STROKE & ANEURYSM UPDATE

HOTEL NIKKO UNION SQUARE
SAN FRANCISCO, CALIFORNIA

SEPTEMBER 11, 2015

NEURO IR TUTORIAL

UCSF CHINA BASIN CENTER
SAN FRANCISCO, CALIFORNIA

RADIOLOGY AND
BIOMEDICAL IMAGING
UNIVERSITY OF CALIFORNIA
SAN FRANCISCO

NEUROINTERVENTIONAL TUTORIAL

September 11, 2015 / UCSF China Basin Center

The primary purpose of this course is to enable subspecialty interventional neuroradiologists, neurosurgeons, and neurologists to improve imaging interpretation of the brain, spine and vascular systems. This will be achieved by providing an updated review of evidence-based practice, with particular emphasis on neurovascular diseases, such as aneurysms, arteriovenous fistulas, arteriovenous malformations, acute ischemic stroke, and atherosclerosis; as well as novel and emerging technologies, such as physiologic imaging, advanced angiography, and state-of-the-art interventional devices.

The tutorial is a method of transferring knowledge and may be used as a part of learning. More interactive and specific than a book or a lecture; a tutorial seeks to teach by example and supply the information to complete a certain task. Special emphasis will be placed on using case presentations to develop accurate differential diagnoses and suggest appropriate clinical management. There will also be a hands-on opportunity with current neurovascular devices and embolics on flow models.

Earn Self-Assessment Credit This course will offer **7.0 Self-Assessment credits** as indicated on the schedule.

As of January 1, 2013, updated MOC Part 2 requirements: 75 CME credits every three years, at least 25 of which must be self-assessment activities (SA-CME, which includes SAMs). For more information: www.theabr.org/moc-dr-comp2.

At the completion of this course, the attendee should be able to:

1. Improve interpretation of neurovascular imaging studies;
2. Recognize the indications for and limitations of CT, MRI and digital subtraction angiography for stroke and intracranial hemorrhage imaging, and treatment guidance;
3. Differentiate between the various common and rare forms of adult and pediatric neurovascular disease;
4. Appropriately select and implement the use of coils, stents, flow diverters, liquid embolics, sclerosants and/or particulate embolics in the management of complex neurovascular disease;
5. Recommend appropriate management of complex neurovascular disease, with particular reference to the roles of endovascular evaluation and therapy.

Registration

Pre-registration is required as enrollment in this course is limited to 24 registrants.

Tuition: \$ 750 (early registration savings of \$50 by July 17, 2015).

Registration can be made online, by phone or fax (see page 9).

For general inquiries, send an email to: cme@radiology.ucsf.edu.

STROKE AND ANEURYSM UPDATE

September 12, 2015 / Hotel Nikko Union Square

This course will provide a forum for existing best practices, guidelines, algorithms, and resources on the management of ischemic stroke, intracerebral hemorrhage, and subarachnoid hemorrhage to be appraised and discussed, as well as an opportunity to develop a plan for individual and team practice improvement.

Specifically, it will address new imaging techniques for cerebral ischemia, new therapeutic approaches to AVMs, imaging and hemodynamics in aneurysm formation, evidencebased stroke care including management of ischemic stroke, intracerebral hemorrhage, and subarachnoid hemorrhage, updates on treatment of TIA and minor stroke, critical care for complex neuro-vascular patients, surgical and endovascular treatments, and the future of stroke rehabilitation.

This course is designed for health care team professionals who often are the first to come in contact with patients with unknown neurological disorders; such as care providers from Primary Care, Emergency Medicine, Neurology, Radiology, Neurointerventional Radiology, Neurosurgery, and Nursing and Rehabilitation.

At the completion of this course, the attendee should be able to:

1. Apply current best practices for managing patients with complex cerebrovascular diseases such as ischemic stroke, intracerebral hemorrhage, subarachnoid hemorrhage, AVM and aneurysms;
2. Identify and evaluate key updates and advances in stroke, AVM, aneurysm treatment, prevention and recovery;
3. Define key challenges in optimizing care for complex cerebrovascular disease;
4. Develop and assess strategies to enhance individual and team collaboration for the clinical care of patients with ischemic stroke, subarachnoid hemorrhage, and intracerebral hemorrhage.

Registration

Pre-registration is encouraged to ensure a space in this course.

Tuition: \$ 250 MD/DO; \$175 AHP.

Registration can be made online, by phone or fax (see page 9).

For general inquiries, send an email to: cme@radiology.ucsf.edu.

NEURO IR PROGRAM

SA Lectures with Self-Assessment

FRIDAY, SEPTEMBER 11, 2015

7:00 am	Registration and Continental Breakfast	
7:25	Welcome and Introductions	Steven W. Hetts, MD
7:30	Current Imaging of Acute Ischemic Stroke <i>SA</i>	Steven W. Hetts, MD
8:15	Current Endovascular Treatment of Acute Ischemic Stroke <i>SA</i>	Steven W. Hetts, MD
9:00	Hands-On Lab: Embolectomy Devices and Stroke Imaging	Course Faculty
9:30	Recess	
9:45	Dural Arteriovenous Fistulas: Diagnosis and Endovascular Management <i>SA</i>	Drs. V. Halbach & M. Amans
10:30	Pediatric Cerebrovascular Disease <i>SA</i>	Drs. V. Halbach & S. Hetts
11:15	Endovascular Treatment of Aneurysms: State-of-the-Art and the Future <i>SA</i>	Drs. V. Halbach & D. Cooke
11:45	Hands-On Lab: Coils, Embolic Agents, Stents, and Flow Diverters	Course Faculty
12:30 pm	Lunch (provided)	
1:45	Birthmarks and Vascular Anomalies <i>SA</i>	Christopher F. Dowd, MD
2:30	Dural Arteriovenous Fistulas <i>SA</i> Current Surgical Management <i>SA</i>	Michael T. Lawton, MD
3:15	Surgery for Complex Cerebral Aneurysms <i>SA</i>	Michael T. Lawton, MD
3:45	Recess	
4:00	Endovascular Treatment of Aneurysms: Flow Diverters and Parent Artery Sacrifice <i>SA</i>	Daniel L. Cooke, MD
4:30	Angioplasty and Stenting for Cervicocerebral Atherosclerosis <i>SA</i>	Randall T. Higashida, MD
5:15	Questions & Discussion	Course Faculty
5:30	Adjourn	

Accreditation

The University of California, San Francisco School of Medicine (UCSF) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

UCSF designates this live activity for a maximum of **8.25 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This educational activity meets the requirement under California State Assembly Bill 1195, continuing education and cultural and linguistic competency.

STROKE / ANEURYSM PROGRAM

SATURDAY, SEPTEMBER 12, 2015

7:45 am	Registration and continental breakfast	
8:10	Opening Remarks and Introductions	Anthony S. Kim, MD, MAS
8:15	Course Pre-Test	Anthony S. Kim, MD, MAS
8:25	Intracranial Hemorrhage	J. Claude Hemphill, MD, MAS
8:50	Endovascular Stroke Therapy for Large Vessel Stroke	Wade S. Smith, MD, PhD
9:15	Endovascular Treatment of Aneurysms and Vascular Malformations	Steven W. Hetts, MD
9:40	Questions and Discussion	Course Faculty
10:00	Recess	
10:20	New Developments in Hi-Res Imaging of the Arterial Wall	David Saloner, PhD
10:45	Imaging of Stroke	William P. Dillon, MD
11:10	Current State of AVM Surgery	Michael T. Lawton, MD
11:35	Brain AVM Models and Novel Therapeutic Targets	Hua Su, MD
12:00 pm	Questions and Discussion	Course Faculty
12:20	Lunch (provided)	
1:35	Stroke Rehabilitation	Gary M. Abrams, MD
2:00	New Directions for Stroke Rehabilitation	Karunesh Ganguly, MD, PhD
2:25	Aneurysm and Subarachnoid Hemorrhage	Nerissa U. Ko, MD, MAS
2:50	Questions and Answers	
3:10	Recess	
3:30	Recent Advances in Pediatric Stroke	Heather Fullerton, MD, MAS
3:55	TIA Management and Secondary Stroke Prevention	Anthony S. Kim, MD, MAS
4:20	Questions and Discussion	Course Faculty
4:35	Course Post-Test	Anthony S. Kim, MD, MAS
5:00 pm	Adjourn	

Accreditation

The University of California, San Francisco School of Medicine (UCSF) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

UCSF designates this live activity for a maximum of **7.0 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This educational activity meets the requirement under California State Assembly Bill 1195, continuing education and cultural and linguistic competency.

Getting to the Neuro IR Course

The workshop is held at the UCSF China Basin Research Center at 185 Berry Street (at Fourth Street), Lobby 6, Third Floor. The Center is located on the southeast side of the city, next to the baseball stadium, and one block from the CalTrain station.

For China Basin maps/directions:

www.radiology.ucsf.edu/china-basin-imaging/location

Note that the CB free parking listed is for patients only (not course attendees).

For details on SF city transportation routes and fares, visit: www.sfmta.com

Attendees staying at one of the downtown hotels should note that the China Basin Center is approximately a 20 minute walk from Market Street, and is on the N-Judah streetcar line, which is accessible from any of the four underground Market Street Muni stations. The N-Judah stops one short block from the China Basin Center.

For those local to the bay area who will be taking BART, the Montgomery and Powell stations are closest. For those who will be driving, the entrance to Lobby 6 of China Basin Center is at the corner of Fourth and Berry Streets. Stockton Street (downtown SF) travels one-way south, and becomes Fourth Street after crossing Market.

24 Hour Parking:

Beacon 415-546-7755
Safeway parking lot,
4th & Townsend Streets

IMpark 415-227-0114
Giants Stadium parking,
3rd & Channel Streets

Getting to the Stroke & Aneurysm Course

Hotel Nikko Union Square, 222 Mason Street

The workshop is held at the Hotel Nikko, which is two blocks from Union Square plaza, and two blocks from the the Powell underground transit station on Market Street. The Powell transit station connects to BART to both SFO and OAK airports, as well as the city MUNI transit system.

Further information on airport connections and hotel options can be found on the next page.

Air Travel www.radiology.ucsf.edu/postgrad/sf_travel

UCSF Radiology has negotiated discounted fares with Delta and United Airlines for radiology course attendees. You may use the following tour codes to book online or by phone:

<i>Delta</i>	www.delta.com	code: NMJNW	800-328-1111
<i>United</i>	www.ual.com	code: ZSN9112526	800-426-1122 (\$25 fee via phone)

Flights can be arranged to either San Francisco (SFO) or Oakland (OAK) airports.

BART subway service (the least expensive transit option), shuttle vans and taxis are available from both airports to downtown San Francisco.

For more information on transit options to/from both SFO and OAK airports, visit:

SFO: www.flysfo.com OAK: www.oaklandairport.com

Bay Area Rapid Transit (BART) www.bart.gov

BART trains connect the cities surrounding San Francisco within the Bay Area, including SFO and OAK airports. BART travels to/from both SFO and OAK to the downtown SF underground transit stations along Market Street, the Nikko is three short blocks from the Powell Station. For schedules, travel times and costs from both airports, visit the website listed above.

Plan your airport transfers using the Bay Area Trip Planner <http://transit.511.org>

Enter your origin and destination points to get public transit options (BART/MUNI), travel times and fare costs to/from both SFO and OAK.

The SF Giants have baseball home-games this weekend, and the SF Giants Stadium is next to the UCSF China Basin Research Center.

For schedule and ticket information, go to:
sanfrancisco.giants.mlb.com

Photo: AT&T Park, Giants Stadium at China Basin

Hotel Options

Online listing: www2.radiology.ucsf.edu/postgrad/calendar

The hotels listed are located near or around the Union Square and/or downtown Market Street area; all near one of three main underground transit stations along Market Street (Powell, Montgomery and Embarcadero) with entrances to the BART subway that connects to SFO and OAK airports, as well as SF Muni city transit lines.

The UCSF China Basin Research Center is approximately a 20-minute walk from Union Square (heading south, next to AT&T Park / Giants Stadium). The Hotel Nikko is two blocks from the Powell Street underground transit station.

REGISTRATION

REGISTRANT INFORMATION (PLEASE PRINT)

Name _____
First Last Degree

Address _____

Tel _____ Fax _____
Area code Area code

E-mail _____

You must provide an email address with your registration to receive advance syllabus information. Paper copies will not be provided on site.

Would you like to receive general UCSF Radiology CME email notices? ☐ Yes ☐ No

Month/Day of Birth for record verification: ____/____/____
month day X X

METHOD OF PAYMENT

☐ Visa ☐ Mastercard ☐ Check, payable to **UC Regents.**

☐ American Express

Card No. _____

Exp. Date _____ Signature _____

Payment may be made by credit card or by check or money order drawn on a U.S. bank in U.S. currency. We regret that we cannot accept checks drawn on foreign banks. Enrollment confirmation will be mailed to you within two weeks of receipt of the application. In the unlikely event that the program is cancelled, UCSF Radiology will refund the registration fee in full, but cannot be responsible for any hotel or travel costs.

Four easy ways to register:

1. **Online** at www.cme.ucsf.edu
2. **Fax** this form to 415-502-1795
3. **Mail** this form to: UCSF Office of CME,
PO Box 45368, SF, CA 94145-0368
4. **Phone** using Visa, Amex or MC, 415-476-5808,
8:30 am - 4:00 pm (Pacific time)

You must register for BOTH courses SEPARATELY:

NEUROINTERVENTIONAL TUTORIAL

September 11, 2015 / Friday (RAD16 A08)

Attendance is limited to 24 persons.

By 7/17/15 After 7/17/15

☐ \$ 750 ☐ \$ 700 Physician MD / DO / PhD

Cancellation A refund of the enrollment fee, less \$75, will be made upon receipt of a written request only (fax or email) by Friday, August 28, 2015. No refunds will be made after this date.

STROKE & ANEURYSM UPDATE

September 12, 2015 / Saturday (RAD16 B08)

☐ \$ 250 Physician MD / DO / PhD

☐ \$ 175 Allied Health Provider

Cancellation A refund of the enrollment fee, less \$50, will be made upon receipt of a written request only (fax or email) by Friday, August 28, 2015. No refunds will be made after this date.
