Convenors' Welcome

The Congress returns with high quality concentrated content showcasing the world's best practice in plastic surgery. We have brought together an incredible international faculty, all of whom have been chosen because they are at the leading edge of our specialty.

Albert Losken has been the editor for textbooks on, "Advances in Abdominal Wall Reconstruction" (2012); "Accellular Dermal Matrices in Breast Surgery" (2010); and "New Techniques in Partial Breast Reconstruction: The Oncoplastic Approach" (2008). He has obvious extensive expertise in ADMs, radiation and expanders, cancer surveillance following fat grafting, partial and total breast reconstruction and abdominal wall reconstruction. Not to be missed.

Helmut Fischer is the European master of nasal and facial reconstruction. He is now professor and head of Plastic Surgery at the Marienhospital in Stuttgart, where he is the organiser of the first international nasal reconstruction congress. He will teach on all aspects of this critical topic as well as other areas of facial reconstruction and cosmetic surgery.

Mario Pello Ceravolo is President of the Italian Association of Aesthetic Plastic Surgery. He is Brazilian trained and honed his skills in the USA. He has 70 international papers on facial aesthetic surgery and is the rare aesthetic surgeon who bases what he does on a strong foundation of science and anatomy. He will give us invaluable insights into browlift, canthoplasty, periocular fat grafting, secondary blepharoplasties, zygomatic implants, nasal tip projection, nasolabial angle, the anterior neck and platysma bands, submandibular glands as well as his wealth of experience and tips in cosmetic breast surgery.

Apart from the stellar speakers outlined above, we anticipate a number of further international speakers running educational forums hosted by our sponsor partners. We are also anticipating a definitive master forum on ADMs. This will combined a myriad of international and local speakers where we can thrash out all aspects of this mushrooming field of products and indications, both for aesthetics and reconstruction. We will run a younger fellows forum, a laser safety workshop and a practice manager's course amongst other activities. There will be something for everyone.

We believe the congress in 2015 will be fantastic. It's only 2 days off work for the highest quality international meeting. We look forward to seeing you in Brisbane.

CONGRESS**

2015

04

I look forward to warmly welcoming you to our Australian Plastic Surgery Congress, 6-10 May 2015, in my hometown of Brisbane, the capital of Queensland.

Queensland's coastline is a paradise of one beautiful beach after another. Brisbane is a vibrant cosmopolitan city and gateway to ecotourism in tropical north Queensland and its World Heritage listed areas such as the Great Barrier Reef and Daintree Rainforest. If you haven't sampled Queensland then 2015 is your opportunity; if you're a return traveller then you'll know there's so much more to see.

Our meeting showcases the best of Plastic Surgery across the reconstructive and aesthetic spectrum of our work with the highest quality International and Australian faculty. The Australasian Foundation for Plastic Surgery (the Foundation) is an active participant in the Congress and will host the Foundation's BK Rank Lecture. This Congress is the culmination of comprehensive planning over the last two years and offers a great opportunity for all of us to update our knowledge, meet up with friends and colleagues, old and new, and enjoy each other's company. Our Convenors, Darrell Perkins and Mark Magnusson, have built a high quality scientific program preceded by practical workshops on 6th May. The presentations focus on the latest updates in technology, techniques and developments in plastic surgery. We also thank our sponsors and exhibitors for their support.

We hope to see you in Brisbane in May 2015.

Keynote Speakers

We are delighted to have the following International Keynote Speakers involved with the Congress:

Dr Helmut Fischer

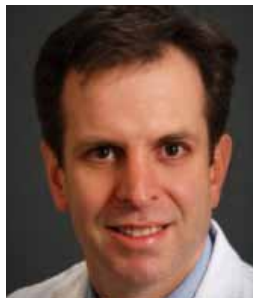

Dr Helmut Fischer is now Professor and Head of the Plastic Surgery Department at the Marienhospital, in Stuttgart Germany. His main areas of interest are nasal reconstruction and rhinoplasty along with reconstructive and aesthetic surgery of the eyelids, periorbital, ears, lips, face, forehead and brows.

Dr Fischer is the instigator and convenor of the first international Stuttgart nasal reconstruction congress to be held next year in conjunction with the legendary Stuttgart rhinoplasty course, of which he is also now the convenor.

Apart from being a master rhinoplasty and facial aesthetic surgeon, Wolfgang Gubisch described Helmut in regards to his expertise in nasal and facial reconstruction "he is to Europe what Burget and Menick are to the USA".

The convenor's note is that Helmut, like Wolfgang, is the quietly spoken, non self promoting master technician. He is by reputation an excellent teacher.

06

Dr Albert Losken

Dr Losken is certified by the American Board of Plastic Surgery and is the Hamm Professor of Surgery and Program Director in Emory University's Division of Plastic Surgery. He specialises in aesthetic and reconstructive breast surgery, facial rejuvenation and body contouring. Dr. Losken earned his medical degree at Harvard Medical School, where he graduated with the highest honors, and completed his general surgery and plastic surgery training at Emory University.

He is former chief of Plastic Surgery at the Atlanta VA Hospital and currently Chief at Children's Healthcare of Atlanta at Egleston. He is voted by peers as one of "Atlanta's Top Doctors" and has received "Teacher of the Year" award at Emory on numerous occasions. His contributions to the field include more than 100 scientific articles on all aspects of plastic surgery and numerous book chapters focusing on breast reconstruction.

Dr Mario Pelle Ceravolo

Dr Ceravolo is board certified in general and plastic surgery. He trained in Brazil with Prof. Pitanguy and in the United States for 8 years. He is the President of the International Medical Academy, a member of several international societies (ISAPS, American ASAPS, American ASPS), a Professor of plastic surgery at the University of Padova and San Marino, Italy, and was elected President of the Italian Association of Aesthetic Plastic Surgery.

Dr Ceravolo has published over 70 papers in international reviews mainly on aesthetic surgery. He is also the author of a book on *“Aesthetic Surgery of Midface and Neck”*. He is deeply dedicated to teaching in academic areas, international congresses and surgical dissections courses on cadavers. His ideas and techniques are based on anatomic principles and help elucidate many of the complex areas in eyelid and facial surgery.

Program Highlights & Workshops

We are thrilled to announce the contribution of a number of international faculty to the Congress and in the coming weeks announcing domestic faculty who will round out what promises to be a stimulating program.

Brisbane

The Brisbane Convention & Exhibition Centre is centrally located in downtown Brisbane. The centre is an integral part of the vibrant lifestyle, arts and cultural precinct at South Bank. Located on a one kilometre stretch of the Brisbane River, South Bank is home to the only sand and swimming beach in the heart of an Australian city. You'll be surprised at the diversity of attractions, with rainforest walks, more than 50 restaurants, cafes and bars, stylish shops, symphony orchestras, state opera companies, performing arts theatres and art culture including Australia's most celebrated Gallery of Modern Art.

The gateway to the country's most popular tourist region, Brisbane is serviced by world class domestic and international airports located just 20 minutes from the city centre. Brisbane International Airport operates 24/7 and has direct international flights each week.

PSC 2015 Website

Please visit www.plasticsurgery.org.au for information on the event. You can also access the online registration and downloadable registration brochure from the above website.

Registrations may be made online at the above site if paying by credit card.
