Thursday 2 July 2015

ICO Conference Centre London

**"700,000 are affected by Pressure Ulcers each year"**

**"Each Pressure Ulcer adds £4000 to the costs of care"**

**"186,617 people developed a Pressure Ulcer in hospital each year"**

**"Research shows between 80% and 95% are avoidable"**

**Stop the Pressure Campaign, NHS England 2014**

This conference focuses on a practical guide to eliminating avoidable pressure ulcers, implementing the national stop the pressure campaign and implementing **NEW NICE Quality Standard for Pressure Ulcers** which is now out for consultation in draft form with the final version **due to be published in May 2015**.

***"We are starting to see a plateau and we are still seeing large variation between organisations"***

*Suzanne Banks, Professional Advisor, NHS England, February 2015*

***"The issue is pressure ulcers and the impact of them on patients, families, carers, staff and organisations is huge. The lifestyle of a person who has suffered a pressure ulcer is changed forever, their ability to lead a pain-free, risk-free life in the future, affected."*** Dr Ruth May NHS England, 10th December 2014

*"A review of death and severe harm incidents reported to the National Reporting and Learning System found in 2011/2012 that pressure ulcers were the largest proportion of patient safety incidents accounting for 19% of all reports. The quality standard is expected to contribute to improvements in the following outcomes: Incidence of pressure ulcers; Proportion of patients with category 2, 3 and 4 pressure ulcers; Patient experience; Service user experience; Health related quality of life; Length of hospital stay; Discharge destination such as patients home or care home."*

*NICE Draft Quality Standard on Pressure Ulcers December 2014*

The conference will begin with an update from NHS England and will discuss the stop the pressure campaign and path details and Pressure Ulcers and the 6C's and continue with a consideration of the New Quality Standard for pressure ulcers from NICE looking forward to implementation.

***"Avoidable pressure ulcers are a key indicator of the quality of nursing care. Preventing them happening will improve all care for vulnerable patients. The 'Stop the Pressure' campaign was launched by NHS Midlands and East as part of their ambition to make life better for patients."*** Stop the Pressure 2014

The conference will continue with practical case studies in reducing pressure ulcers, implementing stop the pressure and in depth extended sessions focusing on pressure ulcer grading and reporting including unstageable pressure ulcers, and developing your skills in root cause analysis and investigation. There will be an evidence update session looking at the latest evidence on risk assessment, factors associated with severe pressure ulcers and pain as an indicator of pressure ulcer development. The event will also look at this issue of avoidability and discuss the latest consensus on what is actually considered unavoidable. There will also be a focus on the important issue of eliminating pressure ulcers in the community.

## 10.00 Chairman's Welcome and Introduction

**Tina Chambers** *Chair Tissue Viability Society  
& Clinical Nurse Specialist in Tissue Viability Hampshire Hospitals NHS Foundation Trust*

## 10.10 Stop the Pressure: an update from NHS England

**Suzanne Banks**  
*Professional Advisor, Pressure Ulcers  
NHS England*

- the stop the pressure campaign and path details
- Pressure Ulcers and the 6C's: An update from NHS England

## 10.40 Implementing the NICE Quality Standard for Pressure Ulcers due May 2015

**Prof Gerard Stansby**  
*Chair Guideline Development Group, Prevention and Management  
of Pressure Ulcers Guideline and Quality Standard  
National Institute for Health and Care Excellence*

- implementing the NICE Quality Standard for Pressure Ulcers
- the Quality Statements
- implementing the standard in practice
- challenges and critical success factors

11.25 *Question and answers, followed by coffee and exhibition*

## 11.50 Implementing Stop the Pressure on the wards

**Pauleen Pratt**  
*Acting Chief Nurse*  
**With Charlotte Johnston**  
*Student Nurse*  
United Lincolnshire Hospitals NHS Trust

- building momentum for improvement
- engaging frontline staff in preventing pressure ulcers and spreading the message of stop the pressure
- reviewing and learning from every instance of avoidable pressure ulcers: what needs to be done
- implementing SSKIN in practice on the wards
- spreading new ways of working across the organisation: what has worked for us in Lincolnshire

## 12.20 Beyond 100 days free! How we have achieved 5 year free wards and 1 year free hospices

**Nicola Williams**  
*Assistant Director of Nursing*  
Abertawe Bro Morgannwg University NHS Trust

- engaging frontline staff in preventing pressure ulcers and spreading the message of zero tolerance
- introducing processes to achieve sustainable culture change
- reviewing and learning from every instance of avoidable pressure ulcers: what needs to be done
- demonstrating compliance at board level: Ward-to-board metrics
- spreading new ways of working across hospitals: what has worked for us
- sharing the results and communicating improvement to drive change

12.50 *Question and answers, followed by lunch and exhibition*

## 13.50 EXTENDED SESSION: International Guidelines on Pressure Ulcers

### Pressure ulcer grading, reporting including unstageable pressure ulcers and understanding what is avoidable

**Tina Chambers**  
*Chair*  
Tissue Viability Society  
& Clinical Nurse Specialist in Tissue Viability  
Hampshire Hospitals NHS Foundation Trust

- International definitions and guidelines
- pressure ulcer reporting: ensuring consistency
- pressure ulcer assessment
- beyond risk assessment and grading: ensuring action!
- implementing the new guidance around unstageable pressure ulcers: project outcomes
- is it really unavoidable? What is and what isn't
- what if the patient refuses care? how to manage the patient who refuses pressure

## 14.35 Latest evidence on risk assessment, pain as a predictor of pressure ulcer development and factors associated with

### Speaker to be announced

- risk assessment of pressure ulcers: latest evidence
- pain as a predictor of pressure ulcer development
- factors associated with severe pressure ulcer development
- implementing the findings in practice

15.10 *Question and answers, followed by tea and exhibition*

## 15.30 EXTENDED SESSION:

### Reducing "old" pressure ulcers and community acquired pressure ulcers

**Rosie Callaghan**  
*Tissue Viability Nurse*  
Evesham Community Hospital

- NHS England are committed to seeing a reduction in avoidable pressure ulcers across all healthcare settings
- CQUIN targets are helping to drive down the incidence of pressure ulcers, particularly in the acute setting
- reducing the overall prevalence of pressure ulcers, included the inherited ones.
- how can we prevent pressure ulcers in vulnerable people whilst in their own home?

## 16.30 EXTENDED INTERACTIVE SESSION:

### Developing your skills in Reporting, Root Cause Analysis and Investigation

**Suzanne Crouch**  
*Director of Training*  
Sologic

- a step by step guide to carrying out a root cause analysis of every grade three and four pressure ulcer
- learning from investigations and ensuring change occurs

17.00 *Question and answers, followed by close*

10% credit card discount\*
