LEARNING OBJECTIVES

- Evaluate and manage TMDs that may occur with oral appliance therapy.
- Incorporate sleep into your practice.
- Take a good protrusive bite registration.
- Deliver and adjust a TAP® mandibular advancement appliance.
- Fabricate a morning repositioning device.
- Deliver an immediate chaired mandibular advancement appliance.

Attendees **must** bring a TAP® appliance to this workshop.

Airway Management has agreed to provide a TAP® appliance at a special discounted rate for attendees signed up for the workshop. Upon registering for the workshop, information will be sent regarding ordering the appliance from Airway Management. The appliance will be delivered to the workshop.

AGD Subject Code: 160

Lasers in Dentistry: Come and See the Light Workshop (repeat)

Donald Coluzzi, DDS

D,H	8:00-11:00 a.m.
\$175*	Course #S02

CE Hours: 3 technical and/or scientific

Course #F26 is a prerequisite for this workshop.

See Friday for learning objectives.

Attendees should bring loupes (if desired).

Thanks to DenMat for providing supplies and equipment for this workshop.

AGD Subject Code: 260

DISCLAIMER: This course will present information on the various uses of lasers in a dental practice. Attendees should refer to the specific legal guidelines for laser use in the state in which they are licensed.

Compliance CE Express

ALL	8:30-11:30 a.m.

Treating Medical Emergencies in the Dental Office: For the Entire Team Workshop

Robert Edwab, DDS

D,A,H	8:00-11:00 a.m.
\$95	Course #S03

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Administer emergency drugs and proper dosages.
- Become familiar with who to treat and who needs a medical consultation.
- Identify patients in medical distress.
- Understand maximum dosages of local anesthetics to avoid an overdose.
- Learn what drugs are needed in a medical emergency and how to inject them.
- Learn how to construct your own medical emergency drug kit.

AGD Subject Code: 142

Oral Surgery for the General Practitioner Workshop

Robert Edwab, DDS

D	1:00-4:00 p.m.
\$175	Course #S10

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Select the proper instruments for common oral surgical procedures.
- Review various suturing techniques.
- Learn optimal extraction techniques.
- Learn how to surgically remove a frenum as well as excisional biopsy techniques.

AGD Subject Code: 310

Patient Management, Diagnosis and Treatment Planning for Esthetics and Function

Jimmy Eubank, DDS

D,A,H	8:00-11:00 a.m.
\$10	Course #S13

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Develop a patient management system that allows the patient to SEE the truth of their oral condition and results in the patient saying "yes" to treatment.
- Understand why esthetics are the beginning place in treatment planning and how to treat a wear case when the patient wants esthetic improvement.
- Recognize HIGH-RISK patients and identify the ones you should not treat.
- Understand sequence and phase treatment to spread out the cost.
- Discover four considerations that will determine the best occlusal orthotic and how the "E Appliance" works.

AGD Subject Code: 250/780

Smile Design: Composite or Porcelain for Superior Esthetics

Jimmy Eubank, DDS

D,A,H	1:00-4:00 p.m.
\$10	Course #S24

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn about a smile design system that will ensure the best esthetics for each patient.
- Be familiar with what photos to take and what they tell you about treatment.
- Discover how to use an in-the-mouth mock-up, transitional bonding and prototypes to exceed patients' expectations and for clear laboratory communication.
- Understand when you should use porcelain or composite.
- Keep your esthetic restorations from breaking and know which occlusal splints work the best.
- Discover how to treatment plan incisal edge position, midline, incisal planes and tooth position.

AGD Subject Code: 250/780

Local Anesthesia – Technique, Anatomy and Physiology

Mic Falkel, DDS

D	8:30-11:30 a.m.
\$10	Course #S17

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Discover how to feel comfortable delivering local anesthesia by having a thorough review of head and neck anatomy.
- Learn about all dental block and infiltration injection techniques to achieve comfortable and effective anesthesia for all procedures.
- Understand how to decrease stress associated with delivering anesthetic for both the patient and the dental provider.

AGD Subject Code: 132

Buffering Anesthetic Hits its Stride

Mic Falkel, DDS

D	1:00-4:00 p.m.
\$10	Course #S25

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand the time course of local anesthesia as it relates to procedures in dentistry.
- Understand the role of pH and dissolved CO₂ in anesthetic performance.
- Learn how to manage anesthetic pH in order to achieve profound analgesia in patients with infected tissue.

AGD Subject Code: 132

Creative Practice Transitions

Lynne Gerlach, DDS

D,S	9:00 a.m.-12:00 p.m.
FREE	Course #S21

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Understand practice valuations.
- Gain knowledge of exit strategies.
- Develop transition goals.
- Learn about current market conditions.
- Understand keys to success.

AGD Subject Code: 556

Getting Started with "All-on-4"

Marshal Goldberg, DDS, MS

D,A,T	8:30-11:30 a.m.
\$10	Course #S18

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Select a good case for learning the "All-on-4" technique.
- Establish what the fixed provisional prosthesis looks like for "All-on-4."
- Understand the planning that goes into seamless surgical and restorative procedures.
- Learn the basics of the final fixed hybrid prosthesis.
- Identify the roles of the inter-disciplinary team members in delivering a quality result.
- Determine a fair fee for your restorative services.

AGD Subject Code: 610/690

Getting Started with "All-on-4" Workshop

Marshal Goldberg, DDS, MS

D,A,T	1:00-4:00 p.m.
\$145*	Course #S11

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn how to prepare a denture to become a fixed provisional prosthesis.
- Use the denture to take an impression of the four implants.
- Learn to convert the denture into the provisional prosthesis.
- Attach the provisional prosthesis to the implants and take the impression for the final prosthesis.
- Establish the chairside role of the laboratory technician.
- Facilitate delivery of the final fixed hybrid prosthesis.

Attendees may bring magnifying loupes (if desired).

AGD Subject Code: 610/690

Head and Neck Anatomy with Dissection Workshop

Henry Gremillion, DDS

D	8:00-11:00 a.m. and 12:30-3:30 p.m. (all day)
\$425*	Course #S04

CE Hours: 6 technical and/or scientific

LEARNING OBJECTIVES

- Gain knowledge of dissection of the oral cavity with special attention to key relationships in the floor of the mouth.
- Learn how to assess the face and superficial structures to include the muscles of facial expression and masticatory musculature.
- Understand anatomical dissection of the temporomandibular joint.
- Gain an understanding about anatomical factors associated with orofacial pain.

Attendees are encouraged to bring an anatomy atlas, protective eyewear, magnifying eye wear (if desired), clinic/laboratory jacket and preferred dissection instruments (optional).

AGD Subject Code: 180

The Placement and Recontouring of Anterior Provisional Restorations: Tips and Tricks for Esthetic Success

Kenneth Hamlett, DDS

D,A,T	8:00-11:00 a.m.
\$10	Course #S14

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand the components of the face and how they correlate to the fundamentals of smile design.
- Determine which areas of the smile require recontouring and why.
- Learn how provisional restorations can be used to ensure esthetic and functional treatment success.
- Learn how to turn an average provisional into an esthetic masterpiece.

AGD Subject Code: 250

How to Create Beautiful Anterior Provisionals for Your Esthetic Patients Workshop

Kenneth Hamlett, DDS

D,A,T	12:30-3:30 p.m.
\$145*	Course #S09

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn how to fabricate provisionals on models.
- Determine the appropriate instruments for recontouring provisionals.
- Understand what is needed to duplicate the final temporary information to the laboratory to achieve success.

Attendees are encouraged to bring loupes.

Thanks to Brasseler USA, CDS Dental Studio, Inc. and Cosmedent, Inc. for providing supplies and equipment for this workshop.

AGD Subject Code: 250

Analyze Your Practice

Roger Levin, DDS

ALL	9:00 a.m.-12:00 p.m.
FREE	Course #S22

CE Hours: 3 nontechnical

LEARNING OBJECTIVES

- Learn how a business analysis can show dentists how to increase efficiency and production.
- Use practice data to make better decisions about how to grow the practice.
- Develop new practice management skills.
- Create a business culture in the practice.

AGD Subject Code: 550

Preventing Prosthetic Complications in the Implant Patient – Part I

Will Martin, DMD, MS

D,A,H	8:00-11:00 a.m.
\$10	Course #S15

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Establish the difference between peri-implant mucocitis and peri-implantitis.
- Understand the role of excess cement in implant failure and how to prevent this problem.
- Discover the possible role of corrosion in implant failure.
- Learn how to prevent most implant failures from happening.

Presented in part with an educational grant from Straumann USA, LLC.

AGD Subject Code: 690

Managing Prosthetic and Surgical Complications in the Implant Patient – Part II

Will Martin, DMD, MS

Thomas Wilson, DDS

D,A,H	1:00-4:00 p.m.
\$10	Course #S26

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Diagnose a failing implant.
- Understand the difference between peri-implant mucocitis and peri-implantitis.
- Understand the role of excess cement in implant failure and how to prevent this problem.
- Become familiar with the role corrosion may play in implant failure.
- Understand techniques to manage worn Locator® abutments and bars.
- Learn about troubleshooting material wear and fracture.
- Manage abutment screw fracture, stripping and loosening.

Presented in part with an educational grant from Straumann USA, LLC.
AGD Subject Code: 690

Implant Overdenture Methods Update to Avoid Problems of the Past Workshop (repeat)

Joseph Massad, DDS

D,A,T	8:30-11:30 a.m.
\$225*	Course #S08

CE Hours: 3 technical and/or scientific

See Friday for learning objectives.

Attendees are encouraged to bring a lab jacket or apron.

AGD Subject Code: 670/690

Behavior Management Strategies in Pediatric Dentistry with Special Consideration for Protective Stabilization

Alton McWhorter, DDS, MS

Carolyn Kerins, DDS

Susan McGuire, DDS

Kathleen Pace, DDS

D,A,H	8:00 a.m.-12:00 p.m. and 1:00-5:00 p.m. (all day)
\$125	Course #S07

CE Hours: 8 technical and/or scientific

This eight (8) hour clinical and didactic course, "Behavior Management Strategies in Pediatric Dentistry with Special Consideration for Protective Stabilization," meets the Texas State Board of Dental Examiners' (TSBDE) continuing education training requirement for a dentist to use protective stabilization. TSBDE rule 22 Texas Administrative Code §108.14 Pediatric and Special Needs Case Management; Protective Stabilization requires dentists that did not receive advanced training through either an accredited post-doctoral program or pediatric dentistry residency program providing clinical and didactic education in advanced behavior management techniques to complete at least eight (8) hours of clinical and didactic coursework in advanced behavior management.

COURSE OUTLINE

- Behavior/personality/temperament/children/development parenting styles
- Modalities of behavior management/the spectrum
- Protective stabilization, restraint and the AAPD guidelines
- Review of the TX Dental practice code, consent, and assent
- Hands-on demonstrations
- Cases/review/quiz

LEARNING OBJECTIVES

- Explore scientific evidence behind the indications and application of commonly used behavior guidance strategies.
- Understand the application of basic and advanced behavior guidance modalities in the context of today's parental and societal expectations and limitations.
- Understand the objectives, indications, contraindications, and precautions for the various modalities of protective stabilization with special consideration of the AAPD protective stabilization guidelines.
- Learn to safely apply protective stabilization or assist with its use in those patients and situations where it is indicated.
- Benefit from the hands-on demonstrations of the proper use of stabilization devices available to the dental team.

AGD Subject Code: 430

The Agony and the Ecstasy of Cone Beam Imaging

Dale Miles, DDS, MS

D,A,H	8:30-11:30 a.m.
\$10	Course #S19

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Understand the principles of CBCT.
- Learn how to visualize lesions more precisely.
- Develop precise presurgical planning.
- Understand the role CBCT will play in your practice.

AGD Subject Code: 165

Work-Life Balance: Mental Detox for the Dental Professional

Uche Odiatu, DMD

ALL	8:30-11:30 a.m.
\$10	Course #S20

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- UNDERSTAND the value of seven hours of sleep and the top 12 ways to get it.
- Discover the mind/body connection through visualization and relaxation exercises.
- MAKE the connection between your patients' ORAL HEALTH and STRESS.
- END food cravings brought on by stress and stop staff room baking binges.
- CREATE a personal blueprint for lifelong optimal health.

AGD Subject Code: 150/770

Oral Medicine: Puzzling Conditions in Complicated Patients

Jacqueline Plemons, DDS, MS

D,A,H	8:00-11:00 a.m.
\$10	Course #S16

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn how to perform a comprehensive examination of the head and neck.
- Recognize common oral lesions affecting the oral cavity.
- Develop initial treatment strategies to manage oral medicine patients.
- Become familiar with oral lesions that place patients at greater risk for oral cancer.

AGD Subject Code: 730

Periodontal Diseases and Women's Health: What's in Your Future?

Jacqueline Plemons, DDS, MS

ALL	1:00-4:00 p.m.
\$10	Course #S27

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn periodontal challenges of women throughout a lifetime.
- Recognize periodontal changes associated with puberty, pregnancy and menopause.
- Understand potential oral changes associated with osteoporosis and its treatment.

AGD Subject Code: 490/770

Prescription Drug Abuse, Addictive Disorders and Prescription Monitoring Programs

Patrick Sammon, PhD

ALL	9:00 a.m.-12:00 p.m.
\$10	Course #S23

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn how drug abuse can lead to addiction and drug-seeking behavior.
- Understand clinical problems associated with narcotic painkillers and over-the-counter drugs of abuse.
- Review signs, symptoms and behavioral problems associated with the abuse of prescription drugs.
- Learn how to spot and deal with patients attempting to obtain and divert prescription drugs.
- Discover the advantages of using prescription drug electronic reports in patient management.

AGD Subject Code: 016

Stark Raving Crazy: Dangers of Synthetic Drugs' Impact on Your Practice

Patrick Sammon, PhD

ALL	1:30-4:30 p.m.
\$10	Course #S29

CE Hours: 3 technical and/or scientific

LEARNING OBJECTIVES

- Learn how synthetic drug use can affect behaviors and how this can lead to drug abuse and addiction.
- Review clinical problems associated with the use and abuse of synthetic drugs.
- Learn the signs, symptoms and oral health problems associated with the use of these popular drugs of abuse.
- Identify ways to incorporate screening instruments to effectively identify drug using patients.
- Identify risk/resiliency techniques for brief intervention strategies and how to apply these in your practice.

AGD Subject Code: 016

The Exceptional Dental Team: Advocates for Total Health and Gatekeepers of Systemic Inflammation (repeat)

DeWitt Wilkerson III, DMD

D,A	1:00-4:00 p.m.
\$10	Course #S28

CE Hours: 3 technical and/or scientific

See Friday for learning objectives.

AGD Subject Code: 150/730

Basic Life Support for Health Care Providers (CPR) (repeat)

Christopher Zak

ALL	8:00 a.m.-12:00 p.m. repeating 1:00-5:00 p.m.
\$65*	AM Course #S05 PM Course #S12

CE Hours: 4 nontechnical

See Friday for learning objectives.

Upon completion of this workshop attendees will receive an American Heart Association CPR card.

It is recommended that attendees have a current (2010) version of the American Heart Association's Basic Life Support (BLS) for Health Care Providers Student Manual (Can be ordered online: Item #90-1038).

Co-sponsored by the Dallas County Dental Assistants Society.

ACADEMY FOR SPORTS DENTISTRY SYMPOSIUM

Team Dentist Certification Course

August 6-8, 2015

(Held in conjunction with the SWDC at the Omni Dallas Hotel)

The team dentist has become an integral part of the modern high-level sports medicine team. It is imperative that any dentist who takes on the role of team dentist must be aware of how the modern sports medical team functions in addition to having the specialized dental skills and knowledge that he or she must bring to the team. This course is designed as an overview of the major areas for which the team dentist should be responsible. Dental readiness for the athlete to start and optimally compete, the ability to rapidly recognize and treat orofacial trauma, and the ability to prevent injuries with excellent mouth protection are the basic sections for any team dentist course. In addition, the course will feature two special hands-on workshops on mouthguard fabrication and intraoral suturing to enhance the didactic portion of the presentation. A session on the legal responsibilities of the team dentist at a variety of levels of competition will be included in the course. The team dentist course is sponsored by The Academy for Sports Dentistry. The Academy feels that any competent dentist can become a skilled team dentist but that the position of team dentist must only be undertaken by a dentist who has the tools needed to fulfill that role completely. This course provides dentists the resource to be prepared and proficient as a team dentist.

Caruth School of Dental Hygiene turns 60

A \$30,000 gift from W.W. Caruth Jr. to then Baylor University College of Dentistry provided equipment for the dental hygiene program that would bear the Caruth family name. The Caruth School of Dental Hygiene – one of about 20 in the nation at that time – admitted its first class of 32 students in 1955.

Today the Caruth School is still an integral part of the dental school, which is now Texas A&M University Baylor College of Dentistry. Graduating approximately 30 students each year, the Caruth School, which began as a certificate program, now awards bachelor's and master's degrees. Its alumni are renowned for their hand skills and professionalism and often find themselves in leadership positions within the profession and throughout their communities.

A celebratory luncheon will be held August 7, 2015, at the Omni Dallas Hotel during the Southwest Dental Conference.

The Dallas County Dental Society members and staff are delighted to honor the Caruth School of Dental Hygiene for its six decades of phenomenal service to the profession. Thank you and congratulations!
