Defining today's state-of-the-art pediatric orthopaedic care

This four-day meeting covers the spectrum of pediatric and adolescent orthopaedic conditions – from frequently-seen problems to rare conditions that demand specialized care. Discover new insights and return to your practice with a greater knowledge of today's leading-edge issues in pediatric orthopaedic surgery.

Customize the experience to your interests

Recognizing the increasing complexity, diversity and subspecialty interests within pediatric orthopaedics, IPOS provides a format for registrants to customize their learning experience to their unique practice needs. In addition to focused lectures and case discussions, registrants may choose from over 40 breakout sessions, demonstrations, hands-on technical workshops, and industry-sponsored satellite sessions.

The IPOS schedule is available online at aaos.org/IPOS.

At the conclusion of this course, learners should be able to:

- Assess children with orthopaedic conditions and formulate a treatment plan
- Compare and contrast various nonsurgical and surgical treatment procedures for selected pediatric orthopaedic conditions
- Apply alternative treatment and rehabilitation techniques for pediatric orthopaedic conditions when appropriate
- Manage complications of various pediatric orthopaedic conditions and how to avoid them
- Use contemporary strategies for infection control in pediatric orthopaedic patients

Call for ePosters

We are accepting electronic poster submissions for IPOS. To download an application, visit aaos.org/IPOS.

Scholarship Offer

Tuition scholarships are available for orthopaedic residents and pediatric orthopaedic fellows. To download an application, visit aaos.org/IPOS.

TUESDAY, DECEMBER 8 (Afternoon)

Resident Session
Case and Cocktails
Industry Pre-course: Satellite Session

WEDNESDAY, DECEMBER 9

Morning

MAIN SESSION	CME SESSIONS
WHAT AM I MISSING? Wilms Tumor in Long Leg Discrepancy Met Neuroblastoma Looking Like Septic Hip Non-accidental Injury C-spine in Larsons Congenital Hand Problem with Systemic Consequence	Essentials of Pediatric Orthopaedics I Ponseti Casting: Initial Management The Lower Extremity Athlete: A Case-Based Approach Perthes Disease Conservative Treatment of AIS: Schroth PT and Rigo Bracing Challenges in International Orthopaedics

Afternoon

CONCURRENT SESSIONS	
ESSENTIALS OF PEDIATRIC HIP DYSPLASIA Treating Mild Dysplasia; the Role of the Pavlik Harness and Abduction Bracing Closed and Open Reduction in DDH Early Pelvic Osteotomies in DDH Tips in Making Surgical Correction of Hip Dysplasia Safe in Teenagers Now What? Case-based Session: Managing the Failed Open Reduction Wenger Why Did It the Osteotomy Fail? Failed Surgical Hip Dislocation Failed In-situ Pinning of a SCFE Non-DDH Case Session: Chondrolysis, Sickle Cell AVN	UPPER EXTREMITY TRAUMA Debate: Clavicle Fractures Case Presentation: 13 Year-old Displaced Clavicle Fracture, Surgical vs. Non-surgical Debate: Medial Epicondyle Fractures Case Presentation: 12 Year-old Gymnast with Displaced Medial Epicondyle Fracture, Surgical vs. Non-surgical Debate: Monteggia Injuries Case Presentation: 8 Year-old with Bado 1 Monteggia, Surgical vs. Non-surgical Scaphoid Fractures and Non-unions T-condylar and Intra-articular Distal Humerus Fractures Flexion Supracondylar Humerus Fractures Cases: Proximal Humerus Fracture, Capitellar Fracture, Radial Neck, Intra-articular Distal Radius Fracture

THURSDAY, DECEMBER 10

Morning

MAIN SESSION	CME SESSIONS
MANAGING THE PEDIATRIC ORTHOPAEDIC PRACTICE IN 2015 Tips and Tricks to Optimize CPT Coding Modernizing the Office Managing a Busy Nonoperative Clubfoot Practice Primary Care Sports Medicine Making the Most of Physician Extenders Workforce Issues: Too Much, Too Little, and What Type Image Gently: Radiation Safety in Your Practice Building an Online Presence for Your Group	Essentials of Pediatric Orthopaedics II Pelvic Osteotomies – Hands-on: Basic (Salter, Dega, Pemberton) Ponseti Casting: Initial Management Cerebral Palsy: Bracing, Spasticity Management, and Therapy Improving Safety and the Patient Experience ICD-10

Afternoon

CONCURRENT SESSIONS	
OPERATIVE AND NON-OPERATIVE APPROACHES TO SPINE PROBLEMS IN CHILDREN Evaluation of LBP – An Algorithm Spondy Management in Athletes Casting for EOS – An Update Focus on Conservative Management of Scoliosis Bracing Update – What We Learned from BRAIST Use of Rigo Cheneau Brace – Could It Be Better? Scoliosis Specific Growing the Spine in the Era of MAGEC	HOT TOPICS IN SPORTS MEDICINE The Footballer's Shoulder Current Concepts of Shoulder Instability In Adolescents Indications and Technique: Arthroscopic vs. Open Capsulolabral Repair Indications and Technique: Latarjet Reconstruction The Pitcher's Elbow Prevention and Management Indications and Technique: UCL Reconstruction The Gymnast's Wrist Evaluation and Management Indications and Technique: TFCC Tears and Ulnocarpal Impaction

FRIDAY, DECEMBER 11
Morning

CONCURRENT SESSIONS	
INFECTION: PREVENTION AND TREATMENT IN 2015	
Focus on the Septic Hip	Complex Lower Extremity Problems in Children
Update in DX	New Tools for Assessing X-rays: The Trauma Cad, Bone Ninja, and Surgimap
Anything New in Treatment	Lower Extremity Alignment Planning
Salvage of the Destroyed Hip	Fixing Your Quality Problems
Focus on SSI	Gait Lab Interpretation
Hot Topics	
MRSA	
C Diff	
Antibiotics	

Afternoon

CME SESSIONS	MAIN SESSION
Pediatric Trauma Pearls and Pitfalls	AUTHORS' PREFERRED TECHNIQUE: HOW I DO IT AND WHY
Pelvic Osteotomies – Hands-on: Basic 2	Upper Extremity Trauma Case: Flexion Supracondylar
Ponseti – Complex Problems	Upper Extremity Congenital Case: Bilobed Flap for Radial Dysplasia
The Pediatric Athlete's Knee: ACL and OCD	Upper Extremity Congenital Case: Radioulnar Synostosis
Bone Lesions: Cysts to Malignancies	Talectomy: How I Do It
	Triple Arthrodesis in the Flatfoot
	Posterior Medial Release for Idiopathic Clubfoot
	Hip Dislocation: Submuscular Plating Femur
	Correcting Pelvic Obliquity in Neuromuscular Spine
	Extension Osteotomy of the Knee
	Medial Open Reduction

SATURDAY, DECEMBER 12
Morning

CONCURRENT SESSIONS	
MANAGING THE CONSEQUENCES OF TRAUMA	BEST SURGERIES FOR CEREBRAL PALSY
LLD	Rectus Transfer
Growth Arrest	NM Spine
Intra-articular Deformity	Managing the Equinus Foot
Malunions of Long Bones	Calcaneal Osteotomy
Long Term Consequences of Joint Malalignment	FCU Transfer for Wrist Extension
Corrective Osteotomies of Malunited BBFF: Indications and Techniques	Latissimus Dorsi Transfer for Brachial Plexus Palsy
Radial Neck Fractures: Management of Acute Injuries, Nonunions, and Malunions	
CME SESSIONS	
Pelvic Osteotomies – Hands on: Advanced (Ganz, Triple, others)	
Limb Deformity 101	
Pediatric Foot: Surgical Management of Congenital and Acquired Conditions	
ICD-10	

Afternoon

MAIN SESSION
FOOT
Tarsal Coalition: Update 2015
Syme vs. Boyd Amputations
Diagnosis and Management of the Painful Idiopathic Flatfoot
Jungle Warfare: How to Manage the Neglected Clubfoot on Your Next Mission Trip
Adolescent Bunion: Still a No Go Zone?
Evaluation of Cavovarus Foot
Surgical Correction of Cavovarus Foot
When is External Fixation Used in Foot Surgery
Top 5 Common and Devastating Mistakes in Foot Surgery
Skewfoot: Fix It or Leave It?

Hands-On Industry Satellite Sessions will be available online in June.

Room Rates: \$183/night (plus applicable taxes and fees)

Registration Fees

POSNA/AAOS Member/Candidate Member
Associate Member/International Member
\$1,349

Orthopaedic Resident/Post Residency Fellow
Nurse/Allied Health/Physician Assistant
U.S. Military* **\$1,149**

Nonmember/International Nonmember
Other Physician/Non-MD Practitioner
Non-Physician **\$1,949**

POSNA/AAOS Emeritus **\$1,149**

* For AAOS members in active U.S. military duty only

Accreditation Statement

The American Academy of Orthopaedic Surgeons is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education (CME) for physicians.

AMA Credit Designation Statement

AAOS designates this live activity for 24.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credits commensurate with the extent of their participation in the activity.

Obtaining CME Credit

Course participants must complete and submit an online evaluation form to receive CME credit.

The Academy would like to thank the **Pediatric Orthopaedic Society of North America (POSNA)** for the many contributions made by its members in the production of this program. The Academy and orthopaedic specialty societies work together to provide orthopaedic surgeons with the highest quality educational programs and publications. This cooperative spirit among colleague organizations is an important resource and valuable asset for the orthopaedic community.
