SAVE UP TO £50

President's welcome

I am greatly looking forward to returning to Manchester in May for the 2015 British Dental Conference and Exhibition.

The organising committee and events team have put a huge effort into ensuring that this event will be engaging, entertaining, thought-provoking and educational. Attendance provides many varied immediate and lasting benefits for the profession and the people it serves. So do make sure you participate in 2015.

At the event I will be newly installed as President of the British Dental Association on Thursday 7 May. I am most pleased to be contributing to the high quality programme of unique presentations alongside a stellar line-up of speakers.

As ever, the problem for delegates will be deciding which of the noteworthy sessions to attend, while leaving sufficient time to take full advantage of the fantastic exhibition, let alone network and catch up with friends and colleagues.

I sincerely hope that everyone attending and contributing to the superb range and blend of activities over the three days will enjoy and greatly benefit from this exceptional event.

Don't forget that the event is for all dental colleagues in the industry, not just BDA members. Last year we welcomed over 500 DCPs and this year, we hope to double this figure. Plus we envisage that more BDA Extra and Expert members will use their free three day Conference Pass and Expert members will take advantage of up to six one day Conference Passes for DCPs.

I look forward to welcoming you to Manchester in May 2015.

Nairn Wilson CBE, BDA President elect

See page 11 for more detail of the 'BDA President's lecture', which will have a careers focus.

The Conference

The BDA's British Dental Conference and Exhibition is an unmissable event where experts in dentistry gather to exchange experiences and ideas that will shape the future of the dental industry.

Set to be a thought-provoking event with an exceptional blend of great speakers and unique content, the event attracts more than 5,000 people across the three days and features over 100 inspiring speakers across 100+ sessions.

Join like-minded peers to hear the latest thinking, get practical advice from industry-leading suppliers, and explore new ideas and solutions to your professional challenges.

Experience the full Conference Programme as well as all the activities taking place within the Exhibition

by registering for your Conference Pass.

Select a one day or full three day Conference Pass, and focus on the sessions of most relevance to you. Prior to the event, you will be sent the full Show Guide which will enable you to plan your time most efficiently. You can select sessions across the whole spectrum of dentistry or focus on specialist areas.

BDA members Extra and Expert members register for your free three day Conference Pass. In addition, Expert members are also entitled to six FREE one-day or two FREE three-day Conference Passes for DCP team members.

For Essential members discounted rates apply for both the one day and three day Conference Pass. Alternatively, why not upgrade your membership to get the full VIP experience at the event?

Call 020 7563 4550 and speak to the BDA membership team.

A range of options exist for other BDA members including free Conference Passes for BDA Student members and Senior members.

Non members All dentists and dental care professionals are welcome to register for this event.

Dentists may wish to join the BDA prior to registration to receive the discounted rates or free places. **To join the BDA call 020 7563 4550.**

For DCPs significantly discounted rates exist for all team members.

The Exhibition

Meet leading suppliers and see what's new, plus pick up some new hints, tips and techniques in the free learning and networking sessions.

You can either attend the Exhibition as part of your Conference Pass, or by registering for a free Exhibition Pass.

FREE CPD sessions in the various learning zones:

Advice zone

Careers advice | Legal advice | Business planning advice | Marketing advice | Education advice | Tax advice plus much more....

Whether your CV needs an overhaul, your practice needs a new website or you want to learn about post-graduate courses to further your career, the Advice zone is the place to visit.

Come along and register on the day for your FREE 15 minute one-to-one meeting.

Demonstration theatre

Expanded with more seating, the FREE watch-and-learn programme will take place throughout all three days of the event.

All sessions here offer FREE verifiable CPD.

Innovation zone

Discover the latest innovations that will improve your practice. The zone will showcase the key innovative developments in dentistry and will allow you to see demonstrations of innovations that are contributing to the future of dentistry.

Gain 45 minutes of FREE verifiable CPD by visiting the Innovation zone.

Speakers' corner: peer-to-peer learning

Speakers' corner provides quick updates and easily accessible, concise presentations from speakers in a more informal environment. Presentations will range from clinical hot tips through to sessions based on personal experience. Due to its popularity in 2014, this feature is being expanded for 2015!

Gain 15 minutes of FREE verifiable CPD from each presentation.

Training Essentials theatre

The programme will be based on the BDA's Training Essentials portfolio of courses designed to meet the training needs of the whole dental team, including all CORE CPD subjects plus a range of topics including: regulatory updates, business management and personal development.

You can choose from 19 FREE 30 minute sessions all offering verifiable CPD.

Social and networking programme

After a day packed full of learning, come and enjoy the programme of activities we've put on to enable you to meet others attending the event.

New for 2015 Meet to eat – we have reserved tables at a selection of restaurants in Manchester to enable delegates to meet up over dinner.

Email conciierge@manchestercentral.co.uk

Thursday 7 May

Networking Drinks 18:00-19:00

Meet other conference delegates, exhibitors and speakers as the opening day draws to a close. Share ideas and what you've learnt that day over a complimentary drink.

Friday 8 May

Cuban Night 19:00-00:00

Our Friday night party has been given a Cuban twist! Join us at Revolucion De Cuba for cocktails and Mostrador sharing platters to get your taste buds tingling, and then dance the night away to a funky Latin salsa band playing traditional South American music as well as popular songs in a unique style.

Tickets cost just £25 (inc VAT per person). Limited availability so make sure you register and book your tickets early to avoid disappointment.

Spring Ball (for newly qualified dentists) 19:30-00:00

Attend the red carpet event of the year for a 'Hollywood Nights' themed evening at the Palace Hotel in Manchester. Enjoy a glass of bubbly before heading downstairs to the Grand Room where you will enjoy a three course dinner and entertainment in a glamorous setting.

Tickets are priced at £60 per person. To book please contact Sarah Rockliff at the BDA on 020 7563 4590 or email springball@bda.org. Please note tickets cannot be booked via the registrations website.

Deadline to book your Spring Ball tickets is Friday 24 April 2015. Don't miss out, book today!

Saturday 9 May

BDA Good Practice Scheme Reception and Presentation 12:15-13:15 (by invitation only)

Schemes from around the United Kingdom join together to celebrate their membership of this prestigious quality assurance programme. This reception recognises their commitment to quality.

Honours and Awards Gala Dinner 19:00-00:00

The iconic Midland Hotel is host to the BDA and BDIA annual Honours and Awards Gala Dinner. The evening, introduced by Stephen Hancocks OBE, Editor-in-Chief of the British Dental Journal, honours and celebrates the achievements and contributions of individuals and groups from across the dental industry.

Tickets are priced at £85 person. Very limited availability so please book early to avoid disappointment.

Hosted by:  British Academy of Cosmetic Dentistry
CHARTER ROOMS 2 AND 3	Andy Hadden Dento Legal Adviser and Board Member, FGDP (UK)	09.45-10.45 CPD – 1 hr
FGDP Series Hitting the right notes		Learning objectives: • Understand the importance of keeping good records • Be aware of what good records should contain • Know about confidentiality of information on records • Be aware of problems when using computerised records. Hosted by:  FGDP

Early morning (sessions starting between 09:30 and 10:00)

Friday 8 May

Exchange Hall and Exchange Auditorium sponsored by: 

CHARTER ROOM 1		09.30-10.30 CPD – 1 hr	
Current evidence for the use of dental hygienists and therapists in primary dental care	Paul Brocklehurst Senior Clinical Lecturer/Honorary Consultant, Dental Public Health and NIHR Clinician Scientist, University of Manchester	Learning objectives: - The efficacy of dental hygienists and therapists in the screening of common oral disorders - The comparative test accuracy of dental hygienists, therapists and general dental practitioners in recognising oral cancer and potentially malignant disorders	Current research into the productivity of using DCPs to undertake role-substitutive tasks. Hosted by: 
EXCHANGE ROOM 9		09.30-10.30 CPD – 1 hr	
Diploma in Implant Dentistry: Career development opportunities with the Royal College of Surgeons of Edinburgh	Shakeel Shahdad Consultant in Restorative Dentistry, The Royal London Dental Hospital, Barts Health NHS Trust and Chair, Advisory Board in Implant Dentistry, The Royal College of Surgeons of Edinburgh	Learning objectives: - Gain a clearer understanding of the Diploma in Implant Dentistry Examination - How to prepare for the Examination	Gain awareness of the different components of the Examination. Hosted by: 
CHARTER ROOM 4		09.30-10.45 CPD – 1 hr 15 mins	
The future for young dentists: aspirations, challenges and how to compete in a changing profession	Mick Armstrong Chair, Principal Executive Committee, BDA Other panellists to be confirmed	Learning objectives: - Find out about key issues affecting young dentists, including the latest research on employment and earnings - Get tips on how to stand out from the crowd when applying for jobs	Hear about projects for young dentists and how to get involved. Hosted by:  
EXCHANGE ROOM 10		09.30-12.45	
INVITATION ONLY FD/VDP Advisers' session		Whole morning session for FD/VDP Advisers	

Register online www.bda.org/conference or call 0870 166 6625 17

EXCHANGE HALL	Phil Lumley Honorary Consultant in Restorative Dentistry and Endodontics, Birmingham Community Healthcare Trust and Head of University of Birmingham School of Dentistry	12.15-13.30 CPD – 1 hr 15 mins Learning objectives: • Factors affecting the outcome of endodontic treatment • Importance of light and magnification	• Rotary and reciprocation instrumentation techniques • Active irrigation.
Modern technology and endodontic outcomes			
EXCHANGE AUDITORIUM	Tif Qureshi GDP, London and past President, BACD	12.15-13.15 CPD – 1 hr Learning objectives: • Know the protocols and planning of simple tooth alignment • Understand the process of simultaneous tooth whitening	• What edge bonding materials are available? • Understand the practical use of ABB interceptive restorative dentistry.
BACD Series			Hosted by:  British Academy of Ceramic Dentistry
Implementing ABB (Alignment Bleaching and Bonding) into general practice			
CHARTER ROOMS 2 AND 3	Nicholas Drage Consultant in Dental and Maxillofacial Radiology, University Dental Hospital, Cardiff	12.00-13.00 CPD – 1 hr Learning objectives: • Recognise the advantages and disadvantages of the digital systems used in general dental practice • Understand what the advantages and disadvantages are of cone beam computed tomography in dental imaging	• Know the indications for cone beam computed tomography in general dental practice • Be aware of the use of handheld x-ray units.
Developments in dental radiology for the practitioner			Core CPD

Team offer – BDA Expert members are also entitled to six FREE one-day or two FREE three-day DCP places, add to your booking at www.bda.org/conference

CHARTER ROOM 1		11.45-12.45 CPD – 1 hr	
FGDP Series Making the most of your career in dentistry	Nick Lane GDP, Wakefield	Learning objectives: • Find out more about a career in general dental practice • Learn about the Faculty of General Dental Practice, its courses and how it could benefit you	• MJDF vs MFDS – how can these qualifications enhance your career? • Discover what life is really like in general dental practice, including the salary and benefits you can expect. Hosted by: 
EXCHANGE ROOM 9		11.45-12.45 CPD – 1 hr	
Where are we now? The journey from Independent Review of NHS Dental Services to Delivery of Better Oral Health	Janet Clarke MBE Clinical Director, Combined Community Dental Service, Birmingham Community Healthcare Trust Eric Rooney Consultant in Dental Public Health, Public Health England Jimmy Steele CBE Clinical Professor/Consultant and Head of School, School of Dental Sciences, Newcastle University	Learning objectives: • Find out what action has been taken since the Steele Review was published • Explore and understand the relevance in 2015.	Hosted by: 
CHARTER ROOM 4		11.45-12.45 CPD – 1 hr	
The lifestyle impacts of sensitivity, how to make a change	Speaker to be confirmed	Please visit www.bda.org/conference for more information.	Hosted by: 

EXCHANGE HALL		14.45-16.00 CPD – 1 hr 15 mins	
A new perspective on dentine hypersensitivity – are you under diagnosing this condition in your patients?	David Gillam Senior Clinical Lecturer in Periodontology, Barts and The London School of Medicine and Dentistry	Working towards a joint management strategy involving both clinician and patient. Learning objectives: - The facts regarding the aetiological causes and pre-disposing factors associated with dentine hypersensitivity - How can you recognise and treat this persistent problem correctly?	- Gain awareness of how the condition impacts on the quality of life of your patients - New options for the management of dentine hypersensitivity and developing a management strategy - What changes in the patient's behaviour are required for the successful management of the condition?
EXCHANGE AUDITORIUM		14.30-15.30 CPD – 1 hr	
Engaging and managing dentally anxious children and adolescents in primary care	Carrie Campbell Consultant in Paediatric Dentistry, Department of Paediatric Dentistry, University of Glasgow	Learning objectives: - Understand the role of child dental anxiety assessment in determining the correct allocation to the appropriate management techniques and how this links with subsequent treatment success. - Explore a number of behavioural management	techniques which can be easily utilised in primary care to help dentally anxious/phobic children and adolescents cope. Understand when it is appropriate to refer dentally phobic children and to whom for improved treatment success.
CHARTER ROOMS 2 AND 3		14.15-15.15 CPD – 1 hr	Core CPD
Well, why worry?.....you don't get pregnant with oral sex!	Val McMunn Lecturer in Contraception and Sexual Health, City University London and Independent Nurse Prescriber	Learning objectives: - Gain an understanding of the transmission of HPV, and other sexually transmitted infections in relation to the mouth, and the links with oral pharyngeal cancer - Find out more about the HPV vaccine and other	prevention measures to reduce infections to the mouth Recognise your role in education and care of the public to reduce the poor outcomes of late detection of mouth cancer.

Mid afternoon (sessions starting between 14:15 and 14:45)

Friday 8 May

CHARTER ROOM 1		14.15-15.30 CPD – 1 hr 15 mins	
The face of dentistry for today and tomorrow with BTX and dermal fillers	Bob Khanna Professor and Director of the Dr Bob Khanna Training Institute for Facial Aesthetics	Learning objectives: • An A-Z roadmap of how to get started in facial aesthetics • Find out more about botulinum toxin, dermal filler and the comprehensive range of applications available to dentists	• Tips for intra oral and extra oral assessment prior to treatment planning • How to incorporate facial aesthetics into your existing dental practice whether NHS or private. Hosted by: 
EXCHANGE ROOM 9		14.15-15.15 CPD – 1 hr	
		Please visit www.bda.org/conference for more information.	Hosted by:  JOHNSON & JOHNSON THE MAKERS OF LISTERINE ANTISEPTIC
CHARTER ROOM 4		14.15-15.30 CPD – 1 hr 15 mins	
Catching the eye of the practice owner	Led by: James Goldman Head of the Employment and General Practice Team, BDA Shabana Ishaq Practice Management Consultant, BDA	Panellists: Susie Sanderson OBE and Nigel Jones , Principal Executive Committee, BDA Sharon Holmes , Practice Manager, Hertfordshire Learning objectives: • Understanding what practice owners are looking for	• Understanding how to sell yourself on paper and at interview • Negotiating a deal. Hosted by: 
EXCHANGE ROOM 10		14.15-15.15 CPD – 1 hr	
MJDF exam taster session	St John Crean Robert Bradlaw Advisor Faculty of Dental Surgery (FDS)	Learning objectives: • Gain insight into the overall content of the MJDF exam • Understand what is required for: a) Objective structured clinical examination (OSCEs) b) New structured clinical reasoning exercises (SCRs).	Hosted by: 

Register online www.bda.org/conference or call 0870 166 6625 21

EXCHANGE HALL		16.45-17.45 CPD – 1 hr	
Occlusion in everyday restorative dentistry	Kevin Lochhead Specialist Prosthodontist and Clinical Director, Edinburgh Dental Specialists	Learning objectives: • Gain familiarity with a screening system for pathological and physiological occlusions • Appreciate the relationship between the teeth, muscles of mastication and the TMJs	• Understand how to design the best “stress-free” occlusion for most restorative cases • Appreciate what different occlusal splints are available how they are meant to work and why you probably only need to know how to make one.
EXCHANGE AUDITORIUM		16.35-18.00 CPD – 1 hr 25 mins	
Impact of recent NHS England initiatives on provision of care for people with special needs	Janet Clarke MBE Clinical Director, Combined Community Dental Service, Birmingham Community Healthcare Trust	16.35-16.55 Learning objectives: • Find out more about the Commissioning Guide for Special Care Dentistry	• Be able to start considering the impact on local service provision.
Dementia: Understanding how it affects us and the impact it has on our patients and their care	Joanna Millwood Senior Special Care Dentist, Derbyshire Community Health Service and British Society of Gerodontology Committee Member	17.00-18.00 Learning objectives: • Appreciate the impact of dementia on our patients, their relatives and carers • Be able to consider the different stages of dementia for proper treatment planning and care provision	• Gain knowledge of the practical aspects, benefits and challenges of providing domiciliary care • Be aware of aspects of dental practice which can be made more ‘dementia friendly’.
CHARTER ROOMS 2 AND 3		16.30-17.30 CPD – 1 hr	Core CPD
The changing face of oral cancer: from biology to the bedside	Gareth Thomas Professor of Experimental Pathology, University of Southampton and Consultant in Head and Neck Pathology, University Hospital Southampton NHS Foundation Trust	Learning objectives: • Understand the impact of HPV on the management of oral cancer • Recognise the clinical differences between HPV-positive and –negative oral cancer	• Gain an overview of current research, and find out how discoveries in cancer biology have led to a new generation of clinical trials.

CHARTER ROOM 1		16.15-17.15 CPD – 1 hr	
BACD Series White spots - now you see me, soon you won't	Richard Field GDP, Essex	Learning objectives: • Recognise the different types of white lesions and their aetiology • Understand the science behind resin infiltration • How to treat a simple case	• Complex white lesions - deep infiltration and when resin infiltration is not the answer • Time management and costing cases. Hosted by:  British Academy of Cosmetic Dentistry
EXCHANGE ROOM 9		16.15-17.15 CPD – 1 hr	
What does it take to turn a good dental practice into a great business?	Ben Flewett Managing Director, Software of Excellence	Learning objectives: • Understand what factors are important to ensure a well performing dental practice • Effective measures to boost practice revenue.	• What are the best practice processes that you need to put in place? Hosted by: 
CHARTER ROOM 4		16.15-17.30 CPD – 1 hr 15 mins	
Practical prosthodontics for the dental team	Kushal Gadhia Specialist Registrar, Eastman Dental Hospital Matthew Thomas Consultant in Restorative Dentistry and Honorary Senior Lecturer, Cardiff University	Learning objectives: • Gain awareness of the causes and risks of prosthodontics failure • Become more knowledgeable in managing patients with prosthodontics failure • Clinical tips that can be used to the benefit of patients in the practice environment	• Explore ideas for gaining more confidence with your communication and conversations with patients and be able to offer balanced conversations regarding option choice • Become more knowledgeable about fixed and removal prosthodontics including implant dentistry. Hosted by: 
EXCHANGE ROOM 10		16.30-17.30 CPD – 1 hr	
MJDF exam taster session	Facilitator: St John Crean Robert Bradlaw Advisor Faculty of Dental Surgery (FDS)	Learning objectives: • Gain insight into the overall content of the MJDF exam • Understand what is required for: a) Objective structured clinical examination (OSCEs)	b) New structured clinical reasoning exercises (SCRs). Hosted by: 

Early morning (sessions starting between 09:30 and 09:45)

Saturday 9 May

09:00 Main registration and Exhibition opens

EXCHANGE HALL	Van P Thompson Professor of Biomaterials, Biomimetics and Biophotonics, King's College London Dental Institute	09.45-10.45 CPD – 1 hr	Learning objectives: • Overview of the range of RBC materials available for direct restoration • Find out the recent clinical outcomes studies on RBC restorations and comparisons to dental amalgam	• Be aware of the evidence of the use of liners including 1) their poor effectiveness (including use of flowable RBCs) in reducing RBS postoperative hypersensitivity and 2) on their increasing failure rates • Review the critical state of light curing effectiveness in recent clinical studies and the likely effect on clinical outcomes.
Preparing for the post amalgam era – resin based composite clinical outcomes and the latest on placement techniques				
CHARTER ROOMS 2 AND 3	Amin Aminian Specialist in Prosthodontics, Cheshire and Honorary Lecturer, University of Manchester Ian Dunn Specialist in Periodontist, Liverpool	09.45-10.45 CPD – 1 hr	Learning objectives: • The hard facts: optimising soft tissue outcomes with restoration design • The soft tissue facts: optimising restoration/hard tissue outcomes with periodontal control	• Overview of aesthetic diagnosis • Maintaining soft tissue health and control throughout the restorative process and avoiding the pitfalls of aesthetic dentistry.
Diagnosis in aesthetics: optimising outcomes for hard and soft tissue				
CHARTER ROOM 1	Paul Jenkins Decontamination Manager, North Bristol NHS Trust	09.30-10.30 CPD – 1 hr	Learning objectives: • Be able to explain the benefits of periodic audit • Gain an overview of the latest new technologies within instrument decontamination	Core CPD • Recognise differing instrument 'track and trace' options • Understand the benefits of having a dedicated 'decontamination technician'.
Decontamination in the practice – are your procedures keeping the practice safe?				

Early morning (sessions starting between 09:30 and 09:45)

Saturday 9 May

Exchange Hall and Charter Rooms 2 and 3 sponsored by: 

CHARTER ROOM 4	Incoming Chair BDA General Dental Practice Committee	09.30-10.30 CPD – 1 hr Learning objectives: • How will GDPC be working to help practitioners over the coming term? • Contract reform and related issues • Associateships in the current climate.
Plans and priorities for general practice		
EXCHANGE ROOM 9	Peter Briggs Consultant in Restorative Dentistry and Implant Dentistry, St. George's Hospital, London and President, BSSPD Julian Satterthwaite Professor of Restorative Dentistry and Honorary Consultant, University of Manchester	09.30-10.45 - CPD – 1 hr 15 mins Learning objectives: • Gain awareness of the causes and risks of prosthodontics failure • Become more knowledgeable in managing patients with prosthodontics failure • Clinical tips that can be used to the benefit of patients in the practice environment • Explore ideas for gaining more confidence with your communication and conversations with patients and be able to offer balanced conversations regarding option choice • Become more knowledgeable about fixed and removal prosthodontics including implant dentistry. Hosted by: 
Practical prosthodontics for the dental team		

“ ...I thought the standard of presentations was high and excellent choice of speakers...”
Dr Jonathan Farmer, Associate Dentist

“ ...I learnt loads, met with old friends and colleagues and really enjoyed the day out. I will definitely come back...”
Dr Richard Staincliffe, Practice Owning Dentist

Register online www.bda.org/conference or call 0870 166 6625 25

EXCHANGE HALL		11.30-12.45 CPD – 1 hr 15 mins	
Emulating nature's morphology: an anterior composite resin masterclass	Jason Smithson Private Practitioner, Cornwall	Learning objectives: • A simple, rapid, yet novel concept to make incisal edge shade and effects obvious and effortless • How to quickly and inexpensively fabricate diagnostic mock-ups and palatal silicone indices to achieve precise incisal edge position • Preparation design and instrumentation to realise durable resin restorations, which have margins invisible to the human eye	• Opaque dentin shades: when and where to use them...and why • Simple, intuitive finishing protocols, which allow the operator to produce highly, polished restorations, which mimic natural enamel • A simple approach for everyday resin veneers.
CHARTER ROOMS 2 AND 3		11.30-12.30 CPD – 1 hr	
Removable prosthodontics - how to achieve outstanding aesthetic results with partial dentures	Kevin Lochhead Specialist Prosthodontist and Clinical Director, Edinburgh Dental Specialists	Learning objectives: • Understand aesthetic treatment planning as it relates to partial denture design • Appreciate the alternatives to conventional chrome design	• To be aware of techniques available for personalising denture aesthetics • How to predictably manage partial denture fabrication workflow.
CHARTER ROOM 1		11.15-12.15 CPD – 1 hr	Core CPD
Medical emergencies	Abbas Zaidi Cardiology Specialist Registrar, Wales Deanery	Learning objectives: • Be able to recognise the warning signs of common medical emergencies • Learn the basic life support algorithm for cardio respiratory arrest • Management for other common/serious	emergencies that might arise in the dental setting such as anaphylaxis, choking, acute asthma, seizures, and diabetic emergencies • Know what equipment, drugs, and protocols should be in place in every dental setting in case of a medical emergency.

EXCHANGE ROOM 9		11.15-12.15 CPD – 1 hr	
Dental care for the elderly, how to look after our oldest teeth!	Speaker to be confirmed	Please visit www.bda.org/conference for more information.	Hosted by:  do more feel better live longer
CHARTER ROOM 4		11.15-12.15 CPD – 1 hr	
Lindsay memorial lecture: In gloved hands - taking a look at how the dental trade has helped to progress dentistry	Simon Gambold Managing Director, Henry Schein	Learning objectives: • How technology has transformed the practice of dentistry • The importance of the dental industry in innovation • How can dental teams work more effectively with suppliers to maximise practice productivity and profitability.	<i>This session is open to Conference Pass and Exhibition Pass holders</i> Hosted by: 

“...Manchester provides a good venue. The city is buzzing, the event was supercharged...”
Mr Thomas Fisher, Practice Owning Dentist

EXCHANGE HALL	Ian Dunn Specialist Periodontist, Liverpool	13.30-14.45 CPD – 1 hr 15 mins Evidenced based periodontal treatment: protocols for everyday practice Learning objectives: • Understand how a patient centred approach to periodontal treatment is achievable in general practice • Explore the evidence for quicker periodontal treatment protocols • Understand where various forms of antimicrobial therapy fit into contemporary periodontal treatment. Speaker sponsor: 
CHARTER ROOMS 2 AND 3		13.30-14.30 CPD – 1 hr Early detection of oral cancer Learning objectives: • Be able to spot potentially dangerous lesions • Identify patients at risk and provide preventative education and support • Learn about cancer pathways and ensure patients get to specialist care as quickly as possible. Core CPD
CHARTER ROOM 1	Introduced by: Damien Walmsley Scientific Adviser, BDA Mike Lewis Professor of Oral Medicine and Dean, Cardiff University Anwen Cope Clinical Research Fellow in Dental Public Health, Cardiff University	13.15-14.30 CPD – 1 hr 15 mins Antibiotic use and resistance in dentistry: how can we do the best for our patients? Learning objectives: • Overview of the BDA consensus report on antimicrobial resistance • Gain knowledge of the antibacterial agents available to treat dental infections • Antimicrobial resistance and its impact on dental care • Reflect on factors that may influence the prescribing behaviours of dental practitioners • Understand strategies by which antibiotic use in primary dental care could be optimised. Hosted by: 

EXCHANGE ROOM 9	Ben Flewett Managing Director, Software of Excellence	13.15-14.15 CPD – 1 hr Learning objectives: • Understand what factors are important to ensure a well performing dental practice • What are the best practice processes that you need to put in place? • Effective measures to boost practice revenue. Hosted by: 
CHARTER ROOM 4	James Goldman Head of the Employment and General Practice Team, BDA Claire Bennett Practice Management Consultant, BDA	13.15-14.30 CPD – 1 hr 15 mins Learning objectives: • Understanding how conflicts in the workplace arise • How to listen and communicate in a conflict situation • How to find a solution to a conflict at work. Hosted by: 

“...Thank you to all who were involved in organising this event.
I found the day very helpful...”
Dr Muireann O’Flynn, Salaried Services Dentist

Mid afternoon (sessions starting between 15:00 and 15:30)

Saturday 9 May

EXCHANGE HALL		15.30-16.30 CPD – 1 hr	
Sports related dentistry, dental trauma and the endodontic considerations	Lyndon Meehan GDP, Cardiff and Dentist with special interest in endodontics and dental trauma, King's College Dental Institute, London	Learning objectives: • Gain a better understanding of the prevalence of trauma • Know how to recognise the specific trauma your patient has and what action needs taking quickly	• Storage of teeth fragments • Endodontic considerations for the patient • Paediatric dentistry and trauma – understand what the best approach is for younger dentitions.
CHARTER ROOMS 2 AND 3		15.15-16.15 CPD – 1 hr	
Modern management of third molar surgery	Nayeem Ali Consultant Oral and Maxillofacial Surgeon, Barts Health NHS Trust, London	Learning objectives: • Understand when and why third molars should be removed • Know which cases require advanced imaging and specialist referral	• Understand the different techniques available for surgical management • Be able to manage complications of third molar surgery effectively.
CHARTER ROOM 1		15.00-16.00 CPD – 1 hr	Core CPD
The GDC fitness to practise process - does it work?	Richard Hayward Specialist in Oral Surgery, Derbyshire Stephen Henderson Senior Dento-legal Advisor, Dental Protection	Learning objectives: • Appreciate the range of cases investigated by the GDC • Be able to describe the GDC's fitness to practise procedures	• Understand the legal tests that should be applied at each stage of the fitness to practise procedures • Appreciate the changes that the GDC are making to the fitness to practise procedures and the effect those changes will have on those being investigated.
EXCHANGE ROOM 9		15.15-16.15 CPD – 1 hr	
	Speaker to be confirmed	Please visit www.bda.org/conference for more information.	Hosted by: 

Honours & Awards

Gala Dinner 2015

The Honours and Awards Gala Dinner is the **BDA's annual celebration of the achievements** of individuals from across UK dentistry. It will see the presentation of the associations highest honours and awards and also the presentation of awards by colleagues from our partner associations and covers all aspects of the dental profession.

This will be the first year that this prestigious event will be held as part of the BDA's Conference and is not only a **great opportunity for the team to come together to celebrate professional achievements** but also presents a fantastic way to mark the end of the 2015 British Dental Conference and Exhibition.

Supported by the BDIA, this **glittering event** will be held in the Midland Hotel, Manchester, where you will enjoy a three course meal, the Awards presentation and after dinner entertainment.

Saturday 9 May 2015

19:00 - 00:00

**The Midland, Peter Street,
Manchester, M60 2DS**

Dress code: Black tie
Ticket price: £85 (inc VAT)

You can book your ticket at the point of registration or by calling 0870 166 6625.

BOOK EARLY to avoid disappointment as places will be limited.

Demonstration theatre – Free CPD

Open to Exhibition Pass and Conference Pass holders

Supported by:

THURSDAY 7 MAY

30 - 45 minute sessions FREE verifiable CPD

10:00-10:45 **Seven minute crown prep**

Robert Stone, Senior Clinical Teaching Fellow in Restorative Dentistry, UCL Eastman Dental Institute

11:30-12:15 **Medical emergencies** Core CPD

Kathryn Taylor, Honorary Consultant in Oral Surgery, University of Liverpool

Julie Burke, Honorary Consultant in Oral Surgery, Leeds School of Dentistry

12:45-13:30 **OS: SOS - Oral Surgery SOS**

Richard Oliver, Specialist in Oral Surgery, Hereford

14:00-14:45 **Porcelain onlays - a biomimetic approach**

Robert Stone, Senior Clinical Teaching Fellow in Restorative Dentistry, UCL Eastman Dental Institute

15:30-16:00 **Using conscious sedation to help phobic patients**

Carole Boyle, Consultant in Special Care Dentistry, King's College London Dental Institute

David Craig, Consultant / Head of Sedation and Special Care Dentistry, King's College London Dental Institute

16:30-17:15

Hosted by:

Useful information

Accommodation

Visit Manchester is the official accommodation provider for the British Dental Conference and Exhibition. For more information or to book accommodation for the event, please visit www.bda.org/wheretostay

Alternatively, contact the Visit Manchester Accommodation Booking Team directly on 0161 238 4563 / 4514 or email abs@visitmanchester.com

Additional requirements

The BDA aims to ensure that its services are available to all. There is disabled access to all areas of the Manchester Central Convention Complex. If you have any additional requirements or need any help or facilities, please indicate at the time of booking and, if applicable, we will contact you to discuss your requirements. Alternatively, call 020 7563 4590 or email events@bda.org

Catering

Morning and afternoon refreshments will be provided in the Exhibition hall, and are included as part of the Conference Pass. Lunch is not included but we have arranged for a number of catering points to be available within the Exhibition hall for Conference Pass delegates and Exhibition Pass visitors to purchase lunch.

CPD

All sessions meet the educational criteria set by the General Dental Council (GDC) for verifiable CPD and are certified by the British Dental Association (BDA). You can claim up to 15 hours verifiable CPD. CPD certificates will be available to download after the event.

General Election 2015

The date of the next general election has been set as 7 May 2015 which coincides with the opening day of the British Dental Conference and Exhibition. For delegates who will be away from home on the day of the election but who wish to vote, they can apply for a postal or proxy vote. For more information, visit www.aboutmyvote.co.uk

Join the BDA

Choose from three membership packages which offer a range of services and benefits to suit your needs, and start from only £365. Call 020 7563 4550 to discuss which package is right for you.

Location

Located in the heart of a vibrant city centre, the event is just minutes from an incredible selection of restaurants and bars. Visit Manchester can assist with information on the local area, including attractions and activities. Visit Manchester can be reached on 0871 222 8223 or visit their website www.visitmanchester.com

Photographer/Video

Please note that for promotional purposes, there will be a professional photographer present throughout the event, at the conference, the exhibition and at the social events.

Programme information

The programme is correct at the time of going to press. Please refer to the event website for the most up-to-date information.

Save the date

We will return to Manchester in 2016 with the event taking place from 26-28 May 2016.
