

Preceptorship course in metastatic colorectal cancer management
Hôpital Paul Brousse, Centre Hépatobiliaire
Villejuif, Paris, France

General information

Live educational preceptorship course dates

The live educational preceptorship course in oncology will be held on the following dates:

- 27-30 April 2015
- 11-13 May 2015 *
- 21-24 September 2015
- 12-15 October 2015
- 2-5 November 2015

Venue

The live educational preceptorship course will be held at:

Centre Hépato-biliaire

Hôpital Paul Brousse

14 avenue Paul Vaillant Couturier

94800 Villejuif (Paris) - France

How to get to the venue:

- **By metro:** Line 7, stop Paul-Vaillant-Couturier
- **By bus:** 162, 185, 131.

Language

The official language of the live educational preceptorship course will be English.

Since the primary language of the Centre Hépato-biliaire is French, knowledge of French is preferable.

Structure of the preceptorship course

- 4 days long: each preceptorship runs from Monday to Thursday
- Maximum group size is 8 participants for each preceptorship
- Parallel sessions for medical oncologists and surgeons

* Please note that this preceptorship will last 3 days only. The scientific programme will be modified accordingly.

Registration fee

- The registration fee is € 500,00.
- The registration fee for the 11-13 May preceptorship is € 400,00.

These fees include:

- Scientific sessions
- Preceptorship materials
- Certificate of attendance

For more information on accommodation and registration fee please contact:

Preceptorship course in metastatic colorectal cancer management

EXCEMED live educational course:

Preceptorship course in metastatic colorectal cancer management

Villejuif, Paris, France

Aim

This live educational preceptorship aims to highlight the crucial role of the multidisciplinary approach in diagnosis, treatment and management of patients with liver metastases from colorectal cancer. This activity offers the opportunity to learn from a recognized, experienced multidisciplinary team, led by Prof. René Adam, about current treatment options for metastatic colorectal cancer patients. Effective interaction between the multidisciplinary team and participants will be encouraged through clinical case discussion, video sessions and practice sessions.

Learning objectives

After attending this live educational preceptorship course, participants will be able to:

- Define the methodology of the multidisciplinary approach in the diagnosis and treatment of metastatic colorectal cancer patients
- Summarize the modern onco-surgical management of colorectal liver metastases and systemic therapy for colorectal cancer
- Improve their knowledge of the current clinical practice in the management of patients with liver metastases from colorectal cancer

Target audience

Medical oncologists and surgeons experienced in the management of colorectal cancer patients.

Accreditation

An application will be made to the EACCME® for CME accreditation of the EXCEMED **Preceptorship course in metastatic colorectal cancer management** to be held in Villejuif, Paris, France.

The EACCME® is an institution of the European Union of Medical Specialists (UEMS), www.uems.net

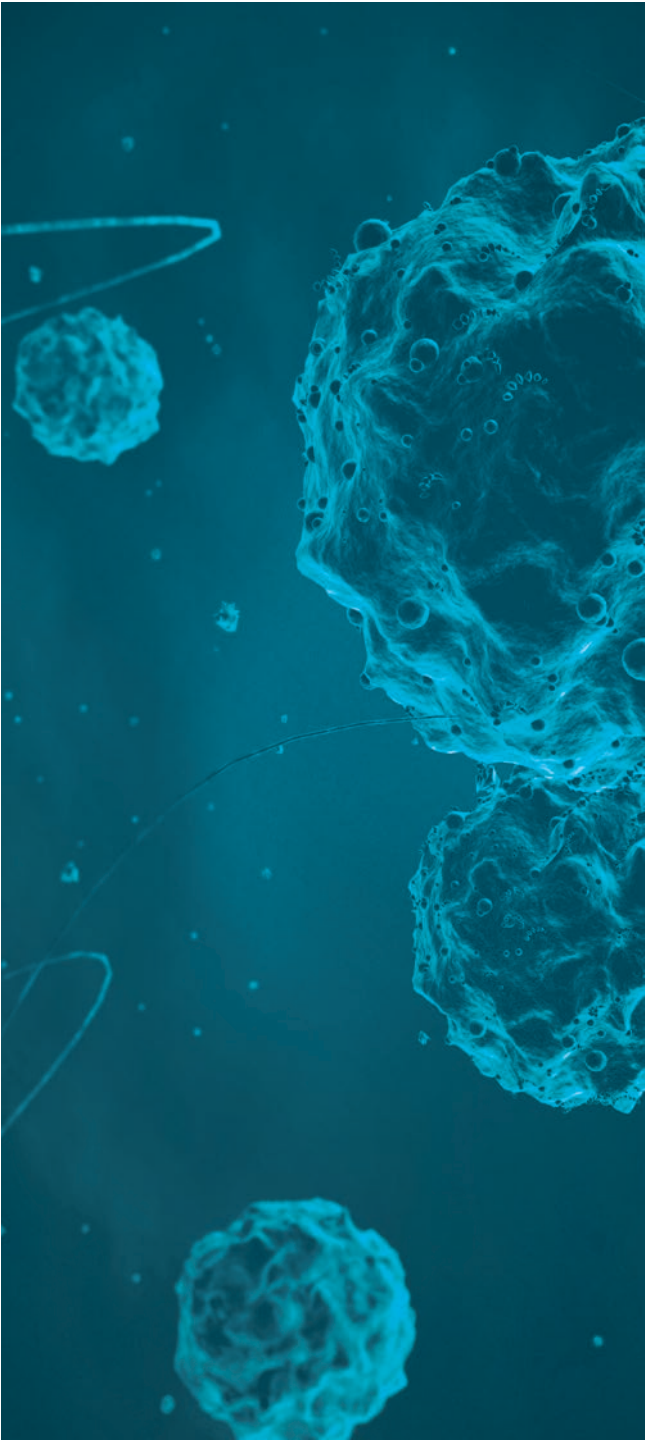

EXCEMED adheres to the principles of the Good CME Practice group (gCMEp).

Share your opinion with us

We are always looking for ways to bring our educational activities to the next level and meet your needs as a healthcare practitioner. Before and after these educational events you will be receiving an online survey to help us to better tailor our future educational initiatives.

Thank you for taking the time to participate.

Scientific programme

Scientific programme

Please note that the time schedule might change due to activities and emergencies in the Hôpital Paul Brousse.

Day 1 Monday

Meeting point: elevator north, 2nd floor, in front of the conference room

09.00 Welcome and visit to the center Hépatobiliaire
(G. Pittau)

11.00 Introduction to the multidisciplinary approach
(R. Adam)

Parallel sessions

	Oncologists	Surgeons
11.30	Outpatients' consultations (B. Paule)	Surgery room According to the weekly schedule

13.00 Lunch

Parallel sessions

	Oncologists	Surgeons
14.00	Outpatients' consultations (B. Paule)	Guided video session (G. Pittau)

17.00 End of the first day

Surgeons can choose between activities in the surgery room and the lectures proposed in the programme, according to the weekly schedule of operations.

Day 2 Tuesday

08.00 Daily ward meeting

Parallel sessions

	Oncologists	Surgeons
09.00	Outpatients' consultations (P. Innominato)	Surgery room According to the weekly schedule

13.00 Lunch

15.00 Multidisciplinary team meeting

18.00 Surgical and medical meeting:
discussion of new cases of the week

20.00 End of the second day

Surgeons can choose between activities in the surgery room and the lectures proposed in the programme, according to the weekly schedule of operations.

Day 3 Wednesday

- 08.00 Daily ward meeting (Optional class)
- 09.00 Lecture and case study
“Modern Onco-surgical management of colorectal liver metastasis”
(R. Adam)
- 10.00 Lecture: “IAH chemotherapy”
(J.F. Morère)

Parallel sessions

	Oncologists	Surgeons
11.00	Visit to oncology department and practical demonstration of chronomodulated chemotherapy pump programming (P. Innominato)	Surgery room According to the weekly schedule

- 13.00 Lunch
- 14.00 Lecture: “Guidelines for high standards imaging: are RECIST criteria still a valid tool?”
(F. Kunstlinger)
- 15.00 Lecture: “Molecular tumor profiling: towards personalized targeted therapy in colorectal cancer”
(A. Lemoine)
- 16.00 Lecture: “Guidelines for high standard pathological examination of colorectal liver metastases”
(M. Sebagh)
- 18.00 End of the third day

Surgeons can choose between activities in the surgery room and the lectures proposed in the programme, according to the weekly schedule of operations.

Day 4 Thursday

08.00 Daily ward meeting (Optional class)

09.00 Clinical case discussion (cases provided by the audience)
(R. Adam)

Parallel sessions

	Oncologists	Surgeons
11.00	Outpatients consultations (P. Innominato)	Surgery room According to the weekly schedule

13.00 Lunch

14.00 Clinical case discussion: provided by the faculty CHB
(P. Innominato - G. Pittau)

15.00 Closing remarks

15.30 End of the preceptorship

Surgeons can choose between activities in the surgery room and the lectures proposed in the programme, according to the weekly schedule of operations.

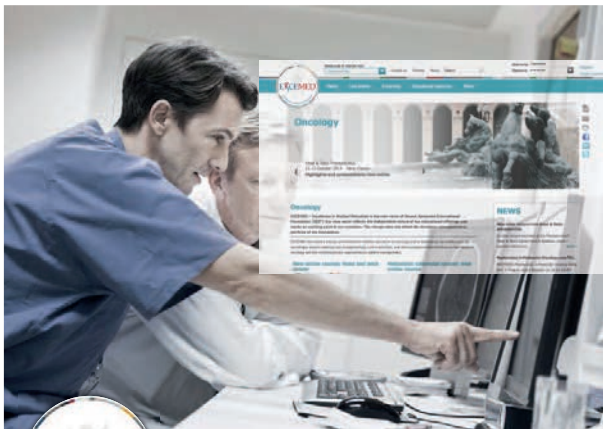

Take a look at the oncology section of the EXCEMED website

EXCEMED has made a strong commitment to medical education in oncology and is developing live events such as workshops, expert meetings and preceptorships, online activities, and other programmes that will focus on key issues in oncology and the multidisciplinary approaches to patient management.

Visit the oncology section:

www.oncology.excemed.org

and register to access free e-learning activities and receive updates on new events and resources.

IMPROVING THE PATIENT'S
LIFE THROUGH
MEDICAL EDUCATION

www.excemed.org
It's active in here

EXCEMED at your fingertips

- Six specialty micro sites, including oncology
- Accessible and accredited e-learning packages
- A world-class repository of CME knowledge and learning materials
- Monthly updates about our events and resources in oncology
- Register with us online and access it all – free

Better outcomes for patients start here. With over 40 years of experience, EXCEMED has been delivering continuing medical education (CME) longer than any other provider.

All EXCEMED programmes are organized solely to promote the exchange and dissemination of scientific and medical information. No forms of promotional activities are permitted. This programme is made possible thanks to an educational grant received from Merck Serono.
